Chapparmukh	14,160	Ditto ...	On line of rail.
Jorhat ... ... —	23,424	Ditto ...	Ditto.
Golaghat	19,428	Ditto ...	5 miles from the railway station.
Nazira	19,875	Ditto ...	On line of rail.
Dibrugarh	24,855	Ditto ...	Ditto.
Tinsukia	43,406	Ditto ...	Ditto.

2. The spirit may be made from Mahua or molasses, or a mixture of the two materials in any proportions. Spirit must not be transported of a strength higher than 40° O. P. to the warehouses.

3. Tenders may be submitted for parts of the contract, either with or without a tender for the whole area.

4. The rates tendered must include the cost of carriage of the spirit from the distillery to the warehouses, and the spirit must be issued to retail vendors at such uniform rate per London proof gallon and at such fixed strengths as may be prescribed from time to time by the Chief Commissioner.

5. The contractor will be required to purchase from the existing contractors at the price now current for the warehouse in which such spirit is stored the spirit in stock at the warehouses, but he shall not be bound to take over a quantity in excess of the probable requirements for one month. The contractor must deposit not later than 21st March 1918 in each warehouse a stock of spirit from his own distillery, equivalent to the probable requirements for one month

6. The spirit must have been made in the contractor's own distillery in India.

7. The Commissioner of Excise will require satisfactory evidence that the plant is adequate to meet the total demands made upon the distillery, and he may require the contractor to instal additional stills and other accessories.

8. The contractor will be bound to provide all plant, viz., vats, pumps, pipes, weighing machines, etc., required for the storing, reducing and issue of liquor at the excise warehouses. The incoming contractor must purchase from the outgoing contractor such warehouse plant as is in use and in serviceable condition, and if they do not come to terms as to the price to be paid for the plant aforesaid, the matter shall be referred to three arbitrators, one to be nominated by the outgoing contractor, one by the incoming contractor and one by the Deputy Commissioner of Sibsagar, who shall determine the price to be paid, subject to an appeal to the Chief Commissioner. The opinion of the majority of the arbitrators shall prevail.

The water pumps and accessories and the steel drums for the conveyance of spirit from the Jorhat Distillery to the warehouses not exceeding the number of 550, which are in use and in serviceable condition must also be purchased at a valuation determined by the Excise Commissioner.

The contractor is bound to provide such additional vats, pumps or other apparatus as the Excise Commissioner may consider necessary for the proper equipment of the warehouses.

9. Water for reduction purposes is available at or near each warehouse, but the cost of supplying and maintaining the pumps or manual labour required and of filtration, etc., must be borne by the contractor.

10. The contractor shall be bound to maintain at each warehouse such minimum daily stocks as may, from time to time, be fixed by the Commissioner of Excise.

11. The contractor must keep an agent at each warehouse and shall be responsible for reducing spirit to issue strengths and for all wastages and shrinkages.

12. In case the contract be not renewed at its expiry the contractor will be bound to allow Government the right of pre-emption of the vats, pumps, pipes, etc., at the warehouse, at a valuation made by two valuers according to paragraph 15.

13. Form of license may be obtained from the Commissioner of Excise on application. The contractor will be bound by all the conditions entered therein and by the provisions of the Excise Act in force within the province and by the rules and instructions of the Excise Commissioner issued under the Act.

14. For the observance of the conditions of the contract, the contractor must execute a deed, hypothecating to Government his vats, pumps, pipes and apparatus, together with the stock of liquor in the warehouses, or deposit at the time of signing the contract Government Promissory Notes of such value as the Chief Commissioner may direct

15 Any valuations required will be made by two valuers—one to be selected by the Commissioner of Excise, and the other by the existing contractor. In the event of differences in the valuations, the matter will be referred to the Chief Commissioner, whose decision will be final.

16. The Chief Commissioner is not bound to accept the lowest or any tender.

17 Tenders, enclosed in sealed covers and marked "Assam Spirit Contracts," will be received, up to the 31st July 1917, by the Commissioner of Excise, Assam, to whom application in writing only may be made for further particulars.

S. N. MACKENZIE,
Offg. Commissioner of Excise, Assam.

STARRED QUESTIONS.

By the Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR :—

Housing of colliery labourers.

* 1. (*a*) Are the Government aware that the Bengal Mining Settlements Act of 1912 does not provide any remedy for the defects of the present system regarding the housing of casual labourers in the coal-fields of Bengal?

(*b*) Are the Government considering the desirability of appointing a committee to inquire into the question of the housing of casual labourers in the coal-fields of Bengal?

Answer by the Hon'ble MR. DONALD :—

" (*a*) Government are aware that the Bengal Mining Settlements Act of 1912 does not confer powers to deal with the housing of labourers who come from homes at a distance to work for short periods at the mines. The Act gives power only to provide for the housing of residents within a mining settlement.

(*b*) Government do not consider it necessary to appoint a committee. But the matter will be brought to the notice of the Managers of mines with a view to improving the arrangements for the housing of casual labourers wherever improvement appears to be necessary."

By the Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR :—

Cattle-poisoning in Bengal.

* 2. (*a*) Is it a fact that there are a large number of cases of cattle-poisoning actually occurring in Bengal which are not reported to the police?

(*b*) Is it a fact that many cases of cattle-poisoning have been proved to be due to the administration of arsenic?

(*c*) Will the Government be pleased to state whether they are considering the advisability of taking action to urge upon the owners of cattle the desirability of informing the police whenever a case of cattle-poisoning occurs?

Answer by the Hon'ble MR. KERR :—

" (*a*) It is probable that a considerable number of cases are not reported to the police, but it is impossible to say whether the number is large or not.

(*b*) Yes.

(*c*) No such proposal is under the consideration of Government."

By the Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR :—

Expenditure on popular education.

* 3. Will the Government be pleased to lay on the table a detailed statement showing the amount actually spent up to December, 1916, for improving popular education in Bengal, out of the lump sum of Rs. 9,25,000 provided for this purpose in the Budget Estimates for 1916-17?

Answer by the Hon'ble MR. HORNELL :—

" The Government of Bengal regret that they are unable to supply the information asked for, as no separate account is kept of the expenditure in question. The lump sum referred to consists of two Imperial grants of Rs. 9,00,000 and Rs. 25,000 which have been allotted for expenditure under various heads; and the expenditure is in some cases included in expenditure on similar objects met from allotments from other grants."

Expenditure on female education.

* 4. (*a*) Will the Government be pleased to lay on the table a statement showing the amount actually spent up to December, 1916, for female education in Bengal under various items, out of the sums provided for this purpose in the Budget Estimates for 1916-17?

(*b*) Will the Government be pleased to state the amount of the balance still available for female education for the year ending 31st March, 1917?

Answer by the Hon'ble MR. HORNELL :—

"A statement is laid on the table showing the actual expenditure from Provincial revenues up to December, 1916, so far as figures are available.

For the reasons stated in the reply to Question No. 3, no statement can be given of the expenditure from the Imperial grants.

(*b*) The Hon'ble Member is referred to the answer to Question No. 3, from which it will be apparent that Government are not in a position to state the amount of the balance available from the provision for female education in the Budget for the year 1916-17."

Appointment of Mr. Suhrawardy as a Small Cause Court Judge.

* 5. (*a*) Will the Government be pleased to state whether Nawab Abdur Rahman was the Second Judge of the Calcutta Small Cause Court when he retired?

(*b*) Is it a fact that Mr. Zahid Suhrawardy was at first a Vakil of the Calcutta High Court and then a Barrister-at-Law of some years' standing before he was appointed as a Judge of the Calcutta Small Cause Court upon the retirement of Nawab Abdur Rahman?

(*c*) Will the Government be pleased to state the reason for not appointing Mr. Zahid Suhrawardy as the Second Judge, in the place of the retired Nawab?

(*d*) Will the Government also be pleased to state the reasons for placing Mr. Suhrawardy below the two European Judges and above the three Indian Judges, including the Registrar of the Court?

Answer by the Hon'ble MR. KERR :—

" (*a*) & (*b*) Yes.

(*c*) & (*d*) Government desired to take advantage of the retirement of Nawab Abdur Rahman to give promotion to the existing Judges of the Court as far as possible. At the same time they felt that it was most desirable to appoint a Muhammadan lawyer of standing to the Court, and it was not possible to find a suitable Muhammadan lawyer willing to enter the Court at the bottom. Mr. Suhrawardy was the most capable and experienced Muhammadan lawyer available and was appointed to the lowest place that he could be prevailed upon to accept. This arrangement enabled Government to promote the present Second and Third Judges who entered the Court in 1891 and 1902, respectively. The Fifth and Sixth Judges entered the Court in 1913 and 1908, respectively, while the Registrar was appointed to his post in 1915."

Expenditure of budget allotment for education.

* 8. What was the total budget allotment for education in 1915-16, and how much of this grant was absorbed separately under each of the following heads, *viz* :—

(*i*) Inspection and Superintendence;
(*ii*) Buildings;
(*iii*) Stipends or Scholarships; and
(*iv*) Grants-in-aid?

Answer by the Hon'ble MR. HORNELL :—

" The total budget allotment for education in 1915-16, including the provision made from both Provincial revenues and Imperial grants, was Rs. 1,05,62,000. The following allotments were made from Provincial revenues :—

	Rs.
Direction and Inspection	9,58,000
Stipends and Scholarships	4,37,000
Grants-in-aid	15,06,000
Buildings	†1,38,000

The Imperial grants were shown in the budget as lump sums and separate allotments under these heads were not made."

Increase in the price of oil.

* 9. (*a*) With reference to the official *communiqué* recently issued, increasing the price of oil by 10 annas per unit of two tins of oil, will the Government be pleased to state whether they are aware that in many places there is no provision for storing bulk oil and that the increase made in the price of tin oil is pressing heavily upon the consumers?

(*b*) Are the Government aware that one result of the *communiqué* has been to stifle competition between bulk oil and tin oil in many places?

(*c*) Are the Government taking any steps to remedy this hardship?

Questions and Answers.

Answer by the Hon'ble MR. DONALD :—

" Government are aware that in many places there is no provision for storing oil in bulk. But the difficulty of securing tin plates for the manufacture of tins is so great that it is not possible to sell oil in tins to the same extent as formerly. The price of tins has been increased in order to lessen the demand for tins and induce customers to purchase oil in bulk, and as the price of oil in bulk remains unchanged, it is to the benefit of the consumer to do so. It is desirable to restrict the use of tins as far as possible, and at the same time equally desirable that oil tins should be reserved for this purpose and should not be utilised for other purposes. Both these considerations are met by the increase in the price of tins. The purchaser of oil in tins is not a loser, as the value of the tin itself is certainly not less than the difference between the value of two gallons of oil in tin and in bulk. Government are aware that in some cases dealers are taking advantage of the increase in the price of tins to demand an enhanced price for oil retailed by them. A further consideration affecting the price is the fact that the supply of inferior oil has decreased owing to the cessation of imports of foreign oil and that as a consequence the demand for superior oil, the supply of which is unchanged, has now largely increased. Steps are being taken to make it more generally known that the price of bulk oil has not been changed, while at the same time measures are in contemplation for extending the facilities for the sale of bulk oil."

Small Cause Court Judgeship.

* 10. (*a*) Will the Government be pleased to make a statement explaining the arrangement made in the Presidency Court of Small Causes, by way of filling up the vacancy caused by the retirement of Nawab A. F. M. Abdur Rahman?

(*b*) Who are the officers that have been affected by the manner in which this arrangement has been made?

(*c*) How long has each of them been in Government service and in what capacities; and since when has each of them been in the Presidency Court of Small Causes?

(*d*) Is it not the usual practice, in the case of vacancies in the higher Judgeships in the said Court, to fill them by promotion and make direct recruitment in the lowest appointment?

(*e*) If so, on how many and what occasions was this practice departed from in the past, except in the case of the Chief Judgeship?

(*f*) What are the special qualifications of the gentleman lately appointed Fourth Judge, or other special circumstances, that justify the appointment of an outsider being made in a higher post in supersession of the claims of others already employed in judicial work in the said Court?

Answer by the Hon'ble MR. KERR :—

" (*a*) & (*f*) The Hon'ble Member is referred to the reply to the question which the Hon'ble Babu Ambika Charan Mazumdar has put on this subject.

(*b*) & (*c*) The Hon'ble Member is referred to the Civil List and to the History of Services of Gazetted Officers.

(*d*) This practice has usually been followed.

(*e*) Permanent direct appointments to the Second Judgeship were made in the cases of Mr. Ormond in 1894, and Mr. Bell who had previously acted temporarily as Third Judge for 11 days, in 1904, and to the Third Judgeship in the case of Mr. Handley, in 1892.

Temporary appointments direct to superior Judgeships, excluding the Chief Judgeship, have been made on three occasions."

Settlement operations.

* 11. (*a*) Referring to the answer given to Question No. 12 asked by Babu Surendra Nath Banerji, at a meeting of this Council, on the 30th June, 1913, will the Government be pleased to lay on the table such forms used by the Settlement Department as were stated in the said answer to have given rise to the misunderstanding referred to therein?

(*b*) Is it a fact that in the recent record-of-rights operations, the King-Emperor has been entered as owning a superior right (*Uparistha Sattwa*) with reference to zamindari interests?

(*c*) If so, what are the provisions of the law sanctioning such entries, and under what specific orders have the forms been prepared enabling such entries to be recorded?

Answer by the Hon'ble MR. KERR :—

" (*a*) A copy of a proprietary *khatian* used in the Faridpur settlement with specimen entries has been sent to the Hon'ble Member and another copy has been placed on the Library table.

(*b*) The facts are not quite correctly stated. In the *khatians* of zamindari interests the King-Emperor is entered in the record-of-rights as the " Superior Interest " or " Paramount Power " entitled to receive land revenue. The zamindar himself is clearly entered as proprietor (*malik*).

(*c*) In view of the above, no answer is required."

Village Self-Government Bill.

* 12. (*a*) Will the Government be pleased to state when the Village Self-Government Bill is likely to be introduced in the Legislative Council?

(*b*) Is the said Bill ready?

(*c*) If so, will the Government be pleased to state whether they are considering the desirability of publishing it for criticism, and of circulating it to the District and Local Boards for opinion?

Answer by the Hon'ble MR. DONALD :—

" The Bill is not yet ready and Government are unable to say when it is likely to be introduced. When it is introduced, an opportunity will be given to District Boards and the public to express their opinion on its provisions."

Distribution of augmentation grant to District Boards.

* 13. (*a*) Will the Government be pleased to make a statement detailing the terms and conditions on which the augmentation grant was made in favour of the District Boards by the Government of India?

(*b*) What were the stipulations to which the Provincial Government agreed in this connection as regards the method of distribution among the individual Boards?

(*c*) What is the principle on which the amount of the allotment of the augmentation grant to individual District Boards in any particular year is ascertained?

(*d*) Does it bear any proportion to the cess receipts?

(*e*) If so, will the Government be pleased to explain the process of calculation by a reference to the amounts of the grant for 1913-14 and subsequent years?

(*f*) Referring to the figures given in reply to my unstarred question No. XLVII on the 13th December, 1916, will the Government be pleased to explain the reason why the augmentation grant has been showing a decrease since 1913-14 as compared with the amounts of the previous years?

Questions and Answers.

Answer by the Hon'ble MR. DONALD :—

" (*a*) & (*b*) When the augmentation grant was first made, the Government of India stated that they proposed at the outset to leave the distribution of the grant to the discretion of the Local Government, but that later on it would probably prove desirable to make the distribution rateably. They directed that the District Boards should be instructed that, in utilising the sums placed at their disposal, expenditure on roads and bridges should have preference in all cases in which additional outlay on such works could be incurred with advantage. No other terms and conditions were laid down by the Government of India and there was no agreement between that Government and the Local Government.

(*c*) The Hon'ble Member is referred to the answer given to clause (*b*) of the answer to starred question No. 10 asked by him on the 23rd January, 1917.

(*d*) & (*e*) The amount of the augmentation grant is fixed at 25 per cent. of the net receipts from the road cess less the amount by which the net Public Works Cess exceeds Rs. 29,42,000. This latter sum is made up of the Imperial assignment to Provincial Revenues as compensation for the loss of the Public Works Cess and the amount of the equilibrium grant that was resumed when the Public Works Cess was made over to District Boards.

The calculations for the year 1913-14, and subsequent years were as follows :—

	Rs.
1913-14—	
Net Road Cess receipts	29,38,832
25 per cent. on above	7,34,708

The augmentation grant was, therefore, Rs. 7,34,708, but the amount was originally calculated at Rs. 5,84,496, and this amount only was paid in 1913-14. The balance was subsequently paid to District Boards, *viz.*, Rs. 15,000 in 1914-15, and Rs. 1,35,212 in 1915-16, the latter sum being made over to the District Boards mentioned in paragraph 13 of the Resolution on the working of District Boards for 1915-16.

	Rs.
1914-15—	
Net Road Cess receipts	29,44,888
25 per cent. on above	7,36,222
Deduct difference between Rs. 29,90,367 (net Public Works Cess) and Rs. 29,42,000	48,367
Augmentation grant	6,87,855
To which was added Rs. 15,000 arrears of previous year ...	15,000
Total ...	7,02.855
1915-16—	
Net Road Cess receipts	29,39,461
25 per cent. on above	7,34,865
Deduct difference between Rs. 30,79,788 (net Public Works Cess) and Rs. 29,42,000	1,37,788
Augmentation grant	5,97,077
To this was added Rs. 1,35,212 (above referred to)	1,35,212
Total ...	7,32,289
1916-17—	
Net Road Cess receipts	30,28,309
25 per cent. on above	7,57,077
Deduct difference between Rs. 32,75,431 (net Public Works Cess) and Rs. 29,42,000	3,33,431
Augmentation grant	4,23,646

Questions and Answers.

Answer by the Hon'ble MR. DONALD :—*concluded.*

(*f*) The augmentation grants for each year since 1913-14 have declined owing to the fact that the excess of the receipts from Public Works Cesses over the Imperial assignment made to Provincial Revenues as compensation for the loss of the Public Works Cess has increased in each year."

Allotment of augmentation grant to District Boards.

* 14. (*a*) What are the terms of agreement between the Imperial and the Provincial Governments which permit the latter to depart from the general principles of allotment of the augmentation grant to individual District Boards, as stated in answer to starred question No. 10 asked by me on the 23rd January last?

(*b*) On how many and what occasions were such departures made by the Government of Bengal since 1905, and in what particular manner were these departures made?

(*c*) Is there any instance on record in which a mistake in the calculation of the amount of augmentation grant, as referred to in answer to starred question No. 10 of the 23rd January, 1917, was considered a sufficiently strong case to justify a variation from the practice of making rateable distribution; and do the rules or the understanding in this behalf authorise Government to make such variations on any such grounds?

Answer by the Hon'ble MR. DONALD :—

" (*a*) As stated in the reply to question 13 (*a*) and (*b*), there was no agreement between the Local Government and the Government of India.

(*b*) From 1905-06 to 1908-09, Government distributed the grant rateably to divisions, leaving the Commissioners to distribute it among the different District Boards in their divisions according to local requirements. A slight deviation from the principle of rateable distribution occurred in 1907-08 and 1908-09. In the former year the allotment to the Burdwan and Presidency Divisions was reduced by Rs. 2,262 and Rs. 541, respectively, the allotment to the Orissa Division being increased accordingly; and in the latter year the allotments made to the Burdwan and Presidency Divisions were the same as in 1907-08. From 1909-10 to 1914-15 the grant was distributed rateably by Government direct to different District Boards. In 1915-16 special grants were made for special reasons to particular District Boards, as explained in the answer to clause (*c*).

(*c*) The special grants amounting to Rs. 1,35,212, which were made in 1915-16, were justified by the exceptional circumstances of particular districts and not by the mistake in calculation. As stated in the reply given to starred question No. 10 on the 23rd January, 1917, Government have the right to depart from the principle of rateable distribution in exceptional cases to meet exceptional circumstances."

Proposed Cess (Amendment) Bill.

* 15. (*a*) With reference to a statement made by His Excellency the President in this Council on the 1st December, 1913, to the effect that it was expected to make certain amendments in the Cess Act of 1880, will the Government be pleased to state the reason for the delay in introducing the amending Bill?

(*b*) Is the said Bill ready?

(*c*) If so, when is it expected to be introduced in Council, and what are its main provisions?

Answer by the Hon'ble MR. KERR :—

" (*a*) & (*b*) It has been decided to postpone the Bill to amend the Bengal Cess Act until the Village Self-Government Bill is considered. When the latter matter is settled, the question of introducing the amending Bill will be taken up.

(*c*) Government are not prepared at this stage to publish information regarding the provisions of the Bill."

Exemptions under the Arms Act.

* 16. (*a*) With reference to the exemptions allowed under the Arms Act, as specified in article 18 (*c*) of Schedule I of the Indian Arms Rules, 1909, will the Government be pleased to state whether the said exemptions are made by the Governor General in Council on the recommendation of the Local Government?

(*b*) If so, what are the principles on which such recommendations are made?

(*c*) What class of persons are meant to be included in the term " great zamindars of Bengal " in the said article?

(*d*) How many persons in Bengal at present enjoy the privilege of exemption under particular articles of Schedule I of the Indian Arms Rules?

Answer by the Hon'ble MR. KERR :—

" (*a*) The Government of India have exempted great zamindars as a class. The question whether any particular individual falls within the class is decided by the Local Government under the authority vested in it by the entry in the third column of the Schedule.

(*b*) & (*c*) Each case is decided on its merits, regard being had to the importance of the zamindari and the status of the family.

(*d*) The number of persons exempt under the following articles of Schedule I is as follows :—

Article				Number.
1	...	...	....	85
1 (*a*)	...	...	...	61
1 (*b*)	...	...	...	409
1 (*e*)	...	...	...	14
4	...	...	...	1,800
15 (*a*)	...	...	...	64
18 (*c*)	....	...	...	157

Proposed Light Railway in Rajshahi.

* 17. (*a*) With reference to the reply given to my unstarred question No. I (*d*) asked at the meeting of the Council held on the 13th December last, regarding the construction, by the District Board of Rajshahi, of a light railway between Ishurdi and Godagari, will the Government be pleased to state what decision, if any, the Railway Board has arrived at in the matter?

(*b*) In considering the question, have the Railway Board taken into account the fact that the line from Godagari has already been extended to Bargachi, which is 13 miles from Rampur Boalia, and that the people are suffering great hardships for want of connection in regard to these 13 miles only?

(*c*) If the answer to clause (*b*) is in the negative, will the Government be pleased to state whether they are considering the desirability of drawing the attention of the Board to this aspect of the case?

Answer by the Hon'ble MR. COWLEY :—

" (*a*), (*b*) & (*c*) The Railway Board are in possession of full particulars regarding the positions of the existing lines and of the desire of the people of Rampur Boalia for railway connections to their town. This Government are still awaiting the orders of the Railway Board regarding the proposed District Board railway from Ishurdi to Godagari."

Steamer service in Rajshahi.

By the Hon'ble BABU KISHORI MOHAN CHAUDHURI :—

* 18. (*a*) Are the Government aware that the India General Steam Navigation and Railway Company are now running a steamer from Pabna to Paksi and have opened a steamer ghat at the latter place?

(*b*) Are the Government also aware that people proceeding to Eastern Bengal from Rampur Boalia, Sardah and other places on the bank of the Padma, experience great difficulty for want of proper communications?

(*c*) Will the Government be pleased to state whether they are considering the desirability of arranging with the India General Steam Navigation and Railway Company for a daily steamer service between Paksi and Charghat, up to which latter place a daily steamer service is now running from Lalgolaghat *viâ* Rampur Boalia?

Answer by the Hon'ble MR. COWLEY :—

" (*a*), (*b*) & (*c*) The Managing Agents of the India General Steam Navigation and Railway Company have been consulted by Government and have replied as follows :—

> ' In December last, owing to deterioration of the channels at the entrance to the river Gorai, we were compelled temporarily to divert our ferry service, which for some years has run between Pabna and Kushtia, to Paksi. The service has since run between Pabna and Paksi, but will revert to Kushtia when the water at the Gorai entrance permits of this being done.
>
> ' Until our vessels taken up by Government are returned to us or can be replaced, we greatly regret that we are unable to promise an extension of the existing Lalgolaghat-Charghat steamer service to Paksi, which would mean the provision of an additional steamer for that service. The matter will, however, be kept well before us.'

Government are satisfied that the Company is doing its best for the convenience of the public."

Money order commissions on landlords' fees.

* 19. (*a*) With reference to the reply given to my starred question No. 1 (*b*) asked at the meeting of the Council held on the 13th December, 1916, will the Government be pleased to state whether separate money order commissions for the transmission of landlords' fees to each of the joint landlords, according to their respective shares and interests in the land transferred, are demanded from the transferees of permanent tenures?

(*b*) If the answer to clause (*a*) be in the negative, will the Government be pleased to state whether they are considering the desirability of making rules insisting that the transferees of permanent tenures shall state the share or interest of the several joint landlords in the property sold, and shall deposit the requisite money order fees for the transmission of the landlords' fees to the respective landlords?

(*c*) Will the Government also be pleased to state whether they are considering the advisability of making over the landlords' fees, which are about to lapse, to the District Boards of the districts concerned, for expenditure on the improvement of sanitation and primary education?

Answer by the Hon'ble MR. KERR :—

" (*a*) Separate money order commissions are not demanded for the transmission of landlords' fees to each of the joint landlords.

(*b*) Government do not consider it desirable to attempt to apportion landlords' fees among joint landlords, and to realise separate money order commissions for the transmission of the same to each landlord separately.

(*c*) The reply is in the negative."

Preservation of Brahmani bulls.

* 20. (*a*) Has the attention of the Government been drawn to the case reported in Indian Law Reports 17, Calcutta, page 852?

(*b*) Are the Government considering the desirability of taking such steps as may be necessary for the preservation of Brahmani bulls, which are dedicated at the *sradh* ceremonies of Hindus, and to their utilization, by the agricultural classes, both Hindus and Muhammadans, for breeding purposes?

Answer by the Hon'ble MR. KERR :—

" (*a*) Yes.

(*b*) No such proposals are under the consideration of Government."

Acting allowance to Provincial Educational Service officers.

* 21. (*a*) Will the Government be pleased to state whether the allowance of Rs. 100, which is given to Provincial Educational Service officers when acting in the place of Indian Educational Service officers, is confined to Provincial Educational Service officers of the same college in which the Indian Educational Service vacancy occurs, even when the acting officers are very junior?

(*b*) Is it a fact that, in other provinces, such acting allowances are not confined to the same college?

(*c*) Is it a fact that in such colleges as the Rajshahi College, which is staffed by Provincial Educational Service officers only, very senior officers do not receive any such acting allowance?

(*d*) Are the Government aware of the feeling that exists that this practice tends to work hardly on several officers who are efficient and have long and meritorious service to their credit?

Answer by the Hon'ble MR. HORNELL :—

" (*a*) The answer is in the negative. When a vacancy occurs in an Indian Educational Service post in a college, the acting allowance is drawn by the officer appointed to act in that post, who may belong to the college or may be transferred from another college.

(*b*) The Government of Bengal have no information.

(*c*) As the Rajshahi College has no post in the Indian Educational Service attached to it, the allowance cannot be drawn by an officer while serving in the college; but there is nothing to prevent an officer in the college being transferred to act in an Indian Educational Service vacancy elsewhere and drawing the allowance in question.

(*d*) The answer is in the negative."

Special allowances to Provincial Educational Service officers.

* 22. (*a*) Is it a fact that the Government contemplated granting special allowances to officers of the Provincial Educational Service when they are promoted to the posts of Principal and Inspector?

(*b*) Is it a fact that the Principal of the Rajshahi College is the only officer in the Provincial Educational Service who is serving as a Principal of a large first grade Government college?

(*c*) Is it a fact that he has served as such for nearly twenty years?

(*d*) If the answer to clause (*c*) is in the affirmative, will the Government be pleased to state the reason why no such allowance has been given to that officer?

(*e*) If the answer to clause (*a*) is in the affirmative, will the Government be pleased to state whether they are taking steps to grant the said allowance to all officers of the Provincial Educational Service who have been promoted to the post of Principal or Inspector for efficient service?

Questions and Answers.

Answer by the Hon'ble MR. HORNELL :—

" (*a*) No allowances such as those referred to in the question have been sanctioned by Government.

(*b*) & (*c*) The answer is in the affirmative.

(*d*) & (*e*) No such allowances having been sanctioned, these questions do not arise."

Jute-steeping in Bengal.

* 23. (*a*) Are the Government aware that jute-steeping is a source of water pollution in Bengal?

(*b*) Will the Government be pleased to state what steps, if any, they are taking to remedy the evil?

Answer by the Hon'ble MR. DONALD :—

" (*a*) Government are advised that the steeping of jute in water, more especially when the quantity of jute is large and the volume of water is small, can cause such pollution as to render the water unfit for human consumption.

(*b*) A copy of a note by the Sanitary Commissioner, pointing out the danger of steeping jute in the sources of drinking water supply or in water actually used for drinking, has been circulated to District Boards and Municipalities for such action as they may consider necessary. Under the model municipal by-laws the steeping of jute in any tank or ditch in municipal limits is a penal offence, and the model by-laws for District Boards prohibit the steeping of jute in any drain, borrow-pit or excavation at the side of any road."

Condition of Tolly's Nala.

*24. (*a*) What is the present state of Tolly's Nala?

(*b*) Is it a fact that it is gradually being silted up to such an extent that navigation is becoming practically impossible?

(*c*) What steps are the Government taking in the matter?

Answer by the Hon'ble MR. COWLEY :—

" (*a*) The condition of Tolly's Nala has not altered greatly during the past five years.

(*b*) During the period from the 1st December to the 15th June in each year the water in Tolly's Nala is insufficient to allow of the passage of heavily laden boats.

(*c*) Government have been advised that there are two possible remedies to restore navigation in Tolly's Nala—

(*i*) by canalising the nala ;

(*ii*) by constructing a lock and sluice at Samukpotta so as to keep out the Bidyadhari tide and by constructing a channel for the Hooghly tide to spill into the southern lake at Samukpotta.

The former remedy formed a part of the original Grand Trunk Canal project, but has for the present been abandoned until it has been ascertained from actual tide observations whether the second remedy is likely to prove effectual.

Tolly's Nala will be closed to navigation with effect from the 12th March, 1917, *vide* Notice dated the 10th February, 1917, published at page 187, Part II, of the *Calcutta Gazette* of the 14th idem, to enable these tidal observations to be made."

The proposed Shambazar Park.

* 26. (*a*) Are the Government aware that on account of the proposed scheme of the Calcutta Improvement Trust for laying out the Shambazar Park, several tradespeople will be ousted from the khasmahal?

(*b*) Have the Government any *khas* land on the other side of the Canal?

(*c*) If so, are the Government considering the advisability of accommodating the said tradespeople thereon?

Answer by the Hon'ble MR. DONALD :—

" (*a*) & (*c*) The Shambazar Park scheme has not yet been submitted to Government.

(*b*) There is khasmahal land on the eastern side of the Canal."

Proposed widening of Lal Bazar Street.

* 28. (*a*) Have the Government received a representation from the Corporation asking that the new Lal Bazar Police building be set back to widen Lal Bazar Street, on the ground that the present width is quite inadequate to cope with the large volume of traffic?

(*b*) If so, will the Government be pleased to state what orders they have passed on the said representation?

Answer by the Hon'ble MR. COWLEY :—

" (*a*) Yes. An application has been made by the Chairman of the Calcutta Corporation for the transfer to the Corporation of a strip of the land on which the Police building at Lal Bazar stands for widening Lal Bazar Street.

(*b*) The matter is still under correspondence with the Corporation."

Sibpur Engineering College.

* 29. (*a*) How many members are there in the Governing Body of the Sibpur Engineering College?

(*b*) How many are Europeans and how many are Indians?

(*c*) Are the Government considering the advisability of granting the privilege of nominating some members of the Board of the Governing Body to the passed *alumni* of the college of a certain number of years' standing?

(*d*) If not, have the Government before them any other proposal for the reconstitution of the Board with a view to giving it a more representative character?

(*e*) Is it a fact that the Principal of the Sibpur Engineering College does not take any active part in the work of instruction of the students and does not come into direct contact with them?

(*f*) If so, are the Government taking any steps to introduce a change in this matter with a view to relieving the Principal of his routine duties to enable him to exercise greater influence over the students?

Answer by the Hon'ble MR. HORNELL :—

"(*a*) & (*b*) The Governing Body of the Civil Engineering College, Sibpur, consists of ten members—nine Europeans and one Indian.

(*c*) & (*d*) No proposal for the reconstitution of the Governing Body is under the consideration of Government.

(*e*) The administrative duties of the Principal of the Civil Engineering College are such as to leave him very little time for actual teaching work, but he manages to see a good deal of his students in their daily occupations.

(*f*) The question of relieving the Principal of routine duties is engaging attention."

Juggernath Ghât warehouse.

* 30. (*a*) Are the Government aware that the Commissioners for the Port of Calcutta have erected a three-storied warehouse building on the river bank adjoining Juggernath Ghât?

(*b*) Are the Government also aware that the roadway in front of this building is obstructed by rows of pillars and is used for dumping goods?

(*c*) Are the Government aware that this causes great inconvenience to the Hindu population in the north of the town?

Answer by the Hon'ble MR. COWLEY :—

"(*a*) & (*b*) The Port Commissioners have erected a warehouse near Juggernath Ghât. The western portion of the warehouse consists of two storeys. The eastern portion consists of a single storey carried on pillars, a wide public roadway running below this portion. A plan of the building has been placed in the Library. The Governor in Council understands that goods are not dumped on the roadway below the eastern portion of the warehouse, but carts which bring goods to and from the warehouse are loaded and unloaded there.

Laying out of North Strand Bank.

*31. (*a*) Are the Government aware that a plan for the laying out of the area north of the Howrah Bridge was prepared in Sir Frederick Dumayne's time?

(*b*) Are the Government aware that in this plan two 40 feet and one 75 feet roadways were provided for?

(*c*) Are the Government aware that the said plan was considered at a Conference of the representatives of the Corporation and the Port Trust in connection with the proposal to widen Strand Road?

(*d*) Is it a fact that at this Conference the prospect of opening new roads on the Strand Bank was also held out?

(*e*) Are the Government aware that a general feeling exists amongst the Hindu population of the city that the policy of that plan is now being reversed and that warehouses are being regularly constructed without any consideration to the proper lay-out of the area or to its light and ventilation?

(*f*) Will the Government be pleased to lay on the table the proceedings of that Conference and a copy of the plan of the original lay-out?

Answer by the Hon'ble MR. COWLEY :—

"(*a*), (*b*), (*c*), (*d*) & (*f*) A copy of the proceedings of a conference held on 23rd July, 1909, under the presidency of the Hon'ble Mr. Slacke, and a copy of the lay-out which was then proposed, have been placed in the Library.

(*e*) The lay-out which was contemplated by the Port Commissioners in 1909 has not been carried into effect, but both in connection with the warehouse which forms the subject of question No. 30 (the plan of which was duly approved by Government) and in connection with any other warehouses which may hereafter be constructed, much consideration has been, and will be, given by the Port Commissioners to the questions of lay-out, light and ventilation. Proposed promenade in North Strand Bank.

*32. (*a*) Are the Government aware that the General Committee of the Corporation requested the Port Commissioners of Calcutta to provide a promenade for the Indian community in the north of the town from Howrah Bridge as far as practicable towards Baghbazar?

(*b*) Will the Government be pleased to state when the Port Commissioners will provide such a promenade?

(*c*) Are the Government aware that the General Committee of the Corporation also requested that a portion of the reclaimed land on the river bank on the south of the Prasanno Kumar Tagore Ghât be temporarily leased to the Corporation for the purpose of providing an enclosed garden or grassy plot for the people in the northern part of the town?

(*d*) Will the Government be pleased to state what has been the result of the Corporation's representations in this matter?

(*e*) Are the Government aware that both promenade and sitting accommodation have been provided by the Port Commissioners in the southern part of the town?

(*f*) Is it not a fact that guarantees were given by Lord Dalhousie in his despatch dated the 22nd October, 1852, that lands given for the Strand Road and river frontage would be used not for building purposes but for public purposes connected with the trade, the traffic, the health and the convenience of the community?

Answer by the Hon'ble MR. COWLEY :—

"(*a*), (*b*), (*c*) & (*d*) A proposal for a river-side promenade north of Howrah Bridge has been recently under the consideration of the Improvement Trust, the Calcutta Corporation and the Port Commissioners. No agreement has yet been arrived at. If the bodies concerned ultimately fail to arrive at an agreement Government are prepared to assist them to do so.

Silting up of the Buriganga and the Dhaleshwari.

* 33. (*a*) Are the Government aware of the difficulties that have arisen, in the western part of the Dacca district, on account of the silting up of the Buriganga and the Dhaleshwari, in the way of internal communication, sanitation, water-supply and trade facilities?

(*b*) What measures have been adopted, so far, for the removal of these difficulties and under what expert advice and supervision?

(*c*) Is there any definite and comprehensive scheme before Government for the improvement of these rivers?

(*d*) If so, under what expert advice has such a scheme been formulated?

(*e*) Will the Government be pleased to lay on the table a statement showing, year by year, the amount spent, in the last ten years, in improving the condition of these rivers and the result, generally, thereof?

Answer by the Hon'ble MR. COWLEY :—

"(*a*) Yes.

(*b*) Dredging and bandelling of the shoals in both the Dhaleshwari and the Buriganga rivers have been undertaken since the year 1906-07 for the removal of the difficulties of navigation. These measures have been adopted with the advice of the officers of the Public Works Department and carried out under the supervision of the Executive Engineer, Dacca Division.

(*c*) & (*d*) There is no definite and comprehensive scheme for the improvement of these rivers beyond systematic dredging and bandelling.

(*e*) The expenditure during the past 10 years, inclusive of the expenditure up to January 1917, has amounted to Rs. 4,03,088 (*vide* statement laid upon the table). The annual reports on training works show that the operations generally result in improved conditions towards the end of the winter season but are not of a permanent nature. Dredging operations have been discontinued since 1915-16."

Questions and Answers.

By the Hon'ble BABU BRAJENDRA KISHOR RAY CHAUDHURI :—

Death-rate, etc., of the Province.

* 34. Provided that Government are in a position to do so, will they please make a statement giving, for the last ten years, the subdivisions or other well-defined areas, in which the death-rate has exceeded the average birth-rate of the Province, noting, in each instance, the general sanitary condition, nature of water-supply and the amount of available medical aid and the main causes of such excessive mortality?

Answer by the Hon'ble MR. DONALD :—

"Government are not in a position to give the information which the Hon'ble Member desires."

UNSTARRED QUESTIONS.

(*The Answers to which were laid on the table.*)

By the Hon'ble KUMAR SHIB SHEKHARESWAR RAY :—

Narrow bridges on the Sara-Serajganj Railway.

1. (*a*) Are the Government aware that great inconvenience is felt by the people of Pabna on account of the low and narrow bridges and insufficient number of culverts between the stations Bhangura and Ullapara on the Sara-Serajganj Railway?

(*b*) Is it a fact that the rivers between the above two stations are largely used by country-boats engaged in jute and other trades?

(*c*) Is it a fact that the railway bridges between the above two stations are too low and narrow to allow boats to pass with safety under them during the rains?

(*d*) Is it a fact that some fatal accidents took place last year near those bridges, involving the loss of some lives and boats?

(*e*) Is it a fact that the drainage of the adjoining villages is seriously affected on account of the insufficient number of culverts in the railway embankment between the above two stations and that a large area in the locality has become unfit for cultivation on account of the defective drainage?

(*f*) Is it a fact that since the railway line has been constructed, serious outbreaks of malaria are of yearly occurrence in the locality?

(*g*) Are the Government considering the desirability of making an inquiry into the matters referred to in the above questions?

Answer by the Hon'ble MR. COWLEY :—

"(*a*) & (*c*) Government have received complaints that some of the smaller culverts on the Bhangura-Ullapara section of this railway have insufficient headway, with the result that boats have sometimes to make a detour in order to pass under one of the bridges with larger headway.

(*b*) Yes.

(*d*) No fatal accidents have been reported to the local authorities.

(*e*) The information before Government is to the effect that the waterways, as distinct from the headways, are sufficient and that the drainage of the country has not been affected.

(*f*) No; the District Officer reports that the health of the locality has improved during recent years.

(*g*) The question of the headways and waterways in this stretch of line has already been carefully investigated by the Superintending Engineer and the District Officer, with the result noted above. Government represented to the Railway Board last year that the type of girder should be changed in some of the smaller bridges so as to provide greater headway for boats. As difficulty was experienced in obtaining girders of the new type, this Government consented, as a temporary measure, to the retention of the present girders; but Government are again addressing the Railway Board on the subject. The Superintending Engineer and the District Officer have also been asked to make a further investigation regarding the waterways during the rains of 1917 and to submit a report containing their final recommendations."

Questions and Answers.

By the Hon'ble KUMAR SHIB SHEKHARESWAR RAY :—

Recovery of settlement costs.

II. (*a*) Will the Government be pleased to state the names of the districts where proceedings in connection with the recovery of settlement costs have been completed or are in progress?

(*b*) In these districts will the Government be pleased to state, district by district,—

(*i*) on what principle the settlement costs have been charged, *i.e.*, whether they have been charged on the quantity of land contained in each holding or on its rent or according to its valuation;

(*ii*) on what principle the costs have been apportioned between the occupancy raiyat and his immediate superior landlord;

(*iii*) how the costs have been apportioned amongst the different grades of landlords, *i.e.*, revenue-payers, *pattanidars*, *darpattanidars*, etc.; and

(*iv*) whether any distinction has been made between the charges on arable and waste lands?

(*c*) In those districts where proceedings in connection with the recovery of costs have been completed or are in progress, will the Government be pleased to state, district by district,—

(*i*) what have been the net expenses of the settlement operations;

(*ii*) what amount has been contributed by the Government;

(*iii*) what amount has been estimated as recoverable costs; and

(*iv*) what has been actually recovered?

Answer by the Hon'ble MR. KERR :—

"(*a*) Recovery proceedings have been practically completed in Bakarganj, Faridpur and Jalpaiguri and the balance is being recovered by the district staff. In Dacca, Mymensingh, Rajshahi and Midnapore recovery is in progress.

(*b*) Copies of the apportionment orders have been sent to the Hon'ble Member and have been placed on the Library table: the information asked for will be found therein.

(*c*) A statement showing the information required is laid on the table."

Statement referred to by the HON'BLE MR. KERR *in his answer to Question No. II (unstarred) asked by the* HON'BLE KUMAR SHIB SHEKHARESWAR RAY *at the Council Meeting of the 5th March, 1917*

In the case of Rajshahi and Midnapore the figures relate only to the areas for which apportionment orders have been issued. In all cases the figures showing the "amount debitable to Government" include sums debitable to the Local Government as well as sums debitable to the Imperial Government.

Questions and Answers.

By the Hon'ble BABU ARUN CHANDRA SINHA :—

III. (*a*) Are the Government aware that the inhabitants of the island of Hatiya, within the district of Noakhali, are suffering from great hardship for want of telegraphic communication with the mainland? **Telegraphic communication, etc., to and from Hatiya.**

(*b*) Are the Government also aware that there is no arrangement for the daily despatch of mails to and from the island of Hatiya?

(*c*) Have the Government before them any proposal to remove these grievances?

Answer by the Hon'ble MR. COWLEY :—

" (*a*) Government are aware that there is no telegraphic communication between Hatiya and Noakhali, but are not aware that this entails great hardship on its inhabitants.

(*b*) Government are aware that at present there is no arrangement for the daily despatch of mails to and from the island of Hatiya. There are two lines of steamers touching at Hatiya—

(*1*) the Ichakhali-Hatiya service; and

(*2*) the Barisal-Chittagong service.

Both were daily services until August last, when owing to the River Steam Navigation Company's steamers being requisitioned for war purposes the Ichakhali-Hatiya service was converted into a tri-weekly service. Mails for Hatiya are at present carried exclusively by this service.

(*c*) It would be no advantage to send postal articles posted at Noakhali for Hatiya or *vice versâ viâ* Barisal. The Postmaster-General is now considering whether an improvement can be effected as regards letters to and from other places."

By the Hon'ble MR. M. ASHRAF ALI KHAN CHAUDHURI :—

IV. Will the Government be pleased to lay on the table a statement showing, office by office,— **Stenographers and typists in the Bengal Secretariat.**

(*i*) the number of permanent Stenographers and ordinary Typists in each of the departments of the Bengal Secretariat and its attached offices;

(*ii*) their educational qualifications;

(*iii*) their nationality;

(*iv*) what attempt, if any, has been made to appoint Muhammadan Typists to these posts; and

(*v*) how many leave and temporary vacancies occurred during the year 1916 in these posts and how many of them were filled up by Muhammadans?

Answer by the Hon'ble MR. DONALD :—

" (*i*), (*ii*), (*iii*) & (*v*) A statement showing the details required by the Hon'ble Member is laid on the table.

(*iv*) No special attempts are made to recruit Muhammadans as Stenographers and Typists. All vacancies are duly advertised and applications invited. The most suitable candidates are then selected. In the case of stenographers, their competence is judged by the Secretary or Head of the Department after actual experience of the work of the best candidate available. The Heads of offices report that there is a dearth of suitable Muhammadan candidates."

By the Hon'ble MR. M. ASHRAF ALI KHAN CHAUDHURI:—

V. Will the Government be pleased to state—

Lower division appointments in the Bengal Secretariat.

(*i*) the minimum qualification required for the appointment of assistants in the lower division of the Bengal Secretariat;

(*ii*) whether any Hindu assistants have been appointed since the reconstitution of Bengal in 1912, whose educational qualifications fell short of the required standard, and, if so, how many were so appointed and what were their qualifications?

(*iii*) how many Muhammadan assistants have been appointed since the modification of the partition in 1912 whose qualifications similarly fell below the required standard?

Questions and Answers.

Answer by the Hon'ble MR. DONALD :—

" (*i*) The minimum qualification required for the appointment of assistants in the lower division of the Bengal Secretariat is—

(*a*) In the case of Indians—The pass certificate of the Intermediate or any higher examination of an Indian University or the Final examination of the advanced Commercial Classes.

(*b*) In the case of Europeans or Anglo-Indians—The pass certificate of the Intermediate examination of an Indian University, or the High School Pass Examination, the Senior Cambridge Local Examination, the Cambridge Senior School Certificate Examination, or the Final examination of the advanced Commercial Classes.

(*ii*) Since 1912 seven Hindu assistants have been appointed whose educational qualifications fell short of the required standard. Of these, four had read up to the I.A. standard, one had passed the Entrance Examination, and two had read up to the Entrance.

(*iii*) Since 1912 four Muhammadan assistants have been appointed whose qualifications fell below the required standard. These four had read up to the I.A. standard."

By the Hon'ble MR. M. ASHRAF ALI KHAN CHAUDHURI :—

Filling up of vacancies in the teaching staff in the Calcutta Madrassah.

VI. (*a*) Will the Government be pleased to state whether it is a fact that preference has always been given to Biharis over Bengali candidates in filling up vacancies in the teaching staff of the Anglo-Persian Department of the Calcutta Madrassah?

(*b*) If the answer to clause (*a*) of the question is in the affirmative, will the Government be pleased to state whether they are considering the desirability of asking the authorities to give preference to Bengali Muhammadans of equal qualifications over non-Bengalis in filling up future vacancies in that institution?

Answer by the Hon'ble MR. HORNELL :—

" (*a*) The answer is in the negative.

(*b*) The answer to the previous question being in the negative, no reply to this question is necessary."

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

Cost of the Fisheries Department.

VII. (*a*) Will the Government be pleased to state in what proportion the salary of the Deputy Director of Fisheries and other charges of the Department of Fisheries of Bengal, Bihar and Orissa, are shared by the Government of Bihar and Orissa, and on what principle and understanding, if any, has the said proportion been fixed?

(*b*) Are there any fixed periods for which the Deputy Director and other officers of any joint staff of the department, are expected to tour and otherwise work within the jurisdiction of Bengal?

(*c*) For how many days in the year did the Deputy Director reside in Bengal since 1912; and how much touring was done by him in Bengal, and Bihar and Orissa, respectively, during these periods?

Questions and Answers.

Answer by the Hon'ble MR. KERR :—

" (*a*) The expenditure is shared equally on the principle that the work of the Fishery Department is equally beneficial to the two provinces.

(*b*) No. One of the two Superintendents works principally in Bengal and the other in Bihar and Orissa.

(*c*) The headquarters of the Deputy Director are at Calcutta. The numbers of days spent on tour each year and the districts visited are mentioned in the last four annual reports, copies of which have been sent to the Hon'ble Member and placed on the Library table. To calculate the number of days spent in each Province would involve labour incommensurate with the value of the information."

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

VIII. (*a*) How many attempts have been made up to date in Bengal and in Bihar for the establishment of hatcheries for *hilsa* and carp respectively, since 1912, and with what result? Establishment of hatcheries for *hilsa* and carp.

(*b*) Have the breeding grounds of *hilsa* been located yet? If so, where?

(*c*) How many rearing tanks have been established in Bengal, as proposed, having fish-runs in connection with main rivers, where carps may breed under natural conditions and eggs and fry can be collected and reared?

(*d*) To what extent will the recent discovery, that carps breed in tanks as well as in running water, affect this scheme?

(*e*) To what practical use is the said discovery being put by the department?

(*f*) What progress has been made in the inquiries regarding predatory fish of the larger forms, which inquiries were stated in Bulletin No. 5 of the Department of Fisheries to have " recently commenced," and where are the said inquiries being carried on?

(*g*) When does the department expect to complete its enquiries on carp and *hilsa* and predatory fish, respectively?

Answer by the Hon'ble MR. KERR :—

" (*a*) The Hon'ble Member will find full particulars in the four annual reports referred to in the reply to Question VII. It is not possible to enumerate all the attempts which are made during a period of research.

(*b*) No.

(*c*) None.

(*d*) It has not been discovered that carp breed in ordinary tanks, but that they breed in the *bandhs* described in the last year's annual report. The discovery will facilitate the breeding of carp.

(*e*) Fry will be collected and distributed from these *bandhs*. Steps have been taken to make it known in the districts in which such *bandhs* exist how they should be constructed, so that the conditions under which carp breed may be provided.

(*f*) In the Bulletin referred to by the Hon'ble Member he will see that the inquiries were carried on in Calcutta and Bankipore. The state of progress of the inquiries is described on page 4 of the last annual report.

(*g*) Government cannot say when nor in what order the inquiries referred to will be finished."

Questions and Answers.

Distribution depôts for young fish and fry.

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

IX. (*a*) How many depôts are there in Bengal for the distribution of young fish and of fry of various kinds, and where are they situated?

(*b*) How much pure carp fry was supplied by the department for the stocking of tanks in Bengal during the last few seasons?

Answer by the Hon'ble MR. KERR :—

" (*a*) The Fishery Department collects fry from numerous places and they are delivered to the public at Writers' Buildings.

(*b*) In 1916, 419,500 fry were supplied by the Fishery Department for stocking tanks in Bengal; the Department makes every endeavour to secure the purity of carp fry, but it is not possible to give an absolute guarantee of purity."

The Fishery Board.

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

X. What is the constitution of the Fishery Board, and what are its functions and powers?

Answer by the Hon'ble MR. KERR :—

" The names of the members of the Fishery Board will be found on page 386 of the Bengal Civil List of January, 1917. Its functions are advisory; it has no statutory powers."

Co-operative Societies for fishermen.

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

XI. How many Co-operative Societies have been formed among the fishermen of Bengal at the instance of the Fishery Department and for fishery purposes, and in what districts?

Answer by the Hon'ble MR. KERR :—

" Three. They are in the districts of Murshidabad, Tippera and Malda."

Reforms in the methods of settling Government fisheries.

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

XII. (*a*) What are the specific recommendations made by Mr. Southwell about bringing about certain reforms in the methods of settling Government fisheries, an outline of which has been given in the recent report of the Department of Agriculture?

(*b*) Have the Government come to any decision with regard to them?

Answer by the Hon'ble MR. KERR :—

" (*a*) & (*b*) The recommendations made by Mr. Southwell and the decision of Government thereon are specifically enumerated in paragraph 22 of the Report of the Agricultural Department for the year ending June 30, 1916, a copy of which has been placed on the Library table."

Number of, and income from, Government fisheries.

By the Hon'ble BABU BHABENDRA CHANDRA RAY :—

XIII. (*a*) What is the number of fisheries owned by Government, and what is the income derived therefrom?

(*b*) When are they generally given in settlement and for what periods?

Answer by the Hon'ble MR. KERR :—

" (*a*) Government own 99 fisheries: the annual income derived from them by Government is about Rs. 35,000.

(*b*) Settlements are generally made with effect from April 1st, and the periods vary from one to five years."

Questions and Answers.

By the Hon'ble RAI SRI NATH RAY BAHADUR :—

XIV. (*a*) Have the Government received information that the people of the subdivision of Munshiganj, in the district of Dacca, experience much difficulty owing to the want of good communications? Want of communications in Munshiganj.

(*b*) Is it a fact that the Dacca District Board have under consideration the question of re-excavating the Taltola-Srinagar, Taltola-Lohajang, Shekharnagar-Lohajang *via* Srinagar khals?

(*c*) Will the Government be pleased to lay on the table all papers and correspondence relating to the matter?

Answer by the Hon'ble MR. COWLEY :—

" This matter was considered by the District Board of Dacca on 1st May, 1916. A copy of the Board's resolution, of the papers which were considered by the Board, and of the subsequent correspondence with Government, has been supplied to the Hon'ble Member. He will see that the matter is receiving attention both from the local authorities and from Government."

By the Hon'ble RAI SRI NATH RAY BAHADUR :—

XV. (*a*) Will the Government be pleased to state whether any improvement has been effected in the course of the Dhaleshwari river by the dredging operations that have been in progress for some time past? Dredging operations in the Dhaleshwari.

(*b*) Will the Government be pleased to make a full statement on the subject?

Answer by the Hon'ble MR. COWLEY :—

" (*a*) The dredging operations have been of some use.

(*b*) Copies of the printed annual reports from 1912-13 to 1915-16 have been supplied to the Hon'ble Member."

By the Hon'ble RAI SRI NATH RAY BAHADUR :—

XVI. (*a*) Will the Government be pleased to state whether there is a Committee in existence in Bengal called the Standing Waterways Committee? The Standing Waterways Committee.

(*b*) If so, will the Government be pleased to state the scope and constitution of the said Committee?

(*c*) If the answer to clause (*a*) of this question be in the affirmative, will the Government also be pleased to state whether they are considering the desirability of publishing this Committee's report?

Answer by the Hon'ble MR. COWLEY :—

" (*a*) & (*b*) The Hon'ble Member is referred to the answer given to the Hon'ble Babu Surendra Nath Banerji at the meeting of this Council on 24th February, 1914. The Committee is now constituted as follows :—

President.

The Member of the Executive Council in charge of the Public Works Department portfolio.

Members.

1. The Chief Engineer to the Government of Bengal, Irrigation Department.
2. An official member nominated by Government to advise the Committee regarding financial matters.

Questions and Answers.

Answer by the Hon'ble MR. COWLEY:—*concluded.*

3. The Superintending Engineer, South-Western Circle.
4. A representative of railway interests nominated by Government.
5. The Vice-Chairman, Port Commissioners, Calcutta.
6. A member nominated by the Bengal Chamber of Commerce.
7. A member nominated by the Bengal National Chamber of Commerce.
8. A member to represent the commercial interests of Eastern Bengal, nominated by the Narayanganj Chamber of Commerce.
9. A member nominated by the Managing Agents of the India General Navigation and Railway Company and the Agents of the Rivers Steam Navigation Company, acting jointly.

The Government of Bihar and Orissa and the Administration of Assam are also asked to assist the Committee, when occasion arises, by deputing their Chief Engineers to advise the Committee upon such matters as may come under its consideration, which directly affect the waterways situated in those provinces.

(*c*) The answer is in the negative."

Promotions in the Provincial Judicial Service.

By the Hon'ble RAI SRI NATH RAY BAHADUR:—

XVII. (*a*) Are the Government aware that a general letter has been issued by the Hon'ble High Court to all the District Judges of Bengal on the subject of rules regarding the promotion of the members of the Provincial Judicial Service?

(*b*) Is it a fact that special reports are being called for from the District Judges even in the matter of promotions and confirmations from the lowest grade of the Provincial Judicial Service?

(*c*) If so, are the Government aware that this contravenes the principle laid down in the Home Department Resolution Nos. 1046-58, dated the 19th August, 1910, which specifically lays down that special reports should only be called for regarding promotions in the grade of Rs. 500 and upwards?

(*d*) Are the Government aware that there is a widespread feeling of anxiety amongst the members of the Provincial Judicial Service below the grade of Rs. 500 on account of the procedure recently adopted by the Hon'ble High Court in the matter of promotions and confirmations in those grades?

(*e*) Are the Government considering the desirability of making an inquiry as to whether any supersession has resulted as a consequence of the procedure adopted by the Hon'ble High Court, and, if so, whether the officer or officers concerned were given any opportunity of explanation?

Answer by the Hon'ble MR. KERR:—

"(*a*) Yes. A copy of the letter was laid on the table at the meeting of this Council held on the 13th December, 1916.

(*b*) Government have no information.

(*c*) No such principle was laid down in the Resolution referred to.

(*d*) & (*e*) The answer is in the negative."

Excavation of tanks in the Dacca Division.

By the Hon'ble RAI SRI NATH RAY BAHADUR:—

XVIII. Will the Government be pleased to state how many tanks have been excavated or re-excavated by or with the help of the District Boards in the Dacca Division, during the last year, and where they are situated?

Answer by the Hon'ble MR. DONALD:—

By the Hon'ble MR. H. R. A. IRWIN :—

Supply of coal for the Tea Industry.

XIX. (*a*) Are the Government aware of the fear that exists on many tea estates in Northern Bengal of impending dislocation of business in the manufacture of tea due to the insufficient supplies of coal?

(*b*) Will the Government be pleased to state what action, if any, they are taking to accelerate supplies of coal for the tea industry?

Answer by the Hon'ble MR. DONALD :—

" Government are aware that difficulties exist at present in regard to the supply of coal to Tea Estates in Northern Bengal. They understand that the matter is being dealt with by the ' Committee to regulate coal supplies,' in consultation with the Indian Tea Association. That Committee have passed several indents for coal required for the industry, but are unable to say when wagons will be available to comply with these indents. It would assist the Committee if the Planters' Associations forwarded to them a statement showing the order of urgency and the time at which supplies are required."

Want of a level-crossing gate on the Bandel-Barharwa section of the East Indian Railway.

XXI. (*a*) Are the Government aware that great inconvenience is being felt by the residents of villages Benga and Nopara, and other villages, in thana Katwa, in the district of Burdwan, for the want of a level-crossing gate at mile 84-2 on the Bandel-Barharwa section of the East Indian Railway?

(*b*) Are the Government aware that the people of these villages have agricultural lands on the other side of the railway line, and are compelled to leave the lands practically uncultivated for the want of a level-crossing gate at the place referred to?

(*c*) Are the Government aware that the pathway made for them by the East Indian Railway is practically useless as the cultivators are unable to take their carts over it?

By the Hon'ble MAULVI ABUL KASEM—*concluded.*

(*d*) Are the Government also aware that the use of the said pathway involves the carrying of paddy and manure between the fields and the villages for over a distance of six miles?

(*e*) Is it a fact that the Subdivisional Magistrate of Katwa held an inquiry into the grievances of the people of the said villages?

(*f*) If so, will the Government be pleased to lay on the table a copy of his report?

Answer by the Hon'ble MR. COWLEY :—

" The East Indian Railway authorities have arranged to provide a level-crossing at mile 84-2 in place of that at mile 84-8."

THE AMENDED DRAFT FINANCIAL STATEMENT.*

The Hon'ble Mr. Beatson Bell presented the Amended Draft Financial Statement for Bengal for 1917-18 :—

He said :—" My Lord, I have the honour to present the amended Draft Financial Statement for 1917-18. This statement has been drawn up at considerable length and a copy has been furnished to every Member of the House. Along with each copy I sent a memorandum dated 24th February. Members have, therefore, no doubt studied the Budget in considerable detail and it is unnecessary that I should go over it again at this stage. Suffice it to say that it is once more a War Budget, prepared on strictly economical lines. The House will remember that the principle which was laid down last year was that our total expenditure should not exceed our total income. This year the same general principle has been adopted, but the Government of India have allowed us to be a little more liberal than in the previous year. In other words, they have allowed our expenditure to exceed our income by a little more than nine lakhs. That is the main outline of the Budget and in the course of this day's sitting different official members will explain in more detail the various heads of the Budget.

I must, however, draw the attention of the House to the further memorandum which I circulated on the 3rd March. This memorandum contained certain corrections and additions which have been inserted under the orders of the Government of India. One important addition, will, I am sure, be welcomed by Members on both sides of the House. The Government of India have made a recurring Imperial assignment of nine lakhs for the improvement of the pay and training of teachers. With these few words, I beg to present the Budget for the consideration of the House."

"In my financial capacity I have already placed the Draft Financial Statement in the hands of every Member. That statement is, I hope fairly

Mr. Beatson Bell.

full and clear. It now falls to me in my administrative capacity to introduce certain heads of the Budget. Naturally I have little to add to what I have already placed before the House. I begin with "Land Revenue." The current year has been more favourable than we anticipated. Good harvests and the prosperous condition of the jute trade stimulated collections, and we expect to exceed the provincial estimate of receipts by Rs. 2,73,000. The expenditure under land revenue has been larger than we estimated, and we have provided for an increase of Rs. 44,000. In view of the favourable conditions now prevailing we anticipate an increase of Rs. 3,43,000 in our provincial land revenue receipts in the next year, and we have also provided for an increased expenditure of Rs. 1,05,000 on certain much-needed reforms and improvements.

Major surveys and settlements are hardly within the scope of this Council. The Imperial Government bears the cost and the Imperial Government receives the income. I must, however, say a few words for the information of the House. Owing to the financial situation which arose from the war we postponed, with great regret, the operations in Bankura and Jessore. This threw many deserving men out of work. The fate of these men was the subject of a special resolution of this House. We have done what we could for them, but many of them are still unemployed and are suffering great hardship. If the operations in Jessore and Bankura remain still longer in abeyance the situation will be further aggravated, for an additional batch of men, now working in Rajshahi, will be thrown out of employment. Moreover, it would be hard for the people of Jessore and Bankura that the boon of a record-of-rights should be again delayed to them. Fortunately, the general financial situation of the survey and settlement operations is such that we have felt justified in resuming the work in Jessore and Bankura and in beginning some traverse survey in Nadia. In spite of these new operations we estimate that in the year 1917-18 the major survey and settlement operations will bring in an income of Rs. 27,50,000 against an expenditure of Rs. 21,31,000. In other words, the Government of India will receive from these departments a satisfactory surplus of more than 6 lakhs. I should add, however, that even after the new operations, which I have just indicated, have been undertaken, the Survey and Settlement Departments will by no means be working at their full strength. The work in progress will be about three-fourths of what it would have been in normal circumstances.

As regards Excise, the actual receipts in 1915-16 amounted to Rs. 1,51,40,074 against Rs. 1,50,00,000 anticipated last year. The revised estimate was based on ten months' actuals, but there was an increased consumption of country spirit in the last quarter of the year, and this accounts for the increase in excise revenue in 1915-16. The large decrease in consumption for 1914-15 noticed last year continued generally, country spirit showed a further falling off of 52,799 proof gallons, and ganja and opium of 446 and 266 maunds, respectively, in 1915-16, as compared with the preceding year.

The sanctioned estimate of revenue for 1916-17 was Rs. 1,50,50,000, but it has been reduced to Rs. 1,47,00,000 in view of the continued decrease in the consumption of country spirit and opium during the first ten months of the current year, namely, 24,474 gallons in country spirit and 5,532 seers in opium. The consumption of ganja increased, however, by 76 seers during the same period, the increase occurring in January last. The estimate for next year has been placed at Rs. 1,48,00,000, providing for an increase of 1 lakh over the revised estimate for the current year. The excise settlements already made in the several districts point to an increase of revenue of about Rs. 2,48,000 over the current year's settlements, but if war continues and the economic condition of the people shows no improvement the full increase may not be realised.

As for expenditure, the only thing to notice is the appointment of the second Deputy Commissioner of Excise and Salt. Since the reorganisation

Amended Draft Financial Statement.

Mr. Beatson Bell.

of the Excise Department was carried out only one Deputy Commissioner of Excise and Salt out of the two sanctioned in the scheme had been appointed. He had been supervising the preventive work in the districts as well as the work of the Excise Intelligence Bureau. He has also been doing some of the work of the Collector of Excise, Calcutta. Recently it became very difficult for one officer to cope with all these duties, and a second Deputy Commissioner of Excise and Salt had, therefore, to be appointed for the Dacca, Chittagong and Rajshahi Divisions. The necessary provision for this officer has been made in the budget estimate for the next year.

As regards the expenditure head of General Administration. I have nothing to add to the explanations contained in the Financial Statement.

As regards Ports and Pilotage there is also little to be said. The war has caused a further shrinkage both in receipts and in expenditure. The grant of 1½ lakhs to Chittagong Port is being continued in the coming year. This, however, will be the last year of the existing five years' arrangement.

As regards Stamps, I have again nothing to add to what is contained in the Financial Statement.

As for Income-Tax expenditure, I would explain that the figures represent the cost of establishment for the collection of the tax. In consequence of the introduction of the new Income Tax Act, V of 1916, it was found necessary to appoint an Assistant Collector, one Assessor, 10 Clerks and certain menials to cope with the increase of work in the Calcutta Income Tax Office from the middle of the year. Provision has been made for the retention of the Assistant Collector and the additional establishment for the whole of the year 1917-18.

Turning to the Interest Budget this represents for the most part the loan transactions of the Local Government. We borrow money from the Imperial Government and re-lend it under the Land Improvement and the Agriculturists' Loans Act to Co-operative Societies, on drainage and embankment advances to land-holders and notabilities and to mufassal Municipalities and District Boards. The receipts represent the interest we recover. The figures are shown in paragraph 20 of the Financial Statement.

Refunds and drawbacks occur in the different departments and the details are shown at page 47 of the Financial Statement. We budget on the basis of the average actuals of the past three years, excluding special payments.

I now deal with "Forests"—The revised estimates of receipts for the current year have been raised from 11½ lakhs to 12¾ lakhs. This increase is mainly due to larger sales of timber in the Sundarbans where exploitation has been resumed and in Buxa where timber was left unsold in the preceding year. For next year we have estimated a revenue of 13 lakhs which allows for a moderate increase in sales owing to anticipated improvement in the timber market. On the expenditure side economy has been observed by the curtailment under communications and improvement and extension of forests, with the result that the current year's sanctioned estimate has been reduced by Rs. 64,000. The estimate of expenditure for 1917-18 is Rs. 6,52,000. This provides for preparation of a working plan for the Kurseong forests and larger expenditure on communications and buildings.

Turning to the Budget of the Agricultural and Veterinary Departments no explanation is called for as to the receipts, which are not of much importance. The estimates for the current and next years have been based on the actuals of the first eight months of 1916-17. On the expenditure side of the Budget under these heads Rs. 11,29,000 was provided for the current year, but this has been reduced to 11 lakhs in the revised estimate. The decrease is due to larger recoveries on account of pay of Veterinary Assistants contributed by local bodies. The estimate for 1917-18 is Rs. 12,26,000, which provides for the normal work of the Agricultural and Veterinary Departments, while provision has been made for the expansion of the Co-operative Department on a small scale.

Amended Draft Financial Statement.

Surgeon-General Edwards.

Under the head "Scientific and Miscellaneous Departments" the estimate of receipts has been raised from Rs. 5,22,000 to Rs. 7,50,000. The increase is due to larger supplies of quinine to the Military and other Departments: this is expected to give us over 2¼ lakhs. For 1917-18 the estimate of receipts is Rs. 7,81,000. The revised estimate of expenditure under this head for the current year shows a reduction of Rs. 1,81,000 on the sanctioned estimate, owing to non-utilisation of the grants for the Director of Industries and for the development of industries. This, of course, is due to the presence of the Industrial Commission. The estimate of Rs. 5,83,000 for next year provides for the necessary development of the Cinchona Department and for grants to the Dacca and Darjeeling Museums.

The famine expenditure in Bankura during the current year amounted to Rs. 7,15,000. Of this sum Rs. 4,20,000 stood at the credit of this province during the current year under the Famine Insurance Scheme, and the Provincial share will amount to Rs. 1,48,000, being half of the remainder. The Secretary of State has recently sanctioned a new scheme under which famine expenditure will in future be shared by the Imperial and Provincial Governments in the proportion of ¾ths and ¼th, respectively. This scheme will take effect from 1st April, 1917.

In the Superannuation Budget the receipts represent the contributions paid by the different officers lent to foreign services and for the management of private estates. The charges represent pensions and gratuities which rise year by year with the increase in the number of claims to pensions, provision being made with reference to the average increase in the past years.

There is nothing special in the figures under Stationery and Printing to which I need draw attention. The Branch Secretariat Press has now vacated the buildings of the Military Accounts Department in Koila Ghat Street and occupies offices at Sealdah. This did not entail much additional expenditure.

Finally, as regards miscellaneous receipts and charges I have little to add to the explanation given in the Financial Statement. Owing to famine relief works in Bankura Rs. 90,000 is expected to be realised from the sale of *khud* rice and from manufactures by the weavers under relief in 1916-17, and the revised estimate of receipts has been raised from Rs. 6,52,000 to Rs. 7,37,000. No such receipts can be anticipated in 1917-18, and the Budget for that year is Rs. 6,58,000.

On the expenditure side we have provided 1 lakh for gratuitous relief in any district which may suffer owing to flood or other causes. The question of raising the pay of the menials of the several departments of Government both for Calcutta and the mufassal is under consideration, and the Government of India have been addressed on the subject. But we cannot expect to give effect to any scheme of this kind before the conclusion of the war. In the current year about Rs. 3,78,400 was spent on the payment of grain compensation allowance, and a provision of 4 lakhs has been made for the same account in the Budget for 1917-18."

REVENUE—

EXPENDITURE—

24—Medical.

He said:—

"MY LORD, we have at the present moment 35 Indian Medical Service Officers, 3 Civil Assistant Surgeons, 28 Military Assistant Surgeons and 69

Sub-Assistant Surgeons at the Front and on Military duty. In spite of the absence of so many of our Medical Officers the work of our Medical Department is being carried on fairly satisfactorily, with the help of temporarily enlisted men. I may add here that although only two Sub-Assistant Surgeons volunteered for active service from Bengal, sixteen more have so volunteered since going to military duty in India, and one man has volunteered for active service in the Frontier of India.

Work on the Ranchi Lunatic Asylum has been resumed and we now hear that it may be ready for Europeans during the next cold weather. When it is ready the present Asylum at Bhowanipur must be entirely pulled down, and rebuilt as an "under observation" Hospital for mental cases. At present we have no such place for Indian patients and the need of such an Hospital is very urgently felt. I propose allotting 15 beds for Indian, 5 for Europeans "under observation" cases and 10 beds for cases of lunacy, suitable for clinical material.

The improvements spoken of last year have been carried out in the Dacca and Berhampore Asylums.

The opening of the Tropical School must be postponed until after the war, when we also hope to complete the East wing, this will contain an out-patient department.

To make room for this extension the present morgue, so long condemned, must be moved.

Plans and specifications are being prepared for a new and up-to-date morgue with a small mortuary chapel ; a suitable site has been obtained.

We have had no money from Government for building the new Eye Hospital so very urgently required and we must continue to wait for this. I am glad to say though that 3 lakhs have been allotted this year to a still more urgent requirement and that is a barrack for Medical College Hospital servants. The building of this will put an end to a very grave scandal.

The Belgachia Medical College is in course of construction and we are likely to be called on this year to redeem a part of the promise made regarding it.

During the past year the students of the Campbell and Dacca Schools have been increased from 300 and 200 respectively to 350 and 250. A scheme is now before Government to increase them to 500 and 400, respectively.

The re-building of the Dacca Mitford Hospital is progressing most satisfactorily and has made great progress under the able management of Colonel Newman, Civil Surgeon.

Owing to the generosity of Mr. Baldeo Das Birla, we are this year to have an open air Consumption Ward on the roof of the Medical College Hospital, this will cost Rs. 50,000 and will fill a very urgent need. The open air wards in the Presidency General Hospital have been used as ordinary wards during quadrennial repairs and have proved a complete success ; the Medical College Hospital wards will be on the same plan. I may add that, this Rs. 50,000 is in addition to Rs. 50,000 given by Mr. Baldeo Das Birla to the Tropical School.

I have nothing further of note to call attention to."

He said :—

"MY LORD, I have the honour to introduce for the consideration of Council the Public Works heads of the Budget entitled Irrigation Major Works, XXIX—Receipts and 42—Expenditure and Minor Works and Navigation XXX—Receipts and 43—Expenditure. The Major Works with which we have to deal in this Presidency, as at present constituted, are the Midnapore and Hijli Tidal Canals ; the latter is for navigation only, while the former provides for both irrigation and navigation. The receipts of the current year are expected to be somewhat better than the Budget by Rs. 33,000 owing to the increase in the area under lease from the Midnapore Canal. As, however, the area under lease is not likely to remain the same during the year 1917-18 the Budget for 1917-18 shows a decrease as compared with the revised estimate for 1916-17. Owing to railway competition the navigation receipts from these canals have not improved. There has been no increase in the expenditure of the current year as compared with the expenditure of 1915-16 and none is anticipated during 1917-18. I now turn to the heading "Minor Works and Navigation" which is more important in its effect upon Provincial revenues. The chief sources of revenue under this head are the tolls received from navigation on the Calcutta canals, the Sundarbans route and the Madaripur Bhil route which together form the navigable route for boats and inland steamers between Calcutta and Eastern Bengal. In this respect I have nothing to add to the statements which have been made in paragraph 34 of the Amended Draft Financial Statement. The current year's revised estimate of expenditure under Minor Works and Navigation remains practically the same as the Budget provision. For the year 1917-18 a total provision of Rs. 22,41,000 has been made and in this connection I have nothing to add to the statements which have been made in paragraph 64 of the Amended Draft Financial Statement.

I have also to introduce for the consideration of the Council the Budget for *Civil Works in charge of the Public Works Department.*

I have nothing to add to the statements which have been made under this head on pages 3, 4, 15, 28 and 29 of the Amended Draft Financial Statement.

Paragraph 65 on pages 28 and 29 deals with the expenditure in this and the coming year. The decrease of Rs. 1,52,000 under Establishment in the revised Budget of expenditure for this year is due partly to an increase in the receipts from the Government of India as contribution towards the establishment employed on Imperial Works and partly to saving on account of officers on Foreign and Military Service.

For the coming year, after providing for establishment and repairs and for the completion of works which will be in progress on the 1st April, there is a sum of Rs. 24,66,000 left for new minor and major works, the distribution of which is shown on pages 28 and 29 of the statement.

Amended Draft Financial Statement.

Mr. Lyon.

LIST OF BUSINESS—ITEM No. 7.

The Hon'ble MR. LYON introduced the following heads :—

REVENUE—

XVII—Police.

EXPENDITURE—

20—Police.

REVENUE—

XVI B—Jails.

EXPENDITURE—

19 B—Jails.

He said :—

"MY LORD. I have to introduce the heads Jails and Police of the Amended Financial Statement. On the subject of Jails there is very little to be stated and I have few remarks to add to those given in the Financial Statement. The estimate for receipts is larger than any as yet made for such receipts in the Presidency of Bengal—the figure amounting to 11 lakhs, as compared with 7 lakhs in 1912-13. This is mainly due to continued military requirements in the way of gunny, bandages and blankets.

The figure for expenditure stands at Rs. 28,89,000 as compared with Rs. 19,61,832 in 1912-13. The high figures are due to a considerable increase in the number of prisoners since 1912-13, involving greater expenditure on dietary and hospital charges. There will also be large expenditure on raw materials which will, however, go to swell the receipts on account of manufactured articles. There is one increase in expenditure, moreover, which should be a cause for congratulation, and that is the rise in the cost of the Warder Establishment. The improvement in the pay and prospects of the Warders was long overdue, and the extra sum now budgetted for represents an increase in pay which has been well earned.

Taking next the head Police, it is unnecessary to add anything to the entries made in the Financial Statement under the head of receipts.

It has been found necessary to set down a large figure for expenditure for the coming financial year on account of Police charges, the total being Rs. 1,34,38,000, as compared with a revised estimate of Rs. 1,12,27,000 in 1916-17 and an estimate of Rs. 83,99,859 in 1912-13.

The estimates for new schemes in connection with the Police, amounting to a very considerable figure, were laid before the Finance Committee and received their unanimous approval. We may claim, I think, that this result was due to the grave necessities of the Force and the moderation of the estimates presented as compared with those necessities.

A considerable increase in the expenditure on the Police Force has long been anticipated, and although financial exigencies have delayed many reforms which will cost considerable sums of money, it has been found that there are other reforms which are of such urgent importance that it is necessary to include them even during the progress of the war. During the

Amended Draft Financial Statement.

Mr. Lyon.

Budget debate last year it was pointed out that the list of desirable requirements in Police administration was a very long one and would involve a very large sum of money. We have now entered in the Budget provision for a considerable increase of expenditure in order to bring the Force up to its proper strength, to improve the training of officers and men, to give them better houses and to reward more adequately those who are engaged on special duties of an arduous and dangerous nature.

In the matter of buildings you will find that the sum of 12 lakhs appears under the appropriate heading in the Public Works Budget. This sum will enable us to make a beginning in dealing with the worst cases, in which our police officers are at present housed in miserably inadequate and unhealthy buildings, and we hope to wipe off gradually our heavy arrears in this respect.

As to the other schemes, I note especially :—

(1) The estimate of Rs. 71,845 for the re-organization and revision of the Special Branch Establishment of the Calcutta Police, which deals mainly with seditious and anarchical crime in this city. Connected with this subject is the item of Rs. 30,000 for the re-organization of the Criminal Investigation Department.

(2) Further provision made for the safety of the city by the appointment of additional Sergeants at a cost of Rs. 32,236.

(3) The provision for a regular river patrol on the river Hooghly in Calcutta. This scheme is connected with the prevention of the illicit importation of arms into India, but should also prove an effective check on much of the evasion of preventive arrangements which is now believed to take place. The main portion of the item of Rs. 2,34,000 entered in the Budget is for non-recurring expenditure, which amounts to Rs. 2,11,000.

(4) The provision made for further progress in the work of re-organising the subordinate Police in Eastern Bengal, including both new works and works in progress. These two items amount to 4 lakhs of rupees, and this expenditure will be incurred in pursuance of a carefully thought out scheme which was prepared and sanctioned some years back.

(5) The re-organisation of the Howrah Town Police. This includes the policing of the towns of Howrah, Lilooah and Bally in accordance with a scheme which has been submitted to the Secretary of State. It is necessitated by the large increase in the population of these towns and the inadequacy of the present Force, which was organised to meet different circumstances, to deal with this population.

(6) The expenditure of Rs. 1,06,000 on the River Police Scheme of Eastern Bengal, which may be taken with the entry of Rs. 39,000 on account of the station boat system in the same part of the province. It seems unnecessary to review again the necessity for the improvement of the system of policing the great rivers of Eastern Bengal. The action taken in this direction has already proved extremely successful, and Government wish to persevere with the scheme until a really efficient system has been finally established.

(7) In connection with these schemes for Eastern Bengal may be mentioned the establishment of a Fifth Police Range, under a Deputy Inspector-General, which will relieve the Dacca Range and will include the districts of Faridpur, Bakarganj, Noakhali and Chittagong as well as the River Police system.

(8) The sum of Rs. 2,50,000 entered for the revision of the District Intelligence Branch Establishment. This expenditure is required in order to decentralise the work of the Intelligence Branch and to bring the district police officers, who have a larger knowledge of the local conditions of the area

Amended Draft Financial Statement.

Mr. Lyon.

within which they work, into more effective touch with the Intelligence Branch in Calcutta. It is believed that the general effect of this scheme will be to increase considerably the efficient working of this most important branch.

(9) The provision of Rs. 73,154 to raise the proportion of the ordinary reserves of Head Constables and Constables. It is hoped by means of this provision to remove what is a serious hardship to the Police Force by raising its reserve to the proper strength. The general curtailment of leave which has been the result of the inadequacy of the present reserve has caused some discontent which has interfered with the recruiting of the Force, and Government have found it impossible to do justice to their men and to provide for the leave necessitated by illness and over-work without adding largely to the existing reserves.

(10) I may refer finally to the entry of Rs. 1,37,000 as a grant for house rent to Sub-Inspectors and officers of lower rank who are entitled under the orders of the Government of India to free quarters but for whom it has not yet been found possible to provide such quarters. This is a mere act of justice to these officers and the Government hope that it will be accepted as such.

Government would have been very glad had it been possible to avoid a large increase of expenditure on Police at the present time, when it is necessary to observe economy in the administration of all departments. They feel, however, that the present circumstances of the Police Force in Bengal and the present political situation give full warrant for the expenditure which they are proposing in the coming year and the support which has been given to their proposals by the Finance Committee has confirmed their views in this respect.

This may be the last occasion upon which I shall have to refer in this Council to the general work of the Police Force of this Presidency during the period covered by your Excellency's term of Government from April, 1912, to the present date, and I desire to take this opportunity of expressing once again my own heartfelt appreciation and that of this Government of the admirable work that has been done by that Force for the maintenance of law and order in the Presidency since the repartition in 1912. They have been faced with a situation of extreme difficulty. In the midst of the work of reorganising the Force and introducing a far reaching system of reform, they have had to deal with economic distress reacting on local tranquillity, with the disturbances due to the outbreak of the war and with a revolutionary conspiracy having its ramifications in every corner of the Province.

I can claim for them not only earnest endeavour, conspicuous courage and loyalty, but also a remarkable degree of success, especially in dealing with the serious outbreak of revolutionary crime, their action against which has exposed them to very searching criticism. As evidence of their success, I would point especially to the suppression of the grave outbreak of non-political dacoities in the district of Bakarganj in 1915, and to their dealings with political crime in Bengal since their methods have had time to exercise their full weight and since, in consequence of them, they have been in constant receipt of full and accurate information concerning the inner workings of the conspiracy. While the difficulties as to the prosecution of cases in Court still continue, I can inform the Council that of the political crimes that have been committed since 1st January, 1914, the investigations of the Police have resulted in full information as to the perpetrators and the facts of over 90 per cent., while of the perpetrators the large majority are actually now under restraint. The Government cannot flatter themselves that these crimes are at an end. There are desperate men still at large, outlaws from society, and the very pressure which is being exercised upon these men may lead to the commission of further crime. But as a prominent Bengal non-official gentleman said to me the other day, people do now sleep

more comfortably in their beds, both in Calcutta and the mufassal, than they did some time back, and for the results which have actually been obtained, we all, the Government, the people and each one of us who values the good name and the fair prospects of Bengal, owe a deep debt of gratitude to the officers and men, European and Indian, of the Bengal Police."

LIST OF BUSINESS—ITEM No. 8.

The Hon'ble MR. HORNELL introduced the following heads :—

Revenue—

XIX.—Education.

Expenditure—

22. Education.

He said :—

"MY LORD. I have the honour to introduce for the consideration of the Council the heads of Revenue and Expenditure in the Education Budget for the year 1917-18.

Receipts.—The Education Department being one of the spending departments of Government, the revenue side of the Budget has little interest except from the financier's point of view. In the Budget which I am presenting to the Council, there is no item of special interest or importance except the fact that the steady increase in the educational receipts has been maintained as the following figures will show :—

				Rs.
1912-13	...	Actuals	...	7,78,000
1913-14	...	Do.	...	8,11,000
1914-15	...	Do.	...	8,47,000
1915-16	...	Do.	...	8,87,000
1916-17	...	Sanctioned estimate	...	9,05,000
1917-18	...	Estimate	...	9,28,000

Expenditure.—Up to the year 1914-15, there was a steady growth in educational expenditure. This has now been arrested. The expenditure in 1915-16 actually showed a decline. But it is now again on the upward grade and the Budget for the current year and the estimate for the coming year are both in excess of the expenditure figure for 1915-16 : but both these figures are still below the expenditure figure for 1914-15. The following figures explain the situation :—

				Rs.
1911-12	...	Actuals	...	61,22,000
1912-13	...	Do.	...	73,77,000
1913-14	...	Do.	...	81,13,000
1914-15	...	Do.	...	92,07,000
1915-16	...	Do.	...	84,78,000
1916-17	...	Sanctioned budget	...	88,30,000
1917-18	..	Estimate	...	89,13,000

Amended Draft Financial Statement.

Mr. Hornell.

The estimate under review shows an increase of Rs. 83,000 over the sanctioned Budget estimate for the current year. The increase is distributed as follows :—

	Increase over 1916-17 sanctioned Budget.	Decrease
	Rs.	Rs.
University	No change	.....
Direction	5,000	.....
Inspection	1,000	.....
Government Colleges, General ...	14,000	.....
Ditto Provincial ...	.....	2,000
Government Schools, General ...	40,000	.....
Ditto Special ...	.....	14,000
Grants-in-aid	96,000	.....
Scholarships	16,000	.....
Miscellaneous	2,000	.....
Refunds	1,000	.....
Expenditure from non-recurring assignment of 75 lakhs	.....	31,000
Recurring grant for Dacca University and Hostels	.....	45,000
	1,75,000	92,000

The total increase is, therefore, Rs. 83,000.

The Financial Statement explains the increase and the decrease in detail and it is unnecessary for me to take up the time of the Council by repeating the explanation. I will do no more than state briefly a few outstanding features of the estimate for the year in prospect :—

(*a*) A provision of Rs. 21,072 has been made for the provincialisation of the High Schools at Bhola, Jhalakati, Pirojpur and Jamalpur. These schools were temporarily taken over by the late Government of Eastern Bengal and Assam. It is now proposed to bring them permanently under the direct management of Government. The provision represents the additional recurring charge that Government will have to incur in order to bring the schools into line with other Government High Schools. A large sum of about Rs. 5 lakhs will also eventually be required for new buildings for these schools but under present financial conditions it has not been found possible to make any provision for this non-recurring expenditure.

(*b*) As in the current year, provision for the Hastings House School has been included under "Government Schools, General"—"High Schools for Boys." This is not a new charge.

(*c*) A provision of Rs. 25,000 has been included under "Grants-in-aid" for grants to Madrassahs adopting the reformed course. The cost of introducing the Reformed Madrassah scheme was calculated to be about Rs. 1,3.3,000. The whole amount was not required at once for the scheme was to be worked up to gradually. A start was made with Rs. 60,000 and for two years this sum sufficed. A stage has now been reached at which we must have more money to carry on the scheme. Otherwise the whole scheme must die. An additional sum of Rs. 25,000 has therefore been provided to enable us to continue the scheme.

I now turn to the Budget allotments which have been made from the Imperial assignments. There is nothing to comment on as regards the recurring grants. These have all been provided in full with the exception of those which were assigned to the Dacca University. A short explanation is, however, necessary in regard to the allotments made out of the unspent balances of the non-recurring grants. A total provision of Rs. 3,79,000 has been made against all the non-recurring Imperial grants, *viz.*, Rs. 40,000 under "Expenditure from the non-recurring grant of Rs. 75 lakhs (1912-13)" and Rs. 3,39,000 under "Grants-in-aid." The sum of Rs. 40,000 is intended

Amended Draft Financial Statement.

Nawab Sir Syed Shams-ul-Huda.

to cover the cost of constructing servants' quarters, etc., in connection with the Bethune College. The sum of Rs. 3,39,000 represents a contribution towards the cost of the construction of undergraduates' hostels attached to private colleges in Calcutta, and represents the final portion of the unspent balance of Rs. 3,50,000, which latter amount, as I stated in March last year, this Government undertook to pay if necessary to the University of Calcutta in supplement of the Imperial grant of Rs. 10,00,000 made by the Government direct to that body for the purpose to which I have just referred."

In this connection, I may in passing, refer to the grant of 9 lakhs of rupees, made by the Government of India for improving the pay and training of teachers. This is not shown under head 22 in the Amended Draft Financial Statement."

LIST OF BUSINESS—ITEM No. 9.

The Hon'ble NAWAB SIR SYED SHAMS-UL-HUDA introduced the following heads :—

EXPENDITURE—

19A.—Courts of Law.

24.—Sanitation.

REVENUE—

XXXI—Civil Works in charge of Civil Officers.

EXPENDITURE—

45.—Civil Works in charge of Civil Officers.

He said :—

"MY LORD, I rise to introduce the figures relating to Courts of Law.

The total Budget estimate for 1916-17 was Rs. 1,00,20,000, but the revised estimate has been reduced to Rs. 99,38,000 with reference to the actual charges of the first nine months of the year. The decrease is chiefly due to smaller payment of fees to pleaders in connection with criminal cases, and partly to the diminished expenditure under the heads "Contingencies of Civil and Sessions Courts" and the "Defence of India Act."

The total expenditure for 1917-18 has been estimated at Rs. 1,01,57,000. This includes a provision of Rs. 9,600 for three shorthand-writers in the High Court. The introduction, as an experimental measure for a period of one year, of the scheme for the employment of shorthand-writers in one Court on the Original Side has recently been sanctioned by the Government of India. The number of shorthand-writers has been fixed by the High Court at three, having regard to the fact that it takes three times as long to transcribe a shorthand note as it does to record the note. Provision has also been made for the revision of the establishments of the Original and Appellate Sides of the High Court, and the Receiver's Office establishment. Additional provision has further been made for the Additional Legal Remembrancer and his establishment, for a larger grant for fees to pleaders in criminal cases in the mufassal, and for increased charges under the Defence of India Act.

It has not been found possible to make provision in the Provincial Civil Works Budget for the year 1917-18 for any new Judicial Major Works, but a sum of Rs. 15,000 has been provided in the Budget for Judicial Minor Works.

EXPENDITURE—

24—Sanitation.

Amended Draft Financial Statement.

Rai Priya Nath Mukharji Bahadur.

I have also the honour to introduce for the consideration of Council the figures relating to Sanitation.

The expenditure for the current year was originally estimated at Rs. 5,53,000 and has now been reduced to Rs. 5,15,000 owing principally to the surrender of sums not required for works of immediate and imperative necessity. The chief items of expenditure which have been sanctioned during the current year from the grants for sanitary improvements are shown in paragraph 54 of the draft Financial Statement. A beginning has been made with four experimental schemes designed by Dr. Bentley for the prevention of malaria, two of which are to be financed from a special grant of Rs. 50,000 from the Indian Research Fund.

As regards the Budget estimate for next year, I may explain that under the orders of the Government of India, sanitation has been made a separate major head in the Budget in order that the public may be able to find readily the provision proposed and the expenditure incurred on this important object. The estimate for 1917-18 amounts to Rs. 5,98,000 or Rs. 84,000 more than the sum provided in the revised estimate for the current year. Altogether, 2½ lakhs have been provided for works of sanitary improvements, and it is hoped that it would be possible to complete the schemes of Dr. Bentley to which I have already referred, and that they will enable a substantial advance to be made in the anti-malarial campaign.

I beg also to introduce the figures relating to Civil Works in charge of Civil Officers.

The Budget estimate of receipts for the current year was Rs. 1,59,000, but in the revised estimate this has been raised to Rs. 2,71,000. The increase is chiefly due to refunds made by Municipalities, of which Rs. 94,794 represents the amount refunded by the Narayanganj Municipality out of a grant of 1 lakh made to it in 1914-15 for a scheme which the Municipal Commissioners are at present unable to proceed with. The Budget estimate for 1917-18 is the same as the original estimate for the present year.

As regards expenditure, the decrease of Rs. 3,38,000 in the revised estimate is mainly attributable to the fact that the amount put down for the augmentation grants to District Boards was an overestimate. The estimate for 1917-18 is Rs. 8,59,000, of which details are given in paragraph 66 of the Financial Statement. These call for no comment."

LIST OF BUSINESS—ITEM No. 10.

The Hon'ble RAI PRIYA NATH MUKHARJI BAHADUR introduced the following heads :—

Revenue—

X.—Registration.

Expenditure—

12. Registration.

He said :—

"MY LORD, I beg to introduce the heads of revenue and expenditure of the Registration Department for the year 1917-18.

The receipts are estimated at Rs. 22 lakhs. We budgetted Rs. 20½ lakhs for 1916-17, but the actual receipts on the basis of the last nine months are expected to be better by Rs. 90,000, and we can reasonably estimate an excess of Rs. 60,000 for 1917-18 based on the normal growth of registration revenue. It is something, in these years of stress, for the department over which I have the honour to preside, to be able to present to the public revenues a handsome excess of a lakh and a half. It is due partly to cultivators having obtained very good prices for their jute, partly to the distress caused by high

Resolution.

Babu Ambika Charan Mazumdar.

prices generally and floods and partial famine in certain districts. It is a peculiar feature of this Department that prosperity and adversity contribute almost equally towards increase in registrations. When people are well off they buy land and when they are hard up they mortgage and sell it. In either case, registration revenue increases.

On the expenditure side, the estimates provide for Rs. 11,36,000. The sanctioned estimate for the current financial year is Rs. 27,000 less. But owing to the increase in registrations the expenditure under 'Temporary Establishment' has been larger and the current year's estimate had to be revised. The higher estimate for 1917-18 includes a provision for the opening of some new Sub-Registry Offices and a larger expenditure on temporary establishments, book-binding and other urgent items of contract contingencies. We are still in the midst of the war and we had to cut down expenditure to what is practically an almost irreducible minimum. Schemes of reform, some of which have been sanctioned, are waiting until normal conditions are restored. The Secretary of State has recently sanctioned a long deferred scheme for improving the pay and prospects of the ministerial establishments in District Head-quarters and mufassal offices at a cost of Rs. 1,37,000 per annum, but this cannot be given effect to at present. The Secretary of State has also sanctioned the exemption of a number of our registering officers from the operation of the rule in the Civil Service Regulations under which their pension used to be reduced on account of over-age at the time of entry into pensionable service when the Department was reorganized in 1905. This will be given effect to immediately as the cost is not very great. It will afford a very appreciable relief to a number of deserving officers of the Department who had earned their pension after years of hard work. The important scheme of improving the cadres of District Sub-Registrars and Sub-Registrars with a view to ensuring a more rapid flow of promotion is nearing the stage of final sanction.

The Department is still very young, having only begun to exist as an organized Department of Government from the year 1905, and a great many things remain yet to be done before its needs can be reasonably met. Schemes have been prepared for providing a Central Record Room for the storage and preservation of old records and for the building of a large number of new offices and quarters for Sub-Registrars where they are urgently wanted. The equipment of Registration offices generally and the renovation and rebinding of a large quantity of valuable registration records also leave much to be desired, and though we try to make the little money that is available go as long a way as possible. I cannot but deplore that the continuance of the war necessarily curtails many of our much needed improvements.

It will be seen that the excess of receipts over expenditure gives the State a handsome surplus Rs. 10,64,000."

RESOLUTIONS.

(*Under the rules for the discussion of matters of general public interest*).

LIST OF BUSINESS—ITEM No. 11.

The Hon'ble BABU AMBIKA CHARAN MAZUMDAR moved the following Resolution :—

This Council recommends to the Governor in Council that steps be taken to establish Municipalities at every headquarter station of a sub-division of a district where they do not exist at present, and also at every other town and important centre of trade within a district where there exists a population of 3,000 and upwards :

Provided that the proportion of the non-agricultural population of every such area to its agricultural population is compatible with the provisions of section 10 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884).

Amended Draft Financial Statement.

Babu Ambica Charan Mazumdar.

He said :—

" My Lord, in moving the resolution which stands against my name I do not feel pressed, nor do I consider it at all necessary, to trace the history of municipal corporations in Bengal from their earliest inception. Suffice it for my present purpose to examine very briefly their growth and expansion since 1884 when the first serious step was taken to introduce Local Self-Government in this country and a new life was imparted to the municipal administration in this province. In reply to a question of mine in September last, Government were pleased to furnish a statement showing the development of municipal administration in Bengal from 1885 to 1915. A glance at this statement will disclose the very slow progress we have made in the expansion of the municipal system during the last 30 years. When Ben. Act III of 1884 was introduced there were 92 municipalities within the 26 districts now constituting the Presidency of Bengal, and now after a lapse of 30 years in 1915 the number stands at 112 only ; that is, one complete generation has passed away and we have only 20 municipalities added to the list in the whole of this advanced province which in other respects, notably in point of education, has made remarkable progress during this period. My Lord, they have done much better in Bombay where the number of municipalities has risen to 156 within this time. Then out of these 112 municipalities 75 are in the Presidency and the Burdwan Divisions and the remaining 37 are distributed among the Dacca, Chittagong and Rajshahi Divisions. Among the districts the 24-Parganas commands 26 municipalities, and as you recede further and further from this premier district the number becomes generally thinner and thinner until it fades away in the remote north and east where often a single municipality looms out in an entire district like an *oasis* in a desert.

Then out of the total increase of 20 municipalities noted above 10 have gone to the 24-Parganas and the remaining 10 distributed throughout the rest of the province.

My Lord, the statement further shows that there are no municipalities at the head-quarter stations of many large and important subdivisions, not to speak of many *Munsif's Chowkies* and other important centres of trade and commerce, which have rapidly sprung up in many places. In the important district of Dacca which is said to contain the second capital of the province, there is only one subdivision which has got a municipality, the important subdivisions of Munshigunj and Manikganj having none. In Chittagong there is only one municipality at one of its subdivisions. In Noakhali there is only one municipality at the sadar, there being no other municipality in any of its subdivisions. In Faridpur there is no municipality at such an important subdivisional town as Rajbari which is the terminus of an important railway system. There was a municipality at old Goalundo ; but since the head-quarters was removed to Rajbari in 1887 the municipality was abolished and no step has been taken to restore it to the present head-quarters of the subdivision ; while the new subdivisional town of Gopalganj is rapidly growing into an irregular town of ditches and excavations. In the old district of Jessore there are no municipalities at Magura and Narail. In Khulna an important subdivisional town like Bagerhat is without a municipality. Going north the scene becomes still more dismal. In a large and wealthy district like Rangpur there is but one municipality at the sadar and all the three subdivisions of Gaibandha, Nilphamari and Kurigram are left to take care of themselves.

The same condition prevails in Dinajpore and Jalpaiguri, where there are no municipalities except at the head-quarter station of these two districts.

Resolution.

Babu Ambica Charan Mazumdar.

In short, my Lord, out of a total of 52 subdivisions, excluding the sadar subdivisions, there are no fewer than 21 subdivisional towns which possess no municipal arrangements to look to the health, comfort and convenience of their inhabitants.

My Lord, there are quite a number of *Munsif's Chowkies* which practically resemble subdivisional towns and there are many important *bunders* or trade centres with no agricultural population which have assumed the proportions of fairly large towns, but are left to grow both in extent and population without any arrangement for their sanitary and other requirements.

My Lord, while matters have been allowed to drift in this fashion, the question has assumed a serious aspect in another direction which cannot safely be overlooked. The villages are being gradually deserted and the towns crowded and congested every year. For the sake of professional and other business and for facilities of education of children, proper medical assistance, water-supply, sanitary comforts and conservancy arrangements, all well-to-do people, who can afford to do so, are yearly migrating from their ancient and hereditary village homes and settling themselves in towns and other important centres of trade and business.

My Lord, the District Board and the bodies subordinate to them from the very nature of their constitution as well as from the extensive sphere of their operations are precluded from meeting the manifold requirements of these towns, and beyond the construction of a few roads they have nowhere been able either to provide for or to control the sanitary and conservancy arrangements of these towns. In fact, my Lord, of the two sister enactments both introduced under one and the same policy of the Government of India formulated in 1882, the so-called Bengal Self-Government Act was intended to meet the conditions of rural tracts, while the Bengal Municipal Act was intended to provide for the requirements of urban towns. Though in some respects the two seem to be analogous they are perfectly distinct and different in their constitution and character and wholly distinguishable in their essence and substance.

My Lord, I cannot say that the growing insanitary condition of these unprotected towns and townships has wholly escaped the attention of Government; for recently a step has been taken to form Union Committees in many of which a subdivisional town has been grouped with a number of adjacent villages to constitute a Union.

My Lord, while I yield to no one in my sincere appreciation of the best intention of the Government, I feel constrained to say, that the step taken has been a mistake. Any attempt to combine two such varying and divergent conditions as those of urban and rural areas is bound to work double injustice and ultimately prove a failure. In the first place the villagers' taxes will go largely to the benefit of the townspeople and the villagers will go very much neglected; while if equidistribution were to be enforced the towns will receive no more attention than the ordinary villages, and thus there will not be any appreciable difference in the past and prospective condition of these towns. The financial position of the unions cannot by any means be a strong one. A limited dole of a grant from the District Board supplemented by the chowkidari tax cannot go far enough to meet their demands. The income of an ordinary union from these sources cannot far exceed Rs. 2,000 a year and this must be wholly insufficient to meet the requirements of a town, not to speak of the villages which may be incorporated with it. A self-taxing, self-controlling, and self-supporting machinery is needed to cope with the growing demands of these towns; and this machinery can only be supplied by a municipal corporation.

Resolution.

Babu Ambika Charan Mazumdar.

My Lord, I do not and cannot blame the Government for this slow expansion of the municipal system. I am not aware of any instance where the people applied for the establishment of a municipality, but the Government refused such an application. But if the people, owing to their general poverty are so culpably negligent of the security of their health and comforts, Government cannot view with indifference the growing insanitary condition and unprotected growth and congestion of these towns. The people owe it to themselves to pay for their health and comfort and increased powers and privileges must carry with them increased burdens and responsibilities.

My Lord, notwithstanding all their lapses and shortcomings the existing municipalities must be given their credit for the great improvements they have effected in their towns. All the municipalities are fairly alive to their responsibilities and eagerly seeking to improve their charges to the best of their financial strength. In several towns filtered water is supplied, in many protected tanks and wells are reserved, while in all a regular system of conservancy is maintained. Street-lighting and street-sweeping are carried on, while 3 to 5 per cent. of their revenues are devoted to education. Year after year while pointing out their defects Government have borne ungrudging testimony to the good work done by these self-governing institutions and has generously come forward as far as possible to help them with grants and subsidies from the provincial revenues. I am aware that the last administration report was not very complimentary to them. It was mainly urged that they were remiss in increasing taxation. My Lord, I do not stand here to defend any recalcitrant municipal board, but as one of their representatives in this Council I feel bound to say a word or two on their behalf before they are summarily condemned. Their actual position is often misunderstood and their difficulties are more often than not altogether overlooked in an off-hand and stereotyped official criticism. My Lord, there is the fact that in 1884 the total income of the municipalities in the 26 districts now forming the Presidency of Bengal amounted barely to little over 3 *lakhs*, while in 1915-16 their income has risen to over 55 *lakhs*, with the income of the 20 minor municipalities super-added. Then in a town containing a population of 20,000 with a revenue of Rs. 30,000 nothing is easier than to point out that the incidence of taxation is only Re. 1-8 per head of the population. But it is overlooked that out of the 20,000 population only 2,000 bear the bulk of the burden of this entire taxation. Then, my Lord, is not the law itself responsible to some extent for this low and disproportionate figure of taxable persons and shortness of taxation?

In most of the district municipalities the main tax in force is a tax on persons according to the means and circumstances of persons occupying holdings. But the narrow definition and the narrower interpretation given to holdings and to occupiers of holdings make it easy for a very appreciable number of people, both official and non-official, in almost every municipality to evade this taxation. Many people living in a zemindar's *kutchery* and in the premises of jute mills and other factories making decent incomes of their own cannot be taxed. Inspecting officers who take their meals at hotels and live in boats within a municipality escape taxation. Truth is said to be sometimes stranger than fiction; but I know of a case in which a judicial officer—I will not say whether he was a Munsiff or a Deputy Magistrate—drawing Rs. 400 a month managed to secure a rejected wagon on a railway siding in a municipal town and there this wise man, like Diogenes in the tub, lived to defy the municipal authorities. I need not multiply these instances, for they are not pertinent to my present case. Whether there are municipalities which have or have not developed their resources to the fullest extent is no reason why new municipalities should not be established in other places where they are urgently needed.

Resolution.

Rai Mahendra Chandra Mitra Bahadur.

My Lord, it is not for me to suggest what means and methods Government should adopt to give effect to this resolution. The Bengal Municipal Act does not lay down any hard-and-fast rule as to who should take the initiative in the matter of the establishment of a municipality. But the Government cannot divest themselves of their responsibility in providing for the health and comforts of the people committed to their care even if the people are slow to realize and appreciate them. As in the case of Union Committees, the Magistrates may be asked to report what towns in their district ought to have municipalities, stating their extent and population, the divisions into wards, the number of commissioners for each ward and for the whole of the proposed municipality and the schedule to which such municipality should belong. My Lord, it will be a great step taken for not only the expansion and development of Local Self-Government in this province, but also a practical measure for the partial solution of the vital question of sanitation. It will also strengthen the municipal electorates for the Council elections.

With these remarks I submit, My Lord, the Resolution for its acceptance by the Council and by the Government."

The Hon'ble RAI MAHENDRA CHANDRA MITRA BAHADUR said :—

"My Lord, I beg to support the resolution of the Hon'ble Mover. In 1915, the Local Self-Government Policy of Government of India was enunciated in its Resolution Nos. 55-77, dated the 28th April. 'Local Self-Government as a conscious process of administrative devolution and political education dates, outside presidency towns, from the financial reforms of Lord Mayo's Government. Consultative committees had indeed been appointed in various towns in 1850, and measures were taken in 1864 and following years to give effect to the recommendations of the report of the Royal Army Sanitary Commission, which was published in 1863, but no comprehensive scheme was introduced until the years following 1870.' The management of local affairs by the people was encouraged by Lord Ripon. A capacity for self-help by the people of this country has developed since then. The elective system of selecting representatives has been introduced. Official control over the municipalities has been greatly reduced. The Royal Commission upon Decentralization surveyed the whole field of Indian administration. The Government resolution in referring to the above subject noticed the substantial progress of the Local Self-Government Policy and it observed that 'there is definite and satisfactory evidence of the growth of a feeling of good citizenship particularly in the towns. The spread of education is largely responsible for the quickening of a sense of responsibility and improvements of the machinery. In certain provinces, beneficial results have followed the elaboration of a system of Local audit. On all sides there are signs of vitality and growth.'

"The time has now arrived for the expansion of Local Self-Government. Past experience suggests that the people of Bengal are capable of taxing their countrymen properly, collecting the taxes and spending them for the improvement of their towns. Our benign Government have trained the people to administer their own affairs, for they also by their instincts inherited from their forefathers are competent to discharge the duties devolving upon them by these new measures. If therefore municipal administration in many Municipalities has proved efficient and successful the people of this country claim an extension of the operation of the principles of Local Self-Government to other places where they have not been tried; specially in those localities which are prosperous because of the spread of commerce and industry. Any one who has studied the history of the growth of municipal administration has noticed

Resolution.

Babu Surendra Nath Ray.

the anomaly in creating municipalities in some towns and at the same time depriving others of the benefit of municipal administration. Let us take a few concrete cases :—In the district of Birbhum, Nalhati and Rampur Hât are omitted from the operation of the Municipal Act. The population per square mile is 649 and 606, respectively, in the towns of Nalhati and Rampur Hât, whereas in the head-quarter at Suri which has a municipality. the population is 449 per square mile. Let us come to Howrah. Amta and Uluberia have no municipalities, though their popolution is 1,293 and 1,402, respectively, per square mile. In Rangpur, we may take the case of Nilphamari and Gaibandha ; in those places the population is 789 and 1,188, respectively, per square mile. Then again in the district of Dacca, in Manikganj and Munshiganj, the population is 1,015 and 1,600 per square mile, respectively. These few illustrations will explain the necessity of the creation of municipalities in places like those I have mentioned. There is a net work of commercial towns in every part of Bengal and I fully support the views of the Hon'ble Mover, that those places are only to be omitted, which come under the purview of the proviso to the resolution.

"I do not understand why most of these localities have not been allowed to enjoy the benefit of municipal administration since 1864. I suppose it may be admitted that wherever the population of a place admits of its being considered a town and the number of agriculturists who cannot be taxed does not predominate, proper conservancy and sanitary arrangements should be made, in other words municipalities should be created in such areas. Experience has shown that in districts like the 24-Parganas and Hooghly there is a large number of municipalities and the Commissioners have been able to a great extent to check the spread of malaria, cholera and small-pox within the municipal limits. My Lord, I am glad to bring to your notice that by the introduction of the supply of filtered water in the towns of Hooghly-Chinsurah, Sahaganj and British Chandernagore, the ravages of cholera and small-pox have been mitigated and even malarial fever to a great extent has disappeared since the last two years. This is owing to the kind help which Your Excellency's Government extended to the local Municipality. But while other people are discussing the ways and means of driving away malaria from the affected areas, and adumbrating ambitious and costly scheme of flooding and drainage, I am confident that municipal improvements as introduced in Hooghly will be a panacea for all these diseases which are troubling Bengal. I therefore feel it a pleasant duty to commend this resolution to the Council for reasons which I have submitted. And my connection with mufassal municipalities for more than 30 years gives me. I think, a right to speak on the subject with that authority which practical experience generates. My hope for the extension of the principles of municipal administration to various towns and localities in Bengal is strengthened by an idea that village unions ought to cease to exist when they are expanded to a collection of people who feel fit to administer their affairs by municipal laws."

The Hon'ble BABU SURENDRA NATH RAY said :—

"My Lord, I have great pleasure in supporting this resolution. It is a very modest Resolution and I think your Excellency's Government can have no reason to oppose it. The provisions of the Bengal Municipal Act are clear. The Act, I mean the Bengal Municipal Act, may be extended to any local area, provided that no local area can be included within a municipality unless the Local Government is satisfied that three-fourths of the adult male population are chiefly employed in pursuits other than agriculture. and that such area contains not less than 3,000 people and on an average number

of not less than 1,000 inhabitants per square mile. The head-quarters of sub divisions are invariably the most important places in a district bristling with life and animation whatever of life and animation there is in the country. It is therefore but meet and proper that Government should wherever possible give the boon of municipal life to these places. There are no doubt some subdivisions where there are municipalities, but on the other hand there are subdivisions where there are no municipalities but they are under the Local Board. I am probably the only member in your Lordship's Council who is connected with a Municipality and who is also a Member of a Local Board. From my experience of a Municipality and of a Local Board, I can say without hesitation that these Local Boards are almost lifeless—these Boards are by their very constitution dependent upon the District Boards not only for their sustenance but also for their very existence. Not only are they allowed a certain sum to keep them going but even the items of their expenditure under the major heads are settled by the District Board. It is in the subdivisions that we have men who are quite willing and are quite competent to carry on a Municipality if the right is given to them. The object of that great statesman the late Lord Ripon in introducing Local Self-Government in India was that it might be an instrument of popular and political education. That object of that noble Viceroy has not been realised by the establishment of Local Boards but has been to a great extent realised by the establishment of municipalities. The question of sanitation which is the most important question in the mufassal towns and villages is grappled with more satisfactorily in a municipality than in a Local Board. In this country we are placed in such a helpless position that Government have to take the initiation in all matters and Government will have to take the initiation in this matter as well. Government will not lose anything by doing so. On the other hand it will earn the gratitude of the educated community of the Presidency. There is no apprehension that these new municipalities will not be a success, for we have now 30 to 40 graduates in such subdivisions and we can fairly expect that under their guidance and management these institutions will be found to be a success. They will be better managed than the Union Committees which Government are now desirous of establishing."

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"My Lord, I have great pleasure in associating myself with this resolution. Being elected to this Council from the Municipalities of the Rajshahi Division, I think that this much-needed reform should be introduced as early as possible. I cannot really understand if places like Sherpur in Bogra district and Nawabgunge in Malda district can have municipal administration why places like Gaibandha and Kurigram, in Rangpur district and Thakurgaon and Balurghat in Dinajpur should not have municipal administration I was discussing this very question a few days ago with the Magistrate of my district, Mr. Cassells. There is a proposal that a Municipality should be established in Nowgaon in Rajshahi which is a rising town. He was telling me that a Union Committee would do very well there, but one aspect of the question is lost sight of. The district fund is largely monopolised for the maintenance of the trunk roads and feeder roads of the district. The additional new grant of the Public Works Cess is largely monopolised by education charges and for the maintenance of dispensaries and for medical aid. If over and above this large sums of money have to be spent for maintaining the larger towns in the districts in proper order under union committees the funds will be further crippled and proper attention will not be given to the rural areas. So I think that union committees are not the proper remedy and, wherever possible, municipalities ought to be established. I hope with the Hon'ble Mover that for this reform Your Excellency's

Government will find its way to take proper steps for establishing, municipalities wherever possible with the safeguards as suggested by the Hon'ble Mover. With these few words I beg to support the resolution."

The Hon'ble MAULVI ABUL KASEM said :—

"My Lord, it is with some diffidence that I rise to speak on this resolution. If I have to base my opinion on the experience that I have gained of the municipal administration of my town, I would hesitate before supporting it. I think municipal administration is not an unmixed blessing. However, I am glad to learn that municipal administration in other towns is in a much better condition than it is in Burdwan, and I think that we can safely ask Your Excellency's Government to establish municipalities at head-quarters of subdivisions of the districts where there are no municipalites. But I would appeal to Your Excellency's Government to take into consideration the conditions and the interests of the Muhammadans wherever they are in the minority in these municipalities. I deeply regret to say that my experience of municipal administration in towns where Muhammadans are in a minority, has been very sad and very regretable. Muhammadan interests, I say it with a full sense of responsibility, have been deliberately neglected where they are in an absolute minority, and I hope that in introducing these municipalities, Your Excellency's Government will take care that some provision is made for the proper and adequate representation of Muhammadans, and for the safeguarding of their interests. With these words I support the resolution."

The Hon'ble RAI RADHA CHARAN PAL BAHADUR said :—

"My Lord, I rise with some diffidence on this occasion. First of all, I must admit that I was but a little amused by the speech delivered by the previous speaker, my friend the Hon'ble Maulvi Abul Kasem. I thought when listening to his speech that he was opposed to this motion, but I find that the only ground of his opposition is that the Muhammadan interest would be neglected and therefore there should be no extension of the municipal system in other parts of Bengal. I do not know what my freind's experience is, but as far as the majority of non-official members are concerned, and I believe it will be admitted by some of the Muhammadan members here that in most of the places where the municipalities exist, the Muhammadan interest is as well looked after by the Hindus as the Hindu interest is looked after by the Muhammadans. Now, my Lord, with regard to the resolution moved by my venerable friend the Hon'ble Babu Ambika Charan Mazumdar, I must admit, that there are two sides to the question, and, candidly speaking, I cannot make up my mind which side to vote for. I am not one of those who are accustomed to decline to vote when asked to say yes or no. But on this occasion I seem to be driven to that position. My Lord, we have in season and out of season reiterated that education has so much advanced in Bengal —this Presidency being the most advanced province in India—and the educated community is so much scattered through every part of Bengal that there is a demand for a larger share in Local Self-Government. I have not much experience of the province outside the city, but I must say I am surprised to hear from the representatives of the District Boards of other parts of Bengal that there is not yet sufficient public spirit and sufficient education spread in other parts of Bengal as to induce the residents of these parts, especially as the Hon'ble Babu Surendra Nath Ray said that the subdivisions contained able and competent and enlightened men—to avail themselves of the provisions of the Bengal Municipal Act and to ask for municipalities in their subdivisions. My Lord, we very rightly demand that Government should be guided by public opinion, and I am rather surprised that in this matter, a matter in which the educated community is vitally interested, that the desire

for what we call the extension of Local Self-Government is so silent and so dormant in those enlightened subdivisions of Bengal. I value the blessings of municipal government, but at the same time, my Lord, I think that public opinion in those places should be consulted before the Government extend municipalities in these areas. I am a product of two generations of municipal self-government in Calcutta, and whatever public life we possess is due to civic life in Calcutta, but I must say that I quite agree with the Hon'ble Maulvi Abul Kasem that unless municipal government is placed in able, willing and capable hands, it is not an unmixed blessing. Therefore, although I sympathise with the object of the resolution, I think that public opinion in these localities where the municipalities are required, should be consulted before the Government take such a step."

The Hon'ble RAI DEBENDER CHUNDER GHOSE BAHADUR said :—

"My Lord, I have much pleasure in supporting the resolution of my Hon'ble friend Babu Ambica Charan Mazumdar, which has been supported by the previous speakers except the Hon'ble Rai Radha Charan Pal Bahadur. I recollect what took place in the Bengal Legislative Council in the middle seventies of the last century. I am old enough to remember that. It was the time of Sir George Campbell, who was Lieutenant-Governor of the province, and he was far ahead in many matters in his time. The Municipal Act at that time was the one which was passed in 1863 and he wanted to give the Municipality a most comprehensive scope, and he wanted to introduce municipalities not only in every district of the province then under his control, but also to every subdivision of a district and other places of importance in the district. That Bill was very carefully drafted and it was introduced in Council by Mr. Beaufort, then the senior member of the Civil Service and it ran its course in Council in spite of very great opposition on the part of the representatives of the Indian community then in Council and who acted under the lead of the late Maharaja Sir Jatendra Mohan Tagore and Raja Digambar Mittra. But in spite of this opposition the Bill was carried, and passed into an Act. But when it came up to the Viceroy, the late Lord Northbrook, he could not see his way to give his assent to it. He was a Viceroy with great liberal principles and it was at his initiative that the elective system of municipal representation in Calcutta, of 1876 at the time of Sir Richard Temple, the succeeding Lieutenant-Governor, was introduced. Lord Northbrook, as it was reported at the time, said it was a very good thing to have municipalities all over the country, but the people for whom it is intended through their representatives in Council, have entered a protest that they do not want it. 'Why should we', said he, 'create discontent by forcing this on them'. This was the state of things, Sir, some 40 years ago. What do you see now? The accredited representatives of the people, members of the Council who represent the municipalities of the province barring the Calcutta Corporation, have come forward and asked for the extension of municipalities all over the country. Take it to the subdivisions and to important centres of trade, places of importance in the districts. Some people may not like it, for instance, the Government officer who wants to live in a railway wagon, but they will like it in time, and there is a very considerable proportion of the people, rural people I should say who feel the want of sanitation and the want of civic conveniences and would be glad to have municipalities. Then there is another class, the class which is somewhat more articulate, represented by my friend the Hon'ble Babu Ambica Charan Mazumdar, the President of the last Indian National Congress; they want Local Self-Government and extension of Local Self-Government, and certainly they are entitled to speak on behalf of the people, and if they are a little in advance of the agricultural population in their sentiments, I think their views have to be respected and have to be considered and followed because the agricultural

man of to-day will be the trader of to-morrow and the manufacturer of the day after and spokesman of his countrymen the next day. I think it would be a very wise thing for the Government to accept the views of the gentlemen who are members of Your Excellency's Council to-day and make a move in the direction of the extension of municipalities."

The Hon'ble MR. P. C. MITTER said :—

"My Lord, I have great pleasure in supporting this resolution and in doing so I wish to address this House only from one point of view. This Council has heard from the Hon'ble Babu Surendra Nath Roy what the statutory provisions of the municipal system of administration are, but I may add shortly the essential statutory requisites, namely, there must be a minimum population of 3,000 and three-fourths of the adult male population who must be employed in pursuits other than agricultural, and lastly there must be a density of population of 1,000 to the square mile. The main question which I would ask this House to consider is, in an area such as this, an area which the Legislature intends to characterise as urban, should we have municipal administration as our ultimate aim or should we have a system of administration by village unions? I am unhesitatingly in favour of a system of municipal administration in an area like this as our ultimate aim for several reasons. My first reason is that it will afford better facilities to the local population to tax themselves. It is already an unpleasant duty to tax oneself, but before we can really do anything in the direction of sanitary improvement, we must learn to tax ourselves and to bear the burden of taxation. Then, my Lord, there is another reason why I am in favour of municipal administration for urban areas, namely, it will tend, at any rate it ought to tend, to the growth of the public interest in local affairs in such areas. There is still a third reason which induces me to vote in favour of my Hon'ble friend's motion, namely, that municipal administration for these urban areas will tend to set free funds for sanitary improvement of rural areas, for we know that funds are badly wanted in rural areas. At the same time I must say I am in entire sympathy with the observations of my Hon'ble friend Rai Radha Charan Pal Bahadur, that we must have local interest in these matters before we can ask for municipal administration in these areas. It will not do for the Government to force the municipal system of administration upon an unwilling population and therefore in my humble judgment the right course for the Government to follow would be when the question arises with reference to a local area to see if the area is an urban area as defined above, or a rural area. If it is an urban area Government sympathies ought to be for the introduction of a municipal system of administration provided the local public wanted it. If the Government be pleased to follow this humble suggestion of mine, I have no doubt that in the fullness of time the local inhabitants of such areas will realise the importance of taxing themselves. They will realise that it is much better to live and live well even though it may be costly. On the other hand in the system of administration by village unions the areas must necessarily be much larger than municipal areas. The more intelligent and influential people residing in subdivisional towns will often attempt to appropriate to themselves more funds for the immediate benefit of the immediate locality in which they are interested. Therefore looking at the interest of the province as a whole I have no hesitation in supporting this resolution."

The Hon'ble MR. M. ASHRAF ALI KHAN CHAUDHURI said :—

"My Lord, in subdivisional towns or in other big towns, although they may be of great importance and centres of great activity and there might

Mr. Rasul.

be people who are very influential, still they have no voice in the municipal administration of the district. In returning members to this Council their opinions are not represented, though in all fairness it should. Secondly, the municipal bodies of the sadar towns are entrusted with the work of the administration of the sadar towns themselves; they have not the power to formulate methods of improvement in other towns. The improvement of the other towns and big villages on the other hand, having no municipal bodies responsible for the town improvement and management thereof, do not make any corporate effort to undertake the work themselves. It is desirable that the men of such towns should have direct responsibility in effecting improvements in their own towns. It is only in this way, my Lord, that sanitary and other desirable improvements will be seriously tackled by the people themselves. There is a tendency, I am glad to say, with regard to District Board administration and it is undoubtedly a step in the right direction to establish village unions in order to allow and encourage people to take greater interest in the improvement of the local administration. Therefore, I hope, my Lord, that it will be thought consistent with the spirit of the movement to establish municipalities in all towns, at least in all subdivisional towns, and in all fairness and for the good of these towns, Government should establish municipalities in those places where at present there are no municipalities."

The Hon'ble MR. A. RASUL said :—

"My Lord, I had no intention of speaking to-day on this resolution and I do not intend to speak on the general aspect of the question. There is no doubt, and I think every member will agree with me, that my Hon'ble friend the mover of the resolution has made out a very strong case for the adoption of his resolution. My Hon'ble friend Rai Radha Charan Pal Bahadur said something in reply to what my Hon'ble friend Maulvi Abul Kasem said with regard to Muhammadan representation in the municipalities. It is for this reason that I have risen to speak. My Hon'ble friend Rai Radha Charan Pal Bahadur has said that every member of this Council well knows that there is no distinction between Hindus and Muhammadans in these municipalities. I have never served on any municipality in my life and I must say that complaints have come to me as a journalist with regard to various matters. I should not go so far as to say that the Hindu members of the municipalities have deliberately neglected the interests of the Muhammadans, but I must say that they have been, I dare say, unwittingly, indifferent to the interests of some of the Muhammadans in some municipalities. Well, we need not discuss the various municipalities, but as far as the Calcutta Municipality is concerned, I am told that the bodies of Hindu paupers are burnt at the expense of the municipality, but, unfortunately, the bodies of the Muhammadan paupers are also burnt, there being no provision for their suitable burial. But, fortunately, the Muhammadan inhabitants of Calcutta have come forward and have established certain associations which raise funds from the Muhammadans of Calcutta, and with the aid of these funds they are able to give suitable burial to such bodies. Well, in this case, I should not say that the Hindu Commissioners deliberately did that, but that was because, I think, there were not many Muhammadan Commissioners in the Corporation, and it is well known, especially to those Hindu Commissioners and also European Commissioners, if there may be any present here, that in the present Corporation there is not a single Muhammadan elected Commissioner in Calcutta, therefore I have great sympathy with what my friend the Hon'ble Maulvi Abul Kasem said, that when municipalities are established, the interests of the Muhammadans should be safeguarded. As far as the resolution is concerned I do not think any Muhammadan or any person belonging to any other community can take

Resolution.

Babu Akhil Chandra Dutta ; Mr. Godfrey.

any exception to it, because we ought to have municipalities, but the interests of the minority should be safeguarded."

The Hon'ble BABU AKHIL CHANDRA DUTTA said :—

"My Lord, I have great pleasure in supporting this resolution. I will add only one word about the observations made by my Hon'ble friend Maulvi Abul Kasem. I hope the members of this Council will believe me when I say that this is the very first time that I have heard of such a thing that the interests of the Muhammadans are deliberately neglected, presumably by the Hindu municipal commissioners. I have never heard that the Muhammadan interests are neglected at all, much less have I heard that they are deliberately neglected. I do not know that the full significance of the charge that has been laid at the door of the Hindu commissioners has been seriously considered by my friend the Hon'ble Maulvi Abul Kasem. I have heard, I must admit, some such suggestion that in the matter of election sometimes it has been complained that the Hindus gave preference to Hindus and Muhammadans gave reference to Muhammadans, but that is quite a different thing from saying that the Muhammadan interests in all matters are neglected by the Hindu commissioners. At all events, I can assure the Council that if these are the feelings of the Muhammadans in others part of the country, that at any rate is not at all the feeling of that part of the country which I come from, I mean Eastern Bengal. With regard to the resolution, I can only say that in bringing forward this resolution before the Council, the Hon'ble Mover has only represented the feelings of the public at large in this matter. If the wishes of the people are at all to be considered, I think there are very good grounds for accepting this resolution."

The Hon'ble MR. GODFREY said :—

"My Lord, I do not wish to detain the Council long, but as my work takes me to all parts of India, an expression of my opinion on this subject may be of some use. I have listened with much interest to the speech of the Hon'ble Mover, but I cannot think that he has made out any strong case : in fact, the very instance he has cited of responsible individuals, presumably educated men, evading taxation. only shows, in my opinion, how unfitted many of the small towns would be for the responsibilities of municipal administration. If such educated officials, as he mentions, would act in such a way, what could be expected from the comparatively uneducated classes. I am afraid, my Lord, that the Hon'ble Mover may think that I am opposed to his resolution, in view of the light he has thrown on the question of the shortage of Railway wagons in India at the present time, it is indeed a revelation of the lengths to which a self-respecting member of a Government service will go in collusion with a Railway servant, to evade a small local tax, but that is not the reason, my Lord. for opposing the resolution.

"I am strongly in favour of the gradual extension of Local Self-Government in municipal matters, but from my experience of many parts of India, I have seen too many cases of mismanagement by Municipalities because of the impossibility in small towns of finding sufficient ability to organize and pursue the proper duties of a Municipality.

"I am afraid I cannot believe that every subdivisional head-quarters, village or town is qualified to adopt municipal organization or could do so without a very large number of them proving very incapable and failing, and failure in this way would only result in throwing back the proper but gradual advance of Municipal Local Self-Government for several years, a result I should not wish to see.

Resolution.

Nawab Sir Syed Shams-ul-Huda.

The Hon'ble Mover has himself admitted that some existing municipalities do fall short of expectations and show poor results. His resolution would only increase the number of failures, and I think he would be well advised not to press the Resolution."

The Hon'ble NAWAB SIR SYED SHAMS-UL-HUDA said :—

"My Lord, I am sorry that I cannot accept the resolution though it has received considerable support, some of which has not been unqualified. I do not desire to base any arguments on any of the controversial questions that have been raised by some of the Hon'ble Members. My Hon'ble friend desires the establishment of a municipality at every headquarter station of a subdivision and every other town and important centre of trade which may satisfy the provisions of section 10 of the Municipal Act. That section, as Council is aware, insists that the Municipal Act shall be extended only to places where three-fourths of the adult male population are chiefly employed in non-agricultural pursuits ; that the number of inhabitants should not be less than 3,000 and that there should be on an average not less than 1,000 inhabitants to the square mile. A reference to the last census report will show that the number of places in Bengal which have an urban character and which satisfy the requirements of section 10 and yet do not possess a municipality is small. At the last census only 124 places were treated as towns. We have already 112 municipalities in Bengal. The number of additional places to which the Municipal Act could be extended are therefore very few. The definition of a town for census purposes is a municipality, cantonment and any other place which is of an urban character, though not under Municipal Government. The District officers were specially asked to report what places came in the last category, *e.g.*, as centres of trade with a fairly dense population, etc., but only six places other than municipalities or cantonments were considered sufficiently urban to be treated as towns. Of these, two were Railway settlements, the remaining four were all in Rangpur. Two of the latter have only a little over 3,000 inhabitants, the other two (of which one Nilphamari is a subdivisional headquarters) had a population of under 3,000 and could not therefore be created municipalities under the law.

As regards the request that all subdivisional headquarters should be made municipalities, there are 83 subdivisions in Bengal (including the Sadar subdivisions), and of these only 25 subdivisional headquarters are not municipalities. No less than 17, however, of them have been constituted Union Committees.

I would not here enter into a discussion as regards the relative merits of municipalities and Union Committees. Suffice it to say that we have recently been establishing a large number of these committees and are about to undertake legislation to increase their powers and their responsibilities. It would be useful to have a certain number of these committees in semi-urban areas where the presence of a comparatively large number of educated people would make those committees models for the rest. Personally, I would be sorry to do anything at the present moment which will, in any way, prejudice the scheme of local self-government from which we expect a great deal of good to the country. Besides, it is well known that the people themselves are not keen on having Municipal Government as it brings in its train additional taxation and the Hon'ble mover of the resolution is the last person who would ask Government to do anything against the wishes of the people. I think I can say quite correctly that there are very few, if any, real towns which are not already municipalities. There are many subdivisional headquarters which are largely agricultural in character where crops are grown, cattle are grazed and shops are few. If my Hon'ble friend would

Resolution.

Babu Ambica Charan Mazumdar.

make an inquiry he will perhaps not be able to instance many subdivisional headquarters without a municipality to which the Municipal Act could legally be extended. If he would indicate any such places and the people themselves are willing to have a municipality and not a Union Committee we would consider such a case with sympathy."

The Hon'ble BABU AMBICA CHARAN MAZUMDAR said :—

" My Lord, I have not been a little surprised to hear some of the remarks made by some of the members of this Council. Several issues have been raised, some of which are mere side issues, and some of which do not touch the question at all. I will briefly refer to these objections.

My Hon'ble friends, Maulvi Abul Kasem and the Hon'ble Mr. Rasul, although they both supported the resolution, have said that Muhammadan interest should be safeguarded. I should be the last person to stand in the way of safeguarding the interests of Muhammadans. They speak from their experience of certain municipalities which might not have acted properly. The Hon'ble Maulvi Abul Kasem speaks of Burdwan. I do not know whether Burdwan is quite so malaria-stricken even in regard to its public spirit, but I can assure both my Hon'ble friends that there are municipalities, a very large number of them—and I have been connected with the administration of a municipality for nearly twenty years—in which no such apprehension exists.

Then, My Lord, the Hon'ble Rai Radha Charan Pal Bahadur has sprung upon me a very formidable argument, *viz.*, that it is extremely doubtful if there is public spirit enough in the interior of the country. For his information I may tell him, if he will profit by my information, that in the mufassal municipalities the Commissioners do not demand a fee of Rs. 16 nor do they get Rs. 20 for attending the meetings of either the municipal corporation or the Improvement Trust, but they all work gratis. Their public spirit is not to be kept up by any silver tonic. What is in Calcutta is not what prevails in the mufassal, and if there is any public spirit although we have no town hall in the mufassal, and if what is called true public spirit is to be found anywhere, it is in the interior of the country where the people work gratis without any hope of reward.

The Hon'ble Mr. Godfrey has said that he is able to attack me on my own ground, *viz.*, I have said that a certain judicial officer lived like Diogenes in a tub and therefore evaded taxation. He probably lost sight of what I said. I said that there was a defect in the law and I do not suppose any member of this Council is so generous that if he can evade the law, he will come forward to Government or to anybody to pay a tax. What I said simply is this—it is not simply the Municipal Commissioners who are responsible, but that there are certain defects in the law which allow people to go scot-free. That is my view of the question.

Then he has said that he has been in many of the provinces and he found that there is a lack of public spirit. My Lord, I am a Bengali and I am a little bit proud that I am a Bengali. Bengal is different from the other provinces, it may not be in other matters, but in matters of public spirit and in matters of political education, Bengal is far ahead of the other provinces, and there are instances where people have sacrificed much for municipal government and district administration, and everywhere they have given proof of much public spirit.

My Lord, the Hon'ble Mr. Godfrey says 'let us have gradual advance.' But where is the advance if everything is stationary? You cannot ask the sun to advance in its path. We are practically at a standstill. Thirty years have elapsed and we have not made any advance. Then where is the gradual advance?

Resolution.

Babu Ambica Charan Mazumdar.

"The Hon'ble Member in charge is even imbued with the idea that the time has not come for any expansion of municipal administration. When it will come God Almighty alone knows. The Hon'ble Member has sprung upon me the last census report. He reminds me of a story which I read in my younger days of a young gentleman who when he went in the company of certain ladies wanted to create a sensation and said, pulling out a piece of paper from his pocket, 'Look here, Jerusalem is attacked.' The ladies exclaimed, 'Jerusalem is attacked! when and by whom?' Then a person took the paper and saw that it was as old as the 13th century. My friend has practically done the same thing. He has sprung upon me the census report as if the country and the subdivisional towns have remained where they were at the time of the last census. What is my proposition? I have given you a proviso that you need not establish a municipality unless there is a population of 3,000. But why do you throw me aside with the census report of 1911? Inquire and if some of these towns do not satisfy this condition, do not give them a municipality. I have not asked you to go beyond the law. I have given you a proviso, provided the condition is compatible with the provisions of section 10 of the Municipal Act of 1884, that is the section which provides that there must be at least a population of 3,000 and also that at least three-fourths of the population should not be agriculturists, and that the incidence of population is compatible with the law. That is what I have said. Where is the reason for the Government to reject this proposition, when they are so very very anxious for the expansion of local self-government? Besides what evidence is there as to the limit of these towns of which my Hon'ble friend speaks which the census superintendent took for the purpose of their operation? My Lord, let us be frank and let us know exactly where we stand. It is said that Government are very much interested in local self-government. Let us have some positive evidence of it. My Hon'ble friend is a Unionist,—he likes Union Committees and all the other ramifications of the officialised District Boards which are a mockery of local self-government. There is a District Board and under it a Local Board and there will be the village unions. There you can find competent men, there you can find public spirit, there every condition is satisfied, but these unfortunate towns cannot satisfy any of these conditions! It ought to be patent to every sensible man that unless you have a self-taxing, a self-supporting machinery, the proper administration of the towns and the proper maintenance of their sanitation and conservancy cannot be maintained. The so-called Local Self-Government Act does not provide for any measures of this sort. No town, no village union has ever or can ever maintain an establishment for securing conservancy or any other matters of sanitation connected with it. You will ask District Boards to give Rs. 1,500—and as my friend the Hon'ble Member in charge is bent upon increasing the number, the dole of grant will be gradually smaller and smaller because the District Board's income is not very elastic. We have created a number of unions each with a magnificent income of Rs. 1,200 which can neither improve the village nor the towns, and if you insist on multiplying these, I can only understand that whatever is said about the interest for local self-government is a misnomer and a myth if not a delusion and a snare.

We are at this time crying for self-government within the Empire. Many people have told us in high places 'Begin with improving local self-government.' If local self-government is first developed and improved, then ask for National self-government. I thought there was some sincerity and some reason in the suggestion, but at the same time when a proposition like this cannot be accepted, then goodbye to all hopes and aspirations for the future development of self-government, local or national.

My Lord, I will ask for a division whatever may be the fate of the proposition."

Resolution.

Babu Kishori Mohan Chaudhuri.

A division was then taken, with the following result :—

LIST OF BUSINESS—ITEM No. 12.

The Hon'ble BABU KISHORI MOHAN CHAUDHURI moved the following Resolution :—

This Council recommends to the Governor in Council that steps be taken for affording further facilities for general education all over Bengal by the establishment of some more first and second grade colleges and higher class schools in different parts of Bengal with such local contributions and aid from District Boards and Municipalities as may be practicable, also that circular orders be issued, authorizing the Heads of Government institutions to duplicate classes wherever necessary, the additional expenses being met from the additional income to be derived from such duplication.

He said :—

"My Lord,

In commending this resolution to the acceptance of this House, I wish to make myself clear, at the very outset, that it is not my intention to oppose even indirectly the establishment in Bengal of one other University

Resolution.

Babu Kishori Mohan Chaudhuri.

if not more either at Dacca or elsewhere, in regard to which, I am afraid, I have been misunderstood in several quarters. In my first notice of the resolution I suggested the postponement for the present of the establishment of the proposed Dacca University and to utilise the money provided for the same in giving effect to the proposals embodied in that resolution. I have now thought it proper to omit the above suggestion as I think it is purely a financial question and it is not for me to enter into it.

I am fully alive to the manifold blessings which we have derived in the past and hope to derive in the future from the establishment of Universities in India, but I think the time is come when we should aim at the development of special branches of technical education in the old Universities as well as in some new ones to be started, as I understand is being done in the United Kingdom. I welcome with all my heart any attempt that may be made for the diffusion of knowledge in whatever shape it may be. That there is necessity for making further arrangement to meet the growing demand of educational facilities admits of no doubt It is equally necessary, I think, that the existing machineries should be improved and remodelled for giving a healthy tone to and for the full development of the educational activities all over Bengal. Reformation and not revolution should be our principal aim. If the proposed Dacca University is likely to remedy the defects of the present system and to help the diffusion of knowledge which we so urgently require, we should try to have it as early as possible. If, however, there be reasonable apprehension that progress and more rapid spread of education are likely to be retarded under the new system, we should pause for a moment to consider the situation before we can support the movement. I do not mean to say that I do not want any more Universities in Bengal for general education, but I want to place before Your Excellency what we really want at the present moment in order to meet the growing demand and the natural aspirations of our youthful generation. In education lies the solution of the all important bread question of the day and in education lies the relief of the so-called middle classes, or the *Bhadralog* classes, in Bengal. In whatever way that can be achieved, we all should have our heartiest support. It is in this view that I have modified my original resolution and without disputing with any of my Hon'ble colleagues the method of our procedure, I simply press for the things we are in urgent need of.

The great charter of the present system of education dates its origin from the memorable despatch of the Court of Directors of 1854. They for the first time, I believe, 'definitely accepted the systematic promotion of general education as one of the duties of the State in the British Administration of India.' They regarded it as a sacred 'duty to confer upon the natives of India those vast moral and material blessings which flow from the general diffusion of useful knowledge.' They hoped by means of education to extend the influence which the Government was exerting at the time for the suppression of demoralising practices by enlisting in its favour the general sympathy of the native mind. They also sought to create a supply of public servants to whose probity offices of trust might with increased confidence be committed, and to promote the material interest of the country by stimulating its inhabitants to develop its vast resources. This policy was reaffirmed in 1859 when the administration was transferred to the Crown. The principle was further developed by the commission of 1882-1883, which submitted further detailed proposals for carrying out the principles of the memorable despatch of 1854. It was clearly affirmed in the Government resolution, issued on the 11th March, 1904, during the régime of Lord Curzon that the efforts of the Government in pursuance of the above policy produced, upon the whole, a powerful influence for good. The shortcomings of the educational policy regarding its general spread and opening new avenues of employment were noticed in this resolution and a modified scheme was put

Resolution.

Babu Kishori Mohan Chaudhuri.

forward for spreading the benefits of education more widely in its primary, secondary and higher stages. This modified scheme finally culminated in the passing of the Universities Act of 1904 and the framing of regulations for each University with reference to local circumstances for controlling the University education in India.

This declaration of policy did not, however, rest with the above despatches and resolutions. This educational policy has since been finally accepted in clear and unmistakable terms of the Royal Declaration graciously made by His Majesty, our beloved King Emperor, in January, 1912. It was a message of hope fully sympathising with the aspirations of His Majesty's Indian subjects communicated through the members of the Senate of the Calcutta University and its registered Graduates. His Majesty's command and assurance now find a prominent place, as they must, in the last quinquennial report for 1907—1912 of the Hon'ble Mr. Sharp. I may be permitted to quote the passage here :—'Education has given you hope and through better and higher education you will build up higher and better hopes. The announcement was made at Delhi by my command that my Governor-General in Council will allot large sums for the expansion and improvement of education in India. It is my wish that there may be spread over the land a net-work of schools and colleges from which will go forth loyal and manly and useful citizens, able to hold their own in industries and agriculture and all the vocations of life, and it is my wish too that the homes of my Indian subjects may be brightened by the spread of knowledge with all that follows in its train,—a higher level of thought, of comfort and of health. It is through education that my wish will be fulfilled and the cause of education in India will be very close to my heart.' India, My Lord, wants no more. What we have been clamouring for is only this—that effect must be given to this noble and soul-inspiring Royal Command.

As regards Primary Education, it is not my intention to say anything at the present moment. 'The Primary Education,' as defined by the Indian Education Commission of 1882, 'is the instruction of the masses through the vernacular in such subjects as will best fit them for their position in life.' There is great demand for primary education even in the remotest villages in the interior. Every cultivator of some means is now anxious to get an elementary education and feels its necessity all the more for taking an intelligent part in dealing with his creditors and landlord's Tahsildars. In the resolution of 1904, above referred to, Government fully accepted the proposition that the active extension of primary education is one of the most important duties of the State. And it was so not merely on general grounds, but, as Lord Lawrence observed in 1868, 'among all the sources of difficulties in our Administration and of possible danger to the stability of our Government there are few so serious as the ignorance of the people.' The Conference of the Co-operative Societies recently held in Calcutta and opened by Your Excellency adopted a resolution urging for the wider diffusion of primary education in Bengal. I, however, hope and trust the question will be seriously taken in hand when the revision of the Bengal Local Self-Government Act and the contemplated legislation upon the recommendations of the District Administration Committee will come up for consideration.

The wider extension of education is chiefly a matter of increased expenditure and we cannot entirely depend upon Government help. People must come forward to bear a reasonable share of the burden and the people of Bengal are not unwilling to do it.

I need not dwell upon in detail the various stages and the result of the educational reforms To-day we are beset with difficulties on all sides. The necessary funds are not forthcoming, the existing system and the machineries

Resolution.

Babu Kishori Mohan Chaudhuri.

are being condemned and there is a general cry in the official circle that there has been enough of high education in Bengal. It was admitted in the India Government Resolution of 1904 that in India four villages out of five are without a school and three boys out of four grow up without education and a new start was given with the avowed object of effecting greater activities and thereby ensuring steady progress of education.* The last report on the Public Instruction in Bengal for 1915-16 shows, however, that for a male population of over 23 millions, of whom over 10½ millions are Hindus and over 12 millions are Muhammadans, there were 32 Arts Colleges with 17,226 students on the 31st March 1916, of whom 15,429 were Hindus and 1,535 only were Muhammadans. What a poor figure for our Muhammadan brethren in the matter of collegiate education! The general condition of secondary education is reported to be bad. On the 31st March, 1916, 197,530 students in all were in High schools. The number is not at all encouraging and Government must be prepared for a very large increase in the near future at least in the Muhammadan number. The Hon'ble Mr. Hornell, in his last report, says, 'The general condition of secondary education is bad.' This statement, though bald, is not novel, and the dictum that the improvement of Secondary schools is mainly a matter of funds has become a commonplace. The fact is that the Secondary educational system is being run at a figure at which the genuine article, or anything approaching it, cannot be delivered' Government schools which are supposed to be models are scarcely up to, in some cases they are definitely below, the standard of the better aided schools.

It cannot, however, be denied that much progress has been made specially among the Muhammadans in recent years. If the machineries can be kept in order and properly set in motion they are sure to work out the desired result in process of evolution.

Noticing very favourably the progress made by the Calcutta University, Lord Hardinge, in his convocation address, as Chancellor of the Calcutta University, in March, 1915, observed: 'The number of Arts College students in the area under the Calcutta University between 1910 and 1914 nearly doubled, increasing from 9,000 to 18,000, the annual number of Matriculates increased from nearly 3,000 to nearly 7,000, that of the graduates trebled, Masters degree-holders quadrupled. Similarly increase has been effected almost in every branch of education.'

May I be permitted to ask, My Lord, have we got sufficient number of institutions to accommodate and train the increasing number and have we got sufficient number of teachers and professors to manage them? If not, it is no wonder that the Calcutta University is deteriorating in substance or quality as it is improving in number or quantity.

The growth and progress of education is the unavoidable work of evolution. The more education is spreading, the more are people appreciating its value and advantages. Improved facilities for communication are also an important factor for the rapid rise in the number of the recipients of education. These changed circumstances must be met and dealt with with corresponding changes in the machineries for works otherwise the result is bound to be disastrous. If the result is not satisfactory, the defects should be detected upon proper inquiry and remedial measures should be adopted. I may be permitted to make myself clear with an illustration.

The B. A. classes in the Rajshahi College were opened in 1878 with a donation of a lakh and a half made by the late Raja Pramatha Nath Ray

Bahadur, father of Raja Pramada Nath Ray of Dighapatiya, through the Rajshahi Association., It was arranged then that if at least eight students remain on the roll in each of the 3rd and 4th-year college classes, Government would maintain the college. The annual number on the roll in these two classes is now over 250. Maintenance of B. A. classes with a minimum number of 16 students now-a-days is certainly beyond imagination. Maximum number of students in the four college classes in the Rajshahi College has now been fixed at 750. The University was pressing for retention of six professors in English, but as there were five only in the College, Government were asked to appoint another in addition. The Director of Public Instruction, however, asked the Principal of the College to reduce the number of admission by 100 to meet the University demand. If this order is carried out, Government shall have to suffer a loss of Rs. 400 a month in fee receipts for avoiding a monthly expenditure of Rs. 200 or so for the pay of an additional lecturer in English. Rajshahi College is the least expensive 1st grade Government College in Bengal. I quote below the figures for the other Colleges as given in the last Education Report :—

	Name of the College.	Number on the roll on 31st March, 1916.	Government expenditure per head last year. Rs.	A.	P.
1.	Presidency College	975	237	5	7
2.	Dacca College	820	171	9	6
3.	Rajshahi College	774	52	12	6
4.	Hooghly College	242	134	1	3
5.	Krishnagar College	184	175	1	5
6.	Chittagong College	264	140	13	6

May I ask, My Lord, is this the sovereign remedy for maintaining efficiency, or encouraging steady progress?

Last year nearly 250 to 300 students had to be refused admission in the Rajshahi College. Many of them appealed to us and we suggested the opening of two more sections for the 1st and 2nd-year students for the accommodation of at least 200. Their fee-income would have been at least Rs. 800 a month, which would have been sufficient for the additional expenses necessary for the duplication. But the Principal of the Rajshahi College declined to accept the suggestion for reasons best known to him. There are economic causes, I think, for this growing demand for education. The living is becoming gradually dearer and the educated communities with the rapid rise in the number are not getting sufficient employment. Thanks to the Permanent Settlement the cultivating classes and with their assistance the labouring classes have improved much in Bengal. The result is that the *Bhadralog* classes are in real difficulty. They must of necessity educate their sons in order to preserve themselves. Those who remained contented in their exclusion in the interior village life are being obliged to come to town to educate their children and for availing themselves of proper medical aid. The old state of things has thoroughly changed. India in the pre-English period had its own systems of education of great antiquity both among Hindus and Muhammadans. These systems were closely bound up with their respective religious institutions, cheap as well as suited to their circumstances. Western science and systems of education have completely displaced those native systems of antiquity. It is, because of this, that ample provision for the proper education on the new western method has become absolutely necessary for these *Bhadralog* classes.

As I have already said, education is the bread question of the day. Closing the door of high education is not, and will never be, the proper remedy for meeting the situation. It will simply bring in discontent and unrest if new avenues of employment be not thrown open and suitable education be not provided for them.

Resolution.

Babu Kishori Mohan Chaudhuri.

The *Bhadralog* classes are the real backbones of society. There is a great struggle for their very existence. Education is, properly speaking, confined to this community. There is a great antiquity behind them. It is a mistake to think that they have nothing to do with the masses and they may be regarded as negligible quantities. They practically guide the masses and represent them, as the masses in India are without any education, so to speak. Society cannot ignore them and the great masses cannot do without them. The real difficulty is with these classes. Ways and means must be devised to educate them properly. The difficulty which was felt in 1854 has made its reappearance in a different shape only. It is also to my mind, My Lord, the outcome of the education policy so carefully devised and so long pursued with steady onward progress. In this connection the last administration report for Bengal is a very interesting study. It must have attracted special attention of my Hon'ble colleagues. I quote below a few passages from Chapter IV on the Secondary Education :—

'The number of these (secondary) schools is rapidly increasing and the cry is for more and more. It is a demand for tickets in a lottery the prizes of which are posts in Government service and employment in certain professions. The *Bhadralog* have nothing to look to but these posts while those who desire to rise from a lower social or economic stratum have their eyes on the same goal. The middle classes in Bengal are generally poor, and the increased stress of competition and the tendency for the average earnings of certain careers to decrease—a tendency which is bound to follow on the increased demand to enter them, coupled with the rise in the cost of living and the inevitable raising of the standard of comfort—all these factors conspire to make the struggle to exist in those classes all the keener. The situation calls for a systematic and comprehensive policy formulated with an eye to economic conditions and in full recognition of the fact that education costs something.'

The diagnosis, My Lord, is not quite correct. A mistaken ratio policy without competitive test in distributing Government services among Hindus and Muhammadans has produced a demoralizing effect. Competition for nomination is now-a-days going on between the Government officers and official favourites and the Muhammadans. The general public is gradually being excluded from this hard competition for nomination. In working out the ratio the questions of education, birth, position in society are lost sight of. Government, we are sorry, proceed upon the grand totals in the census columns. I may cite one example. I remember when the School Sub-Inspectors were appointed by the District Boards, a Government Circular letter was issued insisting on the appointments being made in every district with reference to the proportion of population between Hindus and Muhammadans. In Rajshahi the proportion was fixed at one to four, the Muhammadans being over 80 per cent. in the district. The fact, however, is that most of these Muhammadans are cultivators and labourers having no education at all. The last census report figures for Rajshahi are :—

	Population.			Literate.			Literate in English.		
	Persons.	Males.	Females.	Persons.	Males.	Females.	Persons.	Males.	Females.
Hindus	315 640	164.998	150,642	31,795	28,697	3,098	4,756	4,692	64
Muhammadans ...	1,148,314	581,669	566,645	36,676	36,143	533	1,261	1,256	5

During my Vice-Chairmanship for several years I could not secure, as far as I remember, a single Muhammadan of the district for the post of School Sub-Inspector drawing a pay of Rs. 50 a month for even an undergraduate with 3 years' teachership qualifications. The limited number of educated Muhammadans has no doubt been benefited by this provision, but I do not

Resolution.

Babu Kishori Mohan Chaudhuri.

grudge it, as this provision has given a start for a very rapid progress of education among my Muhammadan brethren and we all are deeply interested in the cause of Muhammadan education. We know full well that Government posts are very limited in number. The Government cannot provide all. We are clamorous for Government service and overcrowd the legal and other professions simply because we have got nothing else to do. It is not a demand for the "prizes," as my friend puts it, but it is the very struggle for existence. The prize posts in Government service, specially in the Educational service, are practically monopolized by persons with good, bad and indifferent education.

Education is now no longer only a means to an end. With many it is now becoming an end in itself. Our countrymen are clamouring for high education simply because it makes them men and qualifies them for all spheres of life. It is the real preceptor of men. It makes them self-respecting and self-reliant and it fosters in them the spirit of true citizenship. Education includes learning and character. Protection and education of the people are the first charge upon the State, and protection, indeed, My Lord, does to a great extent depend upon education. The State, therefore, has always taken upon itself the imperative duty of educating the people under its charge. And it is upon the contentment, law-abiding common sense, loyal devotion and dutiful adherence of the people that the stability of the State depends.

Without general education nothing can be accomplished. So the system for general education must be thorough and complete.

There is much room for improvement and expansion of the educational institutions without throwing heavy burden upon the provincial revenues. Almost all the private institutions financed to a certain extent by private liberalities are self-supporting if not paying. In every important centre it is desirable that there should be model institutions under Government supervision and control. There would be no difficulty if local resources and help are sympathetically utilized. Quality will also improve if accommodation and supervision are sufficiently provided for. The new college at Rangpur will, I am sure, be a great relief to the people of North Bengal. As a resident of that part of the province I wish to avail myself of this opportunity of acknowledging with sincere thanks the great services in this respect of Mr. J. N. Gupta, the popular Magistrate of the district. Without his tact, judgment, energetic devotion and above all his genuine strong sympathy for the educational advancement of the people of the Rajshahi Division it would have been impossible for Rangpur to secure this inestimable boon. Similar endeavours can successfully be made in many other places. Another 1st grade college at Dacca in addition to the new college at Mymensingh has become a necessity for the East Bengal. The Secretariat Buildings may with advantage be utilized for the purpose. The 2nd grade colleges at Pabna, Comilla, and Midnapore should be raised to the status of the 1st grade college. The district authorities may be directed to try to develop the flourishing high schools into 2nd grade colleges wherever possible and wherever there is a demand for the same. Such efforts can, I think, successfully be made in Dinajpur, Faridpur, Noakhali, Birbhum and such other districts in this province. Many Middle English Schools can be developed into High Schools and all the Middle Vernacular Schools may be turned into Middle English Schools with the help of the District Boards and Municipalities supplemented by local contributions.

Duplication of classes may safely be arranged in many places without substantial Government help. The arrangement may be made temporarily at the discretion of the local authorities. The idea is not a novel one. If I remember aright, this very suggestion was made by my esteemed friend the Hon'ble Dr. Sarbadhicari in his Convocation address as Vice-Chancellor of the Calcutta University in 1915.

Resolution.

Mr. P. C. Mitter.

I am glad that a Commission is going to be appointed very soon for a thorough inquiry into the Calcutta University. To my mind, it is a message of hope and we will anxiously wait for the result of their deliberations. We earnestly hope and pray that the primary stage will form an important part of the inquiry and a scheme will be evolved, and remedial measures will be adopted which will ensure the steady progress of education and will spread such knowledge in fulfilment of His Majesty's Declaration as will sweeten our labour and brighten our homes.

One word more, My Lord, and I have done. I sincerely thank Your Excellency from the bottom of my heart for allowing me an opportunity of discussing in my humble way the most important and all-absorbing question of educational development in Bengal. I am sorry it is raised at the close of your administration when the gloom of separation is upon us. May the Almighty grant you health, comfort and strength to take an abiding interest in the welfare of this country."

The Hon'ble Mr. P. C. MITTER said :—

"My Lord, I confess that when I read my Hon'ble friend's resolution I thought there was nothing in it which I would support ; but after careful consideration, I have come to the conclusion that so far as the principle of the extension of high education is concerned I can give the resolution a limited support, and in coming to that conclusion I must say that I have been considerably influenced by the illuminating facts and figures which my Hon'ble friend, Mr. Hornell, placed in the last administration report on education. I find, My Lord, that altogether 17,226 boys are receiving collegiate education. Out of these 17,226 boys, 1,535 are Muhammadans. I find also that the total Muhammadan population of college-going age, taking roughly the ages of 15 to 20 to be the college-going age, is 1,027,000. and of these I find only 1,535 boys in the whole province of Bengal are receiving any kind of collegiate education. That shows that only ·014 per cent. of college-going Muhammadan boys are receiving any collegiate education.

Turning to the collegiate education of the community as a whole I find that out of a total population of college-going age of 2,028,000, 17,226 boys are receiving collegiate education. That shows that only 1·2 per cent. of boys of college-going age are receiving collegiate education. These figures show that we should have more high education. When I say this I am not at all unmindful of the fact that the great majority of our graduates and under-graduates find great difficulty in getting honourable employment, and that is a point of view which is of the utmost importance for a proper consideration of this question. But, My Lord, is the reason of such unemployment this that there is too much collegiate education or are we not to seek the reason elsewhere ? For the last three quarters of a century, the Government was mainly responsible for the direction of education and the only education to which attention was directed was education of a more or less literary character. Avenues of employment which are open in all civilized countries for educated young men are barred to our young men. Employment in industrial pursuits, in commercial enterprises, in agriculture, in banking—it is needless to multiply instances—is non-existent in our country. I have heard it said and said often that the reason lies very much in the disinclination of our young men to take to such pursuits. I shall not say that there is no truth in that charge, but I say at the same time and say that with all the emphasis I can command that the reason is equally due to the want of adequate provision for proper education in these directions. My Lord, with the vast and illimitable resources of India in her natural products, with her vast forests yet unexploited, with her vast mineral resources yet undeveloped, I put it to those who are responsible for the direction of education in this

Resolution.

Mr. Hornell.

country, have any properly thought-out schemes of education seriously been attempted to be introduced in this country by which our young men after receiving a liberal education in our ordinary colleges in Arts or Sciences can afterwards turn to special educational institutions, so that after coming out from these institutions they will be well qualified in developing the vast resources of their country. I say, without any fear of contradiction, that there is no such institution not only in this province, but in any province in India. Therefore, looking at the figures we find that the percentage of educated young men is very small. We are also confronted with the stern fact that even a small percentage of educated young men have no means of honourable livelihood. Therefore the conclusion follows irresistibly that the education policy has not been directed in a way in which it should have been ; but, My Lord, it is never too late to turn back. If we have to develop our natural resources, we have to educate our young men and we must have more high education and to that extent, therefore, I give my support to that part of the resolution.

My Lord, there is one aspect of the question which I cannot ignore, and that is the financial aspect. I feel that in the present financial condition of the country it is difficult to ask for more money even in such an important matter as general education. But my Hon'ble friend, the mover of this resolution, asks for money for general education from Municipalities and District Boards. That is a proposition to which I cannot accede. Our Municipalities and District Boards for years to come must place all their resources in solving questions which are far more pertinent to them than education, important though it is. Therefore, I support my friend's resolution so far as the principle of the extension of high education is concerned, but I am sorry that I cannot support his resolution in all its details."

The Hon'ble MR. HORNELL said :—

"My Lord, the Hon'ble mover of the resolution has given us a touching testimony of the faith which is in him. I am quite sure that no member of this Council would wish in any way to upset that faith, more especially as he has so convincingly shown us that in this matter he is entirely one with the King-Emperor, but I also gather that in advocating this general extension of the educational system he seems to think that somehow or other the Educational Department of this Government are up against him, and he has told us that statements have been made in high official circles that there is enough of higher education already and that it is time that we called a halt. I only want to say with reference to this allegation that I am quite sure that such a statement has never been made.

I do not think that the present is an occasion for going into the question, what should or should not be the educational policy of this Government, much less do I consider it to be an occasion for examining my own shortcomings or the shortcomings of the Education Department. The Hon'ble Member will have an opportunity for doing this when we discuss the Budget as a whole. We have a definite resolution before us, and I take it that it is my business to deal with the resolution as it stands, to try and see to what exactly it would commit Government and to advise the Council in view of that and that alone whether they should accept the resolution or not. The last speaker raised very many important issues. I should very much like to have an opportunity of discussing them all with him. We certainly cannot do it here or now. He is convinced that there should be more educated men in India. I should only like to say in reference to this general statement that I am quite certain that I and every other member of this Government entirely endorse and re-echo the sentiment.

Resolution.

Mr. Hornell.

Turning to the resolution as it stands, it advocates the taking of steps for affording further facilities for general education all over Bengal by the establishment of some more first and second grade colleges in different parts of Bengal. Presumably, by a high class school is meant what is known as a High English School, *i.e.*, a school recognized by the University of Calcutta as an institution fit to prepare candidates for the Matriculation Examination of that body. The resolution says nothing whatever with reference to technical or industrial training. It simply says that steps should be taken for affording further facilities for general education all over Bengal by the establishment of some more first and second grade colleges and High English Schools. It does not specify who are to take these steps. I listened carefully to what the Hon'ble Member said, because I imagined that he would explain in the course of his speech what the procedure the adoption of which he is advocating would be. All I can gather is that there will be local committees on which men of wealth and position, like our Hon'ble friend the mover, will vie with one another in emptying their own and other people's pockets. I can only say that every member of this Government and every member of this House would welcome enthusiastically any such development as this, but the Hon'ble mover goes beyond local committees collecting subscriptions, and here I wish to take up a point which has been raised by the last speaker. District Boards and Municipalities are to contribute to the establishment and maintenance of these additional first and second grade colleges and these additional High English Schools. But apart from the considerations raised by the last speaker, a District Board cannot legally spend money on a college. The right of a Municipality to do so is, I am told, of very doubtful legality, and I say this with the full knowledge of what the Midnapore Municipality is doing and have been doing for years in connection with the college which was transferred to them by the Local Government. Moreover, it is the view both of the Government of India and the Government of Bengal that the first educational charge on the funds of District Boards and Municipalities must be on account of primary education. Of course, the Hon'ble Member is not only a Municipal Commissioner himself, but he represents Municipalities in this Council, so it is idle for me to quote to him from the literature on the subject. But I would like to invite his attention to the Despatch of the Government of India, No. 873, dated 19th September 1916. In this Despatch, the Government of India intimated their wishes in respect of the recommendations bearing on education which were made by the recent Royal Commission on Decentralization in India. The gist of the educational recommendations of the Royal Commission was that the educational activities of local bodies should be mainly restricted to primary schools, and if the Hon'ble Member will turn to paragraph 10 of that Despatch he will read the following :—

'In the previous paragraphs of this Resolution it has been assumed that the educational activities of local bodies should, as recommended by the Commission, be confined to primary schools. As regards Secondary Institutions teaching English, the opinion of the Commission was that these should be financed by Government; and in view of the fact that so long as the expenditure on these schools rests with local bodies, these bodies are subjected to much pressure to divert to the support of these schools the funds intended for primary education, the Government of India have no hesitation in accepting the principle of the Commission's recommendations as correct. They are unable, however, in present circumstances, to meet the additional expenditure which its general adoption would involve. The financial support of secondary schools which are now maintained at the cost of local bodies must therefore, in the absence of local arrangements to the contrary, be continued for the present on existing lines, but precaution should be taken to restrict by rule any tendency to increase the expenditure of local bodies on secondary schools at the expense of the interests of primary education, and when financial conditions permit all such expenditure should be made a charge upon provincial revenues.'

Before I leave this point, I should like also to invite the attention of the Council, for the matter is, I consider, one of vital importance, to paragraph 31

Resolution.

Mr. Hornell.

of the Bengal Government's resolution on the working of Municipalities in Bengal, 1916. The number of the Resolution is 2896 M., and it was published on the 18th of December 1916 :—

'Educational expenditure, says the Resolution, rose by Rs. 13,203 and it is observed that the whole of the increase was devoted to secondary rather than primary education. The major portion of the increase is due to expenditure on colleges and high schools in Burdwan, Midnapore and Maniktollah. The expenditure on primary schools decreased from Rs. 1,08,328 to Rs. 88,567 and the Governor in Council desires to invite attention to the principle that primary education must be the first object of municipal educational expenditure and that the municipal fund should not be utilised for secondary education intended for the benefit of well-to-do classes, until full provision has been made for primary schools.'

The same point was driven home in the Government of Bengal's latest Resolution on the working of the District Boards of Bengal. The resolution to which I refer is No. 2913 L. S.-G., dated the 19th December 1916, and it has reference to the working of the District Boards during the year 1915-16. I quote from paragraph 17 :—

'The Governor in Council considers it necessary to re-affirm the established principle that until full provision has been made for primary education in a district no part of the district fund should be diverted to the support of education of a higher kind, since this is beyond the needs of the majority of the tax-payers and may well be paid for by those who desire it and can afford it.'

As regards the second half of the resolution, the Hon'ble mover asks that circular orders be issued authorising the head masters of Government institutions to duplicate classes whenever necessary. There are a certain number of Government colleges and secondary schools and these are intended to be models. If you want to add to an institution, it is generally considered desirable that the authorities of that institution, by which I mean those who are responsible for its finances, should be at least consulted. The Hon'ble Member, however, proposes to deprive Government even of this privilege. If the head master thinks that a zilla school wants doubling, he is just to double it by the simple process of duplicating all the classes. The head master will presumably just go ahead and it will be for Government to find the money later. I can attach no other meaning to the Hon'ble Member's suggestion that circular orders should be issued authorising head masters of Government Institutions to duplicate classes wherever necessary, but I find it difficult to believe that this is what the Hon'ble Member really intends. However, I desire to join issue with him on the idea which presumably underlies his suggestion. A school is a unit, a whole. It is not a matter of indifference whether it has 12 classes or 42. There cannot be more than one head master in a school. One man cannot look after more than a certain number of boys, and personally I do not think that any school, the existing educational and social conditions of Bengal being what they are, should exceed 500 to 600 boys. When an institution runs to 1,000 or 1,200 pupils it cannot have any corporate life. It is merely a collection of classes. The classes in Bengal high schools are already far too large. Ask any teacher you like and he will tell you that it is impossible for one man to teach a class of 50. We may not be able to alter these conditions all at once. If the demand for high school education exceeds the supply, the proper way to deal with the situation is to establish more schools and not to render those which exist already more inefficient than they are. Any strong case for increasing any particular Government college or school will be considered, but Government cannot possibly pledge themselves to the issue of such orders as the Hon'ble Member has suggested. Government would welcome any reasonable proposal for the extension of sound education, but it is impossible for them to accept the resolution which is before the Council.

Resolution.

Babu Kishori Mohan Chaudhuri.

The Hon'ble BABU KISHORI MOHAN CHAUDHURI said :—

"I see that I have not been properly understood by some of my Hon'ble friends. My friend the Hon'ble Mr. Provash Chunder Mitter says he cannot support the financial aspect of the question. Both he and my friend the Hon'ble Mr. Hornell think that the District Boards and the Municipalities would not contribute anything. But I think I am not wrong in saying that the middle class English school and the middle vernacular schools can come under the category of secondary education and within the control of the administration of District Boards. I have said in my speech that all the middle vernacular schools should be turned into middle English schools because middle vernacular schools are of no use. English education should be introduced and if that is to be done—that can be done by District Boards. The District Funds can contribute towards it. The District Boards have got the public works cess now and a major portion of it is spent for medical aid, etc., and I do not understand why some portion of it should not be devoted to the maintenance of the middle English schools, at least those which are under the control of the District Boards. So far as the middle English and the middle vernacular schools are concerned, I think they can receive aid from the District Boards. As for Municipalities they have also got higher class English schools. So I think there should be no difficulty. As for college and secondary education I have distinctly said that that the money for their maintenance can be supplemented by local help as in the case of Rangpur, where local contributions have been made to supplement the fund. Similar attempts can be made elsewhere, but the initiative must be taken by the State, and as far as I have been able to show the existing facilities now afforded by the State are not enough. The existing institutions are not sufficient.

I have been taken to task for not saying anything for technical education in this resolution. I have got some other resolutions on the subject and so I carefully avoided saying anything regarding technical education here. My idea is that without general education nothing can be done whatever. Arrangements may be made for giving technical education, agricultural education and so forth, but the ground-work must be general education and for general education something ought to be done.

The Principal of the Dacca College says in his last year's report that there is not enough accommodation in the Dacca College, and I suggest that a first grade college there is an urgent necessity. Second grade colleges can also be established in several districts. The other day the people of Rangpur raised about 7 lakhs of rupees for establishing a higher grade college there. As to duplication of classes I do not mean to say that a whole school with three or four hundred boys should be duplicated. For the lower classes the excess number can be accommodated in middle English and middle vernacular schools. Only the higher classes need be duplicated, and as far as I remember this very suggestion was made by my Hon'ble friend Dr. Sarbadhikari in his Convocation address of 1915. He also suggested that duplication should be resorted to wherever possible. As I have shown in my speech, at Rajshahi the question arose of duplicating the first and second year classes. There are now about 800 boys, and we suggested that accommodation might be made for 200 boys or more. I do not mean to say that heads of colleges should be given full powers. All I suggested was that discretion should be given to the local authorities and local heads of the institutions. They should exercise their discretion in a reasonable spirit and should take sanction of their superiors. This can be satisfactorily arranged. And if we have more second grade colleges and more higher English schools, many more boys can be accommodated. There will be no difficulty. And my contention is that it is a very urgent need and should be taken up at once.

Resolution.

Babu Kishori Mohan Chaudhuri; Mr. Irwin.

I hope Your Excellency's Government will see its way to accept the principle of this resolution. As I said the initiative must come from the State and local help can then be expected. I hope the House will accept my resolution."

The resolution was then put and lost.

LIST OF BUSINESS—ITEMS Nos. 13-17.

The following resolutions, which stood in the name of the Hon'ble Babu Kishori Mohan Chaudhuri, were, by leave of the President, withdrawn :—

This Council recommends to the Governor in Council that encouragement may be given to students in the matter of economical living by the provision of additional hostel accommodation at charges compatible with their means and family circumstances and that arrangements be made also for careful and sympathetic supervision over students whether living in hostels and messes or under the care of their guardians.

This Council recommends to the Governor in Council that arrangements be made as far as practicable for imparting moral and religious training on national lines in schools and colleges in Bengal.

This Council recommends to the Governor in Council that early steps be taken to provide facilities for imparting such education as is necessary for the development of local industries and for the utilization of local resources.

This Council recommends to the Governor in Council that early arrangements be made for imparting higher technical education to the students in Bengal by the establishment of institutions, workshops, laboratories and by arranging for the apprenticeship of students in suitable places in commerce, technology, forestry, agriculture and kindred subjects.

This Council recommends to the Governor in Council—

(*i*) that a Medical College be established at Dacca;
(*ii*) that the duplication of classes be arranged for in the existing Medical institutions in the Province, and
(*iii*) that Medical Schools be established in different parts of the Province on the vernacular basis.

LIST OF BUSINESS—ITEM No. 18.

The Hon'ble MR. H. R. A. IRWIN moved the following resolution :—

This Council recommends to the Governor in Council that if, or directly, finances permit, funds shall be allocated for the construction of the cart-road between Takdah Cantonments and Reang, in the Darjeeling district, with diversion to Lopchoo Bazar, as already surveyed and estimated for by the Public Works Department, with a view to connecting Darjeeling with Kalimpong and linking up with the Teesta Valley Railway Line, by a road suitable for wheeled traffic.

He said :—

"Your Excellency will, I think, remember receiving a deputation from the Darjeeling and Terai Planters some eighteen months ago on the subject of the roads and communications throughout Darjeeling and the Terai.

Resolution.

Mr. Irwin.

Whilst the district has been steadily increasing in importance with a corresponding increase in traffic, very little new work has been undertaken for some years, and communications in parts are even worse than they were ten years ago.

I allude now especially to the old military road from Kurseong to Adulpur and on to Siliguri *viâ* Pankabari, the main road through the Eastern Terai district, which is almost impassable in the rains owing to the want of a bridge over the Rukti River.

The scheme put forward by the deputation above referred to, was of a comprehensive and perhaps somewhat ambitious character, but it received Your Excellency's sympathetic support, inasmuch as you instructed the Superintending Engineer of the district to go thoroughly into it and prepare surveys and estimates on the lines proposed, and you promised to give the matter your favourable consideration when opportunity and means permitted.

Surveys and estimates were duly prepared, but, unfortunately, owing to the increasing drain on funds for Imperial purposes owing to the exigency of war demands, it was found impossible to proceed further with it at the time, and there the matter still rests.

Previous to this a memorial was submitted to Your Excellency by four of the leading Tea Concerns of the district and many native residents urging their claim for a small section of this same scheme being undertaken, and I have now been asked by your memorialists and also by the residents of Kalimpong to strongly support their appeal.

It is very far from our wish to embarrass Government with claims for unprofitable or unnecessary expenditure and we have qualified our request by the words 'if or directly finances permit,' at the same time we may be permitted to point out the urgency of the case, so that it may be taken up at the earliest possible moment.

The need of the proposed road and the district it would serve are so well known to Your Excellency personally that it is hardly necessary for me to recall them to you, but for members of the Council, the majority of whom are unacquainted with the locality, I would give a brief outline of the facts.

At present an excellent cart-road, connecting with the main road and railway line from Darjeeling to Siliguri, branches off from Ghoom and runs as far as the Takdah Cantonments, but from there to Reang, where it joins the Teesta Valley Road and railway line, a bridle road only, impracticable for wheeled traffic, at present exists.

Up to a few years ago this bridle road with much difficulty sufficed, but of late traffic has increased to such an extent that it is quite inadequate to cope with it.

The causes of this increase are briefly—

(1) The increase of tea crops due to intensive cultivation and excessive manuring with consequent extra fuel consumption entailed, thus increasing both upward and downward traffic.

(2) The steadily growing population and importance of Kalimpong and consequent increase of trade.

(3) The opening of the Teesta Valley Railway Line which naturally tends to increase both upward and downward traffic as communications are facilitated.

Resolution.

Mr. Beatson Bell.

The benefits which may be confidently expected to accrue from the construction of this road are manifold.

(1) It would provide an alternative route from the Plains to Darjeeling *viâ* the Teesta Valley.

The need for this is apt to be forgotten through lapse of time: it was before Your Excellency's advent but I am sure you will have heard and the marks still exist of what was known as the Darjeeling Disaster.

It occurred in September 1899, when, after thirty hours' continuous and heavy rain, the railway line and cart-road between Darjeeling and Kurseong were practically wiped out and communications were entirely cut off for some time.

The heavy rain and consequent destruction was practically confined to the Balasun Valley or Western Road, and had the Teesta Valley route been open it would, as I have suggested, have provided an alternative means of communication.

(2) It would open up communications between Darjeeling and Kalimpong and so facilitate trade with Sikkim and Tibet.

(3) It would greatly facilitate the carriage of tea, foodstuffs, fuel and stores of all descriptions, the present expensive method of carriage on the backs of human beings and animals being obviated.

(4) It would greatly facilitate the transport of troops to and from the Takdah Cantonments and the frontier in case of necessity.

(5) It would considerably add to the revenue from forest produce of all descriptions by opening up forests at present useless owing to lack of or prohibitive cost of carriage.

I will not take up valuable time by enlarging, as I might, on the advantages to be derived from the construction of this road, but will commend the scheme to the consideration of Your Excellency's Council with the hope that, in the words of the resolution, funds will be allocated for the same directly finances permit, and that it will be an instalment only of the larger scheme recommended to Your Excellency by the deputation of Planters above referred to."

The Hon'ble MR. BEATSON BELL said:—

"My Lord, we have listened with much interest to the speech which the Hon'ble Mr. Irwin has just delivered. We assure him that Government fully realise that the road which he is advocating would be a very useful road. At the same time, there are many roads in many other districts in the province which might be equally or perhaps even more useful. This road, the road from Takdah Cantonment to Reang, has been surveyed and a rough estimate has been made. We have ascertained that the road would cost at least 6½ lakhs of rupees, and if we add the cost of the further diversion that has now been suggested, the diversion to Lopchoo Bazar, we can safely say that the whole project would cost at least 7 lakhs of rupees. If we had many spare sums of 7 lakhs of rupees each to allot for district roads, we might very possibly accept this resolution exactly as it stands. But I am afraid, as things actually stand, this would give rise to misapprehension and might lead the Hon'ble Member and his constituents to think that we are

Resolution.

Mr. Irwin; Adjournment.

prepared to allot 7 lakhs of rupees for this road in the immediate or measureable future. I, therefore, suggest to the Hon'ble Member that he should modify his resolution on the following lines :—

'This Council recommends to the Governor in Council that, when normal financial conditions are restored, he should examine the needs of the Darjeeling district in the matter of roads along with the needs of other districts in Bengal, and shall see whether funds can be allotted for the construction, etc.'

If the resolution be so modified Government will be glad to accept it."

The Hon'ble MR. IRWIN said :—

"I must of course accept the Government amendment to my resolution, but I regret that it could not see its way to give a promise of a more specific nature. The district of Darjeeling including Kalimpong and the Terai has been steadily increasing in importance for some years and in the meantime very little new work in the way of roads and bridges has been undertaken, and such as has been done is quite inadequate to cope with the increasing traffic. The road I have specially asked for is one that is very badly needed and is one that would be the means of bringing in sufficient Government revenue at once."

The Resolution was then put in the following modified form and agreed to :—

"This Council recommends to the Governor in Council that when normal financial conditions are restored he should examine the needs of the Darjeeling district in the matter of roads, along with the needs of other districts in Bengal, and should see whether funds can be allocated for the construction of the cart-road between Takdah Cantonment and Reang, in the Darjeeling district, with diversion to Lopchoo Bazar, as already surveyed and estimated for by the Public Works Department, with a view to connecting Darjeeling with Kalimpong and linking up with the Teesta Valley Railway Line, by a road suitable for wheeled traffic."

Adjournment.

The Council was adjourned to Tuesday, the 13th March, 1917, at 11 A.M. at Government House, Calcutta.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Indian Legislative Council received the assent of the Governor General on the the 7th March 1917, and is hereby promulgated for general information :—

ACT No. VIII OF 1917.

An Act to impose a tax on income in addition to that imposed by the Indian Income-tax Act, 1886.

WHEREAS it is expedient to impose a tax on income in addition to that imposed by the Indian Income-tax Act, 1886 ; It is hereby enacted as follows :— I of 1886.

Short title, extent and commencement.

1. (*1*) This Act may be called the Super-tax Act, 1917 ;

(*2*) It extends to the whole of British India, and applies also within the dominions of Princes and States in India in alliance with His Majesty to British subjects in those dominions who are in the service of the Government of India, or of a local authority established in the exercise of the powers conferred on the Governor General in Council in that behalf ; and

(*3*) It shall come into force on the first day of April, 1917.

Definitions.

2. (*1*) In this Act, unless there is anything repugnant in the subject or context,—

"prescribed" means prescribed by rules made under this Act;

"previous year" means the year ending on the 31st day of March in the year immediately preceding that in which the assessment is to be made, or, if the accounts of a person or company have been made up in the year immediately preceding that in which the assessment is to be made, then, at the option of such person or company, the year ending on the day on which his or its accounts have been so made up :

Provided that, if this option has once been exercised by a person or company, it shall not again be exercised so as to vary the meaning of the expression "previous year" as then applicable to such person or company, except with the consent of the Collector and upon such conditions as he may think fit.

"principal Act" means the Indian Income-tax Act, 1886 ; II of 1886.

"super-tax" means a tax imposed by this Act ;

"taxable income" means so much of the total income of any person or company as is in excess of rupees fifty thousand ;

"total income" means the income accruing in the previous year from all sources except—

(*a*) from the sources specified in section 5 (*1*) (*a*), (*b*), (*c*), (*e*), (*g*) and (*h*) of the principal Act ; and

(*b*) in the case of a Hindu undivided family, so much of the joint income of such family as has been actually expended or paid for the maintenance or other expenses of any member of such family or paid or finally allotted to any such member ;

(*c*) in the case of a firm, so much of the income of the firm as has been paid or finally allotted to any of the members of the firm ; and

(*d*) in the case of a company, so much of the income of the company as has been paid or declared for payment by way of dividends or otherwise to any of its members :

Provided that nothing in clause (*b*), (*c*) or (*d*) of this definition shall be deemed to exempt from super-tax any income therein referred to when received by any member of such family, firm or company.

(*2*) Words and expressions used in this Act and defined in the principal Act and not hereinbefore defined shall be deemed to have the meanings respectively attributed to them by that Act.

Incomes liable to super-tax and rate thereof.

3. In addition to the tax imposed by section 4 of the principal Act, there shall be charged and recovered and paid in the year beginning with the 1st day of April 1917, and in each subsequent year to the credit of the Government of India, or as the Governor General in Council may direct, by every person subject to this Act and by every company, a super-tax upon the taxable income of such person or company computed at the rate specified in the Schedule.

Collector to determine persons chargeable.

4. The Collector shall, from time to time, determine what persons and companies are chargeable with the super-tax, and the amount at which every person chargeable shall be assessed ;

Provided that, in determining the amount at which a Hindu undivided family, firm, or company shall be assessed, the Collector shall allow a deduction from the taxable income of such family, firm or company, of one-tenth of the income from all sources liable to taxation under the principal Act, of such family, firm or company.

Power to call for returns.

5. (*1*) In the case of a person or company whose total income is in the Collector's opinion of an amount chargeable with super-tax, the Collector, instead of or in addition to the notice referred to in section 14A of the principal Act, may cause a notice to be served upon him or it requiring him or it to furnish, within such period as may be specified in the notice, a return in the prescribed form with a declaration annexed thereto to the same effect as that required to be annexed to a return under the said section, setting forth the total income in the previous year of such person or company, and such further particulars as may be provided for by such form.

(*2*) Every notice issued under sub-section (*1*), and every return and declaration required by such notice, shall be deemed respectively to be a notice issued and a return and declaration required under section 14A of the principal Act, and the provisions of sections 34, 35 and 36 of that Act shall apply accordingly.

(*3*) Where a return is furnished in accordance with the terms of a notice under this section or under section 14A of the principal Act, the assessment to be made by the Collector shall be made after considering such return. If no such return is furnished, such assessment shall be made after such inquiries as the Collector thinks fit have been carried out.

Notice to persons chargeable with super-tax.

6. In the case of a person or company who, in the Collector's opinion, is chargeable with super-tax, the Collector shall cause a notice to be served on him or it stating the following particulars, namely :—

(*a*) his or its name and the source or sources of the income in respect of which he or it is chargeable;

(*b*) the year or portion of the year for which the tax is to be paid ;

(*c*) the place or places, district or districts where the income accrues;

(*d*) the amount to be paid ; and

(*e*) the places where and the person to whom the amount is to be paid,

and requiring him or it to pay within sixty days from the date specified in the notice the amount stated therein as payable by him or it, or to apply to the Collector within thirty days from that date to have the assessment reduced or cancelled :

Provided that, if in accordance with any rules made under this Act super-tax is payable in any case by instalments, the notice shall specify the date on which each instalment falls due, and shall require him or it to pay such instalment within the prescribed period from that date, or to apply as aforesaid to the Collector within thirty days of the date on which the first instalment falls due.

Time and place of payment.

7. Every amount specified as payable in a notice served under section 6 shall be paid within the time, at the place and to the person mentioned in the notice.

Application of provisions of Act II of 1886.

8. Subject to the provisions of this Act—

(*a*) the provisions of sections 20 to 24 of the principal Act shall apply in the case of super-tax as if that tax were income-tax chargeable under Part IV of the principal Act ;

(*b*) the provisions of Chapter IV of the principal Act shall apply to the revision of assessment to super-tax as if that tax were income-tax chargeable under Part IV of the principal Act ;

Provided that the time within which the petition referred to in section 25 (*2*) of the principal Act shall ordinarily be presented shall be the period specified in the notice served under section 6 of this Act, and that the form of the petition shall be modified in such manner as may be necessary to adapt it for the purposes of this Act ; and

(*c*) the provisions of Chapter V of the principal Act and of sections 32, 37 and 39 to 50A of the principal Act shall, as far as may be, apply, in regard to the matters mentioned therein, in the case of the super-tax as if that tax were income-tax chargeable under the principal Act.

Rule-making power.

9. (*1*) The Governor General in Council may make rules consistent with this Act for ascertaining and determining the taxable income of any person or company, thereunder, for preventing disclosure of particulars contained in documents delivered or produced with respect to such assessments, for prescribing the procedure that is to be followed on applications for refund of super-tax, for providing for the payment of that tax by instalments, and generally for carrying out the purposes of this Act, and may delegate to a Local Government the power to make such rules so far as regards the territories subject to that Government.

(*2*) In making a rule for preventing the disclosure of any particulars referred to in sub-section (*1*), the Governor General in Council may direct that a public servant committing a breach of the rule shall be deemed to have committed an offence under section 166 of the Indian Penal Code ; XLV of 1860.

Provided that a person committing any such offence shall not be liable to be prosecuted therefor without the previous sanction of the Local Government.

(*3*) Rules made under this section shall be published in the official Gazette.

SCHEDULE.

In respect—

(1) of the first fifty thousand rupees of taxable income—one anna in the rupee ;

(2) of the next fifty thousand rupees of taxable income—one and a half annas in the rupee ;

(3) of the next fifty thousand rupees of taxable income—two annas in the rupee ;

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 19th March 1917.

Summary.—The week was practically rainless. Ploughing of fields for jute and autumn paddy is in progress and sowings thereof have commenced in some Eastern Bengal districts. Harvesting of tobacco, mustard and other spring crops continues. Planting of sugarcane is going on in some districts. Prospects of standing crops are generally reported to be fairly good. Insufficiency of fodder continues to be reported from parts of Nadia and Dacca districts. Cattle-disease exists in eight districts. The average price of common rice for the Province has slightly risen as compared with that of the previous week.

NOTIFICATION.

No. 1308J.—In exercise of the power conferred by clause (2) of section 139 of the Bengal Local Self-Government Act, 1885 (Bengal Act III of 1885), I confirm the following bye-laws which have been framed by the District Board of Bakarganj under clause (1) of the said section :—

BYE-LAWS FOR THE BAKARGANJ DISTRICT BOARD UNDER SECTIONS 139 AND 140 OF THE BENGAL LOCAL SELF-GOVERNMENT ACT OF 1885 (BENGAL ACT III OF 1885).

DEFINITIONS.

Definitions.

1. In these bye-laws, unless there is anything repugnant in the subject or context.

I of 1871.

(1) the word "cattle" has the same meaning as in the Cattle-Trespass Act, 1871 ;

Bengal Act III of 1885.

(2) "reserved tank or well" means a tank or well which the District Board has set apart under section 90 of the Bengal Local Self-Government Act of 1885, by public notice for the supply of water for drinking and culinary purposes, and includes any reservoir, or part of any river, khal or other channel, so set apart ; and a notice-board on the edge of a reserved tank or well containing the words "reserved tank" or "reserved well" or words to that effect, both in English and vernacular shall be deemed to be sufficient notice for the purpose of this definition : and

(3) the "slopes" of a reserved tank or well include all places from which water can flow directly into such tank or well ; and

(4) "road" means a road vested in, or under the control and administration of, the District Board ; and includes—

(*a*) a village road ;

(*b*) the slope, berm, borrow-pits and side-drains of a road ; and

(*c*) all lands vested in, or under the control and administration of the District Board ; and attached to a road.

ROADS, DRAINS, BRIDGES, CANALS AND EMBANKMENTS.

Encroachment or obstruction on a road.

2. (1) No person shall encroach on any part of a road by cultivating crops thereon.

(2) No person shall on any road, by means of any building, fence, pit, embankment or ditch, or any other obstruction, or by means of any cut, drain or water-course intended for the purpose of drainage or irrigation, or by habitually exposing thereon any goods for sale or by permanently placing thereon any substance or material,—

(*a*) make or cause any encroachment without the permission of the Chairman or Vice-Chairman of the District Board, or

(*b*) obstruct traffic, or

(*c*) cause any inconvenience to passengers, or

(*d*) hinder or impede the flow of water, on any road.

Sale, collecting or gathering of articles in vicinity of road.

3. No person shall expose or place any article for sale in any bazar or market in the vicinity of any road, or collect or gather any articles in the vicinity of a road, so as to interfere with the traffic of the road.

Cutting of plants, trees or hedges obstructing road or drain.

4. Any person in possession of, or having control over any plants, trees or hedges which obstruct, overhang or overshadow any road, or any public drain or sluice, or any drain which is connected with a public drain, or any khal vested in or under the control and administration of the

District Board, shall if so required by notice in writing, signed by the Chairman or Vice-Chairman of the District Board, or by the District Engineer, cut down, prune or trim such plants, trees or hedges, within the period, and in the manner, prescribed in such notice.

Causing obstruction to the traffic through the khal.

5. No person shall cause any obstruction, danger or inconvenience to traffic through any khal vested in or under the control and administration of the District Board, by putting up fish traps, bamboos, posts or any other similar contrivance in any such khal.

Damage to bridges, culverts or causeways on road.

6. (1) No person shall destroy or damage or cause to be destroyed or damaged, any bridge, culvert or causeway built on or across any road.

(2) No person shall erect any fence or other object on, or in front of or close to the opening of, any such bridge, culvert or causeway, for the purpose of fishing or for any other purpose, so as to impede the free flow of water thereunder, or so as to cause damage thereto.

(3) No person shall cast "nets" for fishing purpose from any parapet of any such bridge or culvert.

Damage to fences, posts, soil, turf or grass on road.

7. No person shall--

(*a*) destroy or damage, or cause to be destroyed or damaged, any fence or post erected on any road : or

(*b*) dig, scrape, uproot or remove any soil, turf or grass from any part of a road.

Channel across road.

8. (1) No person shall cut a channel, or convey water by a channel across a road, except with the permission of the Chairman or Vice-Chairman of the District Board and in such manner as he may prescribe.

(2) Any person who has been permitted by the Chairman or Vice, Chairman of the District Board, to cut a channel across a road, shall, at the time prescribed by him, cover or refil the channel so as to restore the road to its former condition.

(3) Any person who has a prescriptive right to keep a channel open for carrying water across a road shall keep the channel in proper order, so as to prevent danger or inconvenience to the public.

Obstruction of waterway adjoining road.

9. No person shall obstruct any waterway adjoining a road, so as to injure or tend to injure the road or otherwise to render the road impassable.

Excavation in, or removal of earth or sods of grass, from the bed or slope of the khal.

10. No person shall, without the permission of the Chairman or Vice-Chairman of the District Board, make any excavation, hole or pit in the bed of any khal which has been constructed or repaired by or is under the control of the District Board, or in any of its slopes or take earth or sods of grass from the bed of any such khal or from any of its slopes.

Necessary action for the prevention of damage done to the khal or its bank.

11. Any person by whom or under whose direction any excavation, hole or pit has been made in the bed of any such khal or its slopes, or earth or sods of grass have been taken therefrom, shall within such time as the Chairman of the District Board, may fix by a notice in writing, take such action as will prevent damage to the khal or its bank.

Excavation on or near road.

12. (1) No person shall make any excavation on any road, or any hole, pit, tank or well within fifteen feet of any road, without the permission of the Chairman or Vice-Chairman of the District Board.

(2) Every person by whom, or by whose direction any hole, pit, tank or well has been excavated within fifteen feet of a road shall be bound to take such order therewith as will prevent damage to, or erosion of, the road.

Protection of excavation on or near road

13. The owner or occupier of any tank, well or other excavation on or near the side of any road shall be bound to fence in or duly protect such excavation in such manner

as may be directed by notice signed by the Chairman or Vice-Chairman of the District Board.

Use of roads, bridges, culverts or canals while closed to traffic.

14. No person shall pass over, or drive any animal or vehicle over, any road, bridge, culvert or canal, so as to injure the same, while it is under construction or repair or is affected by flood or is otherwise rendered unfit for traffic and is closed to traffic under the orders of the Chairman of the District Board, or (in emergent cases, pending application to such Chairman) of the District Engineer.

Discharge of rainfall from roof to road.

15. No person shall, without the permission of the Chairman or Vice-Chairman of the District Board allow the rainfall from the roof of any building owned or occupied by him to be discharged upon any road by means of a spout or other thing intended for the conveyance of water.

Flow of filth on to road.

16. No person shall allow the water of any privy, or any matter offensive or deleterious to health, to flow on any road.

Removal of trees or erections falling on to road.

17. Any person owning or possessing a tree or a house, wall or other erection which has fallen, or part of which has fallen, on to a road, shall, if so required by notice in writing signed by the Chairman or Vice-Chairman of the District Board, or by the District Engineer remove such tree, house, wall, erection or part, within the period prescribed in such notice.

Curing hides on or near road.

18. No person shall cure hides on or near any road.

Slaughter of animals, cleaning of carcasses, &c., on or near road.

19. No person shall slaughter any animal, or clean any carcasses, or collect bones, on or near any road.

Placing or burning of bodies on road.

20. No person shall place or burn any corpse or the dead body of any animal on or near any road; provided that nothing herein contained shall apply to any cremation ground or burial place near any road controlled by a Municipality or Union Committee or any public cremation ground near any road in respect of which the public have acquired a right of easement to burn corpses.

22. No person shall fly a kite on or over any road, to the obstruction or annoyance of travellers.

Rule of the road.

23. (1) Any person driving a vehicle along a road and meeting another vehicle, shall keep on the left or near side of the road, so as to allow sufficient room for the other vehicle to pass.

(2) No person driving a vehicle along a road and overtaking another vehicle shall attempt to pass the latter vehicle otherwise than on the right or offside of the road.

Freedom of roads.

24. No person shall prevent any other person from passing along a road, or shall otherwise interrupt the free use of a road.

Care of animals on road.

25. (1) No person in charge of, or having control over, any animal used for riding or draught shall allow such animal to stand or wander on any road without a rider or driver.

(2) No person in charge of, or having control over, any cattle shall allow such cattle to stray or lie on any road so as to cause inconvenience or danger to any person travelling on the road.

(3) No person shall tether any cattle on, or within reach of, a road, or stall cattle or allow cattle to graze on a road.

Elephants and camels on road to have bell.

26. Every person owning, riding, driving or in charge of any elephant or camel proceeding on a road, must see that such elephant or camel is provided with a bell, and with a light also if such animal is proceeding on a road after nightfall.

Taking elephants over road, embankment, bridge or culvert.

27. No person driving or in charge of an elephant shall—

(*a*) cause material injury to a road or to an embankment vested in the District Board, by taking the elephant over the same ; or

(*b*) take the elephant over a bridge or culvert vested in the District Board unless the same be constructed of arched masonry.

Removal of elephants or camels from road to admit passage of horses.

28. Every driver of an elephant or camel shall, on being so required by the rider or driver of a horse, remove such elephant or camel with reasonable promptitude to a sufficient distance from the road, to allow such horse to pass safely along the road.

Care of vehicles on road.

29. (*1*) No person shall drive or have in his charge on any road more than one vehicle at a time.

(*2*) No person in charge of, or having control over, any vehicle shall allow it to stand unattended on any road.

(*3*) No person shall leave a vehicle standing on a road for any longer time than is necessary for loading or unloading it.

(*4*) No person shall drive upon a road any vehicle laden with bamboos, planks or other materials of a similar character which exceed twelve feet in length and project beyond the vehicle, unless the vehicle be accompanied also by another person.

(*5*) All owners and drivers of vehicles loaded with bricks or other materials shall be responsible for their being so secured that the contents thereof may not fall down on any road.

(*6*) If any vehicle breaks down on a road the driver shall remove it to the edge of the road without delay and shall, within a reasonable time, remove from the road all materials (if any) which have fallen from the vehicle, and shall place the vehicle in such a position that it will not obstruct traffic.

(*7*) No person shall lead or drive any vehicle up or down the slopes of any road, except at crossing fixed by the District Board.

Carrying bamboos or bullahs on cart on road.

30. No person shall carry bamboos or bullahs on a cart on any road in such a manner as to scrape the road or to cause injury or annoyance, or risk of injury, to travellers thereon.

Width of tyres.

31. After the first day of January 1917, no bullock cart shall travel on any road, unless the iron tyres of the wheels or (in the case of carts not having iron tyres) the wooden rims of the wheels, are two inches or more in width.

Provided that this bye-law shall not apply to carts owned by residents of other districts, which do not ordinarily ply within the district but merely pass through that district.

Separate tracks for cart traffic and carriage traffic.

32. Where separate tracks or roads have been set apart for carts and carriages, respectively, no cart shall be permitted to pass over the portion reserved for carriages.

Delhi, the 15th March 1917.

No. 1252-C.—In exercise of the powers conferred by section 27 of the Indian Arms Act, 1878 (XI of 1878), the Governor-General in Council is pleased to direct that the exemption made by entry (13) of Schedule I of the Indian Arms Rules, 1909, in favour of Europeans or East Indian subjects of His Majesty shall cease to extend to Charles Makenzie Peters of Howrah and Henry Edward Peters, Santragachi.

J. H. DUBOULAY,
Secy. to the Govt. of India.

The following notification, issued by the Government of India in the Foreign and Political Department, published in the *Gazette of India*, dated the 24th March 1917, is republished for general information.

J. H. KERR,
Offg. Chief Secy. to the Govt. of Bengal.

NOTIFICATION,

Delhi, the 22nd March 1917.

No. 1908-D.—In pursuance of section 2 of the Defence of India (Criminal Law Amendment) Act, 1915 (IV of 1915), and in supersession of the notification in the Foreign and Political Department, No. 1429-D., dated the 5th March 1917, the Governor-General in Council is pleased to make the following rules :—

Short title.

1. These rules may be called the Defence of India (Passport) Rules, 1917.

Definitions.

2. In these rules, unless there is anything repugnant in the subject or context,

"Passport" means a passport for the time being in force, issued or renewed not more than two years previously by or on behalf of the Government of the country of which the person to whom it relates is a subject and, in the case of a person coming to India from any country other than the United Kingdom or a British possession, issued or *viséd* by the British Ambassador or a British Consul in that country, to which passport there is attached a photograph of the person to whom it relates.

"Competent authority" means any person authorised by order in writing by the Governor-General in Council or by the Local Government to exercise the powers of a competent authority under these rules.

Landing or embarking in British India without passport prohibited.

3. No person coming from, or intending to proceed to, any place out of India shall, save as otherwise provided in these rules, land or embark at any port in British India unless he has in his possession a passport.

Power to exempt persons from the operation of the rules.

4. The Governor-General in Council or the Local Government may by order in writing exempt, either absolutely or on such conditions as may be specified in the order, any person or class of persons from any of the provisions of these rules, and a competent authority may by like order and under like conditions exempt any person from any of the said provisions.

Penalties.

5. Any person who,

(*a*) lands or embarks at any port in British India in contravention of rule 3;

(*b*) having been conditionally exempted from any of the provisions of these rules does any act in contravention of any condition specified in the order of exemption;

(*c*) for the purpose of obtaining a passport or an order of exemption from any provision of these rules, or for the purpose of obtaining the renewal or variation of a passport or order, either for himself or for any other person, makes a false statement or false representation,

shall be punishable with imprisonment for a term which may extend to six months, or with fine, or with both.

Penalty for obstruction to authority acting under these rules.

6. Any person who voluntarily obstructs, or offers any resistance to, or impedes, or otherwise interferes with, a competent authority, or any officer or other person who is carrying out the orders of such authority or who is otherwise acting in accordance with his duty under any of the provisions of these rules, shall be punishable with imprisonment for a term which may extend to one month, or with fine, or with both.

Attempts.

7. Any person who attempts to commit, or abets or attempts to abet the commission of, any act punishable under these rules shall be punishable in like manner as if he had committed the act.

Power of arrest.

8. (1) A competent authority or any officer of the Police or of the Customs Department empowered by general or special order by the Local Government in this behalf, may arrest without warrant any person against whom a reasonable suspicion exists of his being concerned in an offence punishable under these rules.

(2) Every authority or officer making an arrest under this rule shall, without unnecessary delay, take or send the person arrested before a Magistrate having jurisdiction in the case, or to the officer in charge of the nearest police-station.

Exceptions.

9. Nothing in these rules shall apply to—

(*a*) any person whose age is, or appears to the competent authority to be, less than fifteen years;

(*b*) any member of His Majesty's naval or military forces or of the Indian Marine Service entering or leaving British India on duty;

(*c*) any member of the crew of any vessel who has been lawfully engaged as such in any country outside India and who leaves British India in continuation of the same voyage in the same vessel, or any member of the crew of any vessel who has been lawfully engaged in British India for an oversea voyage who satisfies a competent authority that he is by occupation a seafaring man ;

(*d*) any *bonâ fide* labourer proceeding to, or returning from, the Malay States or Ceylon ;

(*e*) any *bonâ fide* Mahomedan pilgrim proceeding to, or returning from, Jeddah or Basra.

Notice.

THE Bengal and Madras Service Family Pension Fund which is provisionally managed and assisted by Government has for its object the provision of monthly pensions for the maintenance of the widows and children of subscribers and is open, with certain exceptions, to all active and pensioned members of the Uncovenanted Service of Government (except those serving under the Government of Bombay), and to Local Fund servants earning pensions from Government. Some of the special features of the Fund are—(1) that widowed daughters incapable of remarriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows' and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominees predecease them after five years of admission. The Fund is now of ten years' standing and has a balance of over three and-a-half lakhs with Government on four per cent. interest. For forms of applications and rules of the Fund apply to the Comptroller, India Treasuries, Imperial Secretariat Buildings, Calcutta.

Notice.

THE next annual stock-taking of the Indian Law Reports, kept at the Bengal Secretariat Book Depôt, will commence on the 1st April, 1917.

All issues of the said Reports from the said Depôt to subscribers and officials will be suspended during that month.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES viz.

CALCUTTA, MADRAS BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt: and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta, or

the Superintendent, Government Press, Madras, or

the Superintendent, Government Central Press, Bombay, or

the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 26th March 1917.

Summary.—During the week under review, light scattered showers fell throughout the greater part of the Presidency. More rain, however, is wanted. The preparation of fields for jute and other autumn crops continues. Sowings are proceeding in some of the northern and eastern districts. Harvesting of rape, mustard, tobacco, pulses and other spring crops is proceeding. Prospects of summer rice and other standing crops are reported to be generally satisfactory. Owing to the absence of heavy showers the summer paddy crop is reported to have been attacked by insects in places in the Dacca district. Insufficiency of fodder continues to be reported from parts of Nadia and Dacca districts. Cattle-disease is reported from four districts. The average price of common rice for the Province has risen slightly as compared with that of the previous week.

DEPARTMENT OF STATISTICS, INDIA.

CALCUTTA TRADE FLUCTUATIONS.

THE following tables are intended to show the trade of the Calcutta Block* in certain selected articles during the months of April 1916 to January 1917 by all routes, *i.e.*, by rail, river, canal, road and sea. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the District Magistrates of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

* Calcutta block consists of the town of Calcutta with Howrah and Kidderpore Docks.

General Summary.

Imports.—The imports of rice including paddy† into Calcutta by rail, river, canal, road and sea (coastwise) during April 1916 to January 1917 amounted to 11,050,000 maunds as against 18,140,000 maunds in the corresponding period of the preceding year—a decline of 23 per cent. There was a slight increase in the imports of coal and coke (90,452,000 maunds as against 90,111,000 maunds last year). The imports by rail and river of Indian cotton piece-goods showed a considerable improvement, the total value amounted to Rs. 3,12,49,000 as against Rs. 1,71,83,000 in the same period of 1915-16. The quantity of indigo imported during the ten months ending January 1917 rose by 84 per cent (31,000 maunds as against 17,000 maunds last year), owing to larger supplies having been received mainly from the United Provinces and Bihar and Orissa. Imports of raw jute amounted to 1,835,000 bales as against 5,220,000 bales—a fall of 7 per cent., while the importations of gunnybags showed a large increase, 361 million bags against 283 millions in the preceding year. The total imports of oilseeds (linseed and rape and mustard seed) rose by 23 per cent. (6,301,000 maunds against 5,113,000 maunds), and those of sugar by 6 per cent. (548,000 maunds against 519,000 maunds). There was a decrease in the imports of tea (2,760,000 maunds as against 3,254,000 maunds).

Exports.—The exports of cotton piece-goods, Foreign, from Calcutta by all routes during April 1916 to January 1917 increased by 7 per cent. (Rs. 16,99,28,000 as against Rs. 15,86,94,000 last year). The exports of gunnybags including the exports by sea to foreign countries, increased from 1,156 million bags to 1,251 million bags. Shipments of gunnybags to foreign countries other than the United Kingdom increased by about 29 million bags in the period under review, and those to the United Kingdom by 54 million bags. The quantity of kerosene oil despatched from Calcutta and Budge-Budge by internal routes and by sea (coastwise) increased from 6,120,000 maunds to 6,167,000 maunds.

† One maund of paddy is equivalent to 25 seers of rice.

GOVERNMENT OF BENGAL.

POLITICAL DEPARTMENT.

The following order, issued by the Government of India in the Army Department, published in the *Gazette of India Extraordinary*, dated the 27th March 1917, is republished for general information.

J. H. KERR,
Offg. Chief Secy. to the Govt. of Bengal.

JUDICIAL.

Delhi, the 27th March 1917.

No. 461.—In exercise of the powers conferred by section 13 of the Indian Defence Force Act, 1917 (III of 1917), and in supersession of the notification of the Government of India in the Army Department, No. 402, dated the 16th of March 1917, the Governor-General in Council is pleased to make the following rules :—

Short title.

1. These rules may be called the Indian Defence Force Rules, 1917.

Definitions.

2. In these Rules, unless there is anything repugnant in the subject or context,—

(*a*) "the Act" means the Indian Defence Force Act, 1917 ; III of 1917

(*b*) "the competent military authority" means the General Officer Commanding the Division, Divisional Area or Independent Brigade within the territorial limits of which a person for the time being resides or is serving as the case may be ; and

(*c*) the expression "District Magistrate" shall be deemed, in the Presidency Towns and Rangoon, to refer to the Commissioner of Police.

Prescribed military authority under section 8 of the Act.

3. For the purpose of the proviso to section 3 of the Act, the prescribed military authority shall be the General Officer Commanding the Brigade.

Prescribed authority under sections 9 and 10 of the Act.

4. For the purposes of sections 9 and 10 of the Act, the prescribed authority shall be the competent military authority.

PART I.

EXEMPTION.

Persons who may apply for exemption.

5. An application for exemption from military service shall ordinarily be made by the person claiming to be exempted:

Provided that application may be made—

(*a*) on behalf of a person under 18 years of age, or of unsound mind, by his parent or legal guardian;

(*b*) on behalf of a person employed by any public authority, by a person specially authorised in this behalf by order in writing by the chief executive officer of such authority;

(*c*) on behalf of a person employed by any railway administration, by a person specially authorised in this behalf by order in writing by the head of such railway administration; and

(*d*) on behalf of any other person, by his employer or by a person specially authorised in this behalf by order in writing by such employer.

Applications for exemption.

6. (*1*) An application for exemption under section 11 of the Act shall be in writing and shall state concisely the grounds on which exemption is claimed, and whether permanent or temporary exemption is sought. It shall be signed by the person making the application and shall be lodged with the District Magistrate of the district in which the person in respect of whom it is made ordinarily resides.

(*2*) The District Magistrate shall forthwith forward every application lodged with him under this rule to the President of the appropriate exemption tribunal constituted under these rules.

Where by inadvertence the application is forwarded to an exemption tribunal, which under these rules is not the appropriate tribunal, it shall be referred forthwith by that tribunal to the appropriate tribunal.

(*3*) Every application for exemption under this rule shall be made within one month from the date on which the person in respect of whom the application is made becomes liable to military service, or from the 21st of March 1917, whichever date is later:

Provided that the appropriate exemption tribunal, where it is satisfied that the person making the application was prevented by any sufficient cause from making such application within the time specified in this rule, may hear and determine the application.

(*4*) Unless the Local Government by general or special order otherwise directs, the appropriate exemption tribunal (hereinafter called the exemption tribunal) shall be the tribunal or any one of the tribunals constituted under rule 7 in the area in which the person concerned ordinarily resides, and every application for exemption shall be determined by such tribunal.

(*5*) In case of doubt the Local Government shall decide by which exemption tribunal a particular application or class of applications shall be determined.

Exemption tribunals.

7. (*1*) In every military brigade area there shall be one or more exemption tribunals.

(*2*) Every such tribunal shall consist of three members, namely:—

(*a*) a Civil Officer nominated by the Local Government, who shall be President;

(*b*) a Military Officer nominated by the competent military authority; and

(*c*) a non-official European British subject to be nominated by the President:

Provided that if any difficulty arises with respect to the constitution of any tribunal as regards the non-official member thereof, the Local Government may make any appointment and do anything which appears to it necessary or expedient for the representation on tribunals of non-official European British subjects.

(*3*) The Local Government shall frame lists of non-official European British subjects from among whom the President shall from time to time nominate the non-official member of an exemption tribunal. The person so nominated shall be a member of such tribunal for such period as the President may from time to time direct. In nominating members the President shall have regard to the nature of the claims pending before the tribunal:

Provided that no non-official European British subject shall sit as a member of an exemption tribunal, when such tribunal is adjudicating on the application of any person in his employment, or in the employment of the firm or company of which he is a member, agent or servant, or on any other application in which he is otherwise personally interested, of which facts the President shall be the sole judge.

(*4*) The decision of every exemption tribunal shall be in accordance with the opinion of the majority of the members.

(*5*) The President shall decide all questions which may arise as to points of order or procedure.

(*6*) A military representative authorised in this behalf by the competent military authority shall have the right to appear as a party to every application heard by the exemption tribunal to whom his name shall be duly notified.

(*7*) At least seven clear days before the hearing of an application the President shall send to the applicant and to the military representative notice of the time and place at which the application will be heard:

Provided that the President may in his discretion adjourn the hearing of any application to any subsequent day upon giving reasonable notice of that adjournment to the person concerned.

(*8*) All applications to the exemption tribunal shall be heard in public unless the tribunal in any particular case, due regard being given to the interests of the parties and of any other person concerned in the application, consider that an application or any part of the proceedings thereon should be heard in private. Provided that the exemption tribunal may exclude the parties and the public at any time during the hearing of an application for the purpose of conferring upon any question affecting the decision of the tribunal.

(*9*) The exemption tribunal shall hear every applicant appearing before it, and shall communicate its decision to the applicant and shall send a copy thereof to the competent military authority, and shall, if necessary, in accordance with such decision, issue under the signature of the President to the person by or in respect of whom the application has been made a certificate of exemption in Form I set out in Schedule I to these rules.

PART II

VOLUNTARY ENROLMENT.

Conditions to be satisfied by a person offering himself for enrolment under section 12 of the Act.

8. A person not being a European British subject may offer himself for enrolment for general military service, provided he satisfies the following conditions, namely:—

(*1*) He must not belong to any class from which the Indian Army is ordinarily recruited.

(*2*) He must not be a member of a criminal tribe, or a person who at any time has been sentenced to a term of imprisonment or transportation, or has been ordered under the provisions of the Code of Criminal Procedure, 1898, to give security for his good behaviour, such sentence or order not having been subsequently reversed or remitted, or the offender pardoned. V of 1898

(*3*) He must not be a member of a menial class.

(*4*) He must bear a good character.

(5) He must for the time being have attained the age of 18 years but not the age of 30 years.

(6) He must have attained the standard of height, chest measurement and physical fitness required for recruits of the Indian Army.

Procedure

9. (1) Every person offering himself for enrolment under the provisions of section 12 of the Act shall lodge with the District Magistrate of the district in which he ordinarily resides Form II set out in Schedule I to these rules duly filled in and signed by him.

(2) The District Magistrate shall forward every Form lodged with him under the provisions of sub-rule (1) to the competent military authority, or to such other person as may be appointed in this behalf by the competent military authority.

Enrolment.

10. (1) In the case of every person so offering himself for enrolment, whose offer it is proposed to accept, the competent military authority shall, as soon as may be, cause a notice to that effect to be served upon him requiring him to attend for medical examination and thereafter for enrolment at such time and place as may be specified therein.

In all other cases notice shall as soon as may be served on the person offering himself for enrolment stating that his offer is not accepted.

(2) When any such person, having been duly certified as medically fit, attends for enrolment, the enrolling officer shall put to him the questions in Form II set out in Schedule I to these rules, and shall, if necessary, amend the answers entered in the copy of the said Form lodged by such person. Such person shall be required to sign at the foot of the said Form a declaration that the answers given by him are true and that he is willing to fulfil the engagements made.

(3) If the enrolling officer is satisfied that the person desirous of being enrolled understands the questions put to him and consents to the conditions of service, he shall sign a certificate to that effect on the said Form, and such person shall then be deemed to be enrolled under section 12 of the Act.

(4) For the purposes of this rule, the enrolling officer shall be such officer as may be appointed in this behalf by the competent military authority.

Attestation.

11. (1) Every person so enrolled shall be attested in the presence of any one of the following attesting officers :—

(a) a Magistrate ;
(b) an officer commanding a military station :
(c) an officer commanding a Regular or Territorial Unit ; or
(d) an officer commanding an Indian Defence Force Corps.

(2) When any person is to be attested, an oath or affirmation shall be administered to him in one of the Forms specified in Form III set out in Schedule I to these rules, or in such other form to the same purport as the attesting officer ascertains to be in accordance with the religion of the person to be attested or otherwise binding on his conscience.

(3) An entry of the fact that an enrolled person has taken the oath or affirmation directed by this rule shall be endorsed on the copy of Form II signed by him, and shall be authenticated by the signature of the attesting officer.

Manner of quitting a corps or unit.

12. No person enrolled in a corps or unit constituted under section 12 of the Act shall quit such corps or unit, unless dismissed by a sentence of court-martial or dismissed or discharged by an order of the Governor-General in Council or of the General Officer Commanding the Division.

Persons enrolled under section 12 of the Act to be deemed to be called out from the date of enrolment.

13. Every person enrolled in a corps or unit constituted under section 12 of the Act shall be deemed to have been called out for general military service from the date of his being so enrolled.

Penalty for making a false answer at enrolment or attestation.

14. Any person who, having offered himself for enrolment in a corps or unit constituted under section 12 of the Act, knowingly makes a false answer to any question put to him at the time of enrolment or attestation, shall be punishable with imprisonment which may extend to six months, or with fine which may extend to five hundred rupees, or with both.

PART III.

Medical Examination.

Liability to medical examination.

15. (*1*) Every person liable to general military service under the Act shall, if required, present himself for medical examination and for that purpose shall comply with the directions of the examining officer.

(*2*) The competent military authority shall cause at least seven days' notice to be given to any such person of the time and place at which such person is to attend.

(*3*) If any such person refuses or, without lawful excuse (the burden of proving which shall lie upon such person), neglects to attend at the time and place specified in the notice given to him under sub-rule (2), he shall be punishable with imprisonment which may extend to one month, or with fine which may extend to five hundred rupees, or with both.

(*4*) The examining officer shall be an officer of the Indian Medical Service or the Royal Army Medical Corps, or a recognised medical practitioner appointed for that purpose by the competent military authority.

Categories of medical fitness.

16. The competent military authority shall cause every person who has been medically examined in accordance with rule 15 to be classified in one of the following categories of medical fitness :—

A. Fit for active work of a continuous nature as being organically sound, able to march and stand active service conditions, and to see and hear well ;

B. Fit for active work not requiring prolonged and continuous strain, as being free from serious organic disease, able to march at least five miles, and to see and hear well ;

C. Fit only for sedentary work ;

D. Temporarily unfit for service, but likely to become fit for inclusion in category A, B or C within six months ; or

E. Permanently unfit for any service.

Exemption on medical grounds.

17. (*1*) Persons who are classified in category D of medical fitness shall be temporarily exempted from general military service, and certificates of exemption in Form I set out in Schedule I to these rules shall be issued to such persons accordingly by the competent military authority.

(*2*) Persons who are classified in category E of medical fitness shall be permanently exempted from military service, and certificates of exemption in Form I set out in Schedule I to these rules shall be issued to such persons accordingly by the competent military authority.

Liability to medical re-examination.

18. Where, in accordance with the terms of a certificate of exemption issued under rule 17, any person is required to present himself for further medical examination, the provisions of sub-rules (*2*) and (*3*) of rule 15 shall apply.

PART IV.

Obligations on European British Subjects enrolled for Military Service.

Duty to report for joining the corps when so required.

19. (*1*) Every person deemed to be enrolled for military service shall (unless an application for a certificate of exemption has been made by or on behalf of such person and has not been finally disposed of), report himself for the purpose of joining the corps or unit to which he may have been appointed on such date and at such place as he may be required to do by any general or special notice issued in this behalf by or under the orders of a competent military authority.

(*2*) If any such person refuses or, without lawful excuse (the burden of proving which shall lie upon such person) neglects to comply with any directions of a notice issued under sub-rule (*1*), he shall be punishable with imprisonment which may extend to six months, or with fine which may extend to five hundred rupees, or with both.

Obligation to serve faithfully and to obey orders.

20. Every person deemed to be enrolled for military service, whether general or local, shall honestly and faithfully serve in the Indian Defence Force, and shall go to any place in India or in the prescribed local area, as the case may be, to which he may be required to go by the orders of a competent authority. Every such person shall observe and obey all commands of any officer set over him.

Limits of local military service.

21. For the purpose of the proviso to section 7 of the Act, the prescribed local area shall be—

(*a*) in the case of a person appointed to a corps or unit having its head-quarters in any of the presidency-towns, or in Karachi or Rangoon—an area with a radius of forty miles from such head-quarters ;

(*b*) in the case of any other person—the civil district in which such person ordinarily resides; provided that where the corps or unit to which any person is appointed consists of persons enrolled in more than one civil district, such person may be required to serve anywhere in such districts.

Calling up for actual military duty persons deemed to be enrolled for local military service.

22. Any person deemed to be enrolled for local military service may, by general or special order of the Commander-in-Chief in India, be called upon to perform actual military duty within the local area prescribed by these rules.

PART V.

CALLING OUT.

Manner of calling out persons deemed to be enrolled for general military service.

23. Any European British subject who is deemed to be enrolled for general military service may be called out for general military service as follows :—

(*a*) for service with a corps or unit specially constituted and embodied for general service under the orders of the Commander-in-Chief —by order of the Commander-in-Chief in India ;

(*b*) for service with the corps or unit to which he is appointed on such corps or unit being called out for general military service by the Commander-in-Chief—by order of the Commander-in-Chief in India calling out the corps or unit ;

(*c*) for military duty or for training in camp—by order of the competent military authority.

PART VI.

PUNISHMENTS AND ARREST.

VIII of 1911. Offences punishable by courts-martial.

24. Any person deemed to be enrolled for military service who, in circumstances when he is not subject to the Army Act, or to the Indian Army Act, 1911, does any act which is declared by Schedule II to these rules to be an offence against these rules may be tried and punished by a court-martial constituted under these rules.

Punishments.

25. A court-martial constituted under these rules may inflict punishment in respect of the offences mentioned in Schedule II to these rules according to the following scale, namely :—

(*a*) imprisonment for any term not exceeding six months ;
(*b*) dismissal from the Indian Defence Force ;
(*c*) in the case of officers and warrant officers, suspension from rank, pay and allowances for any stated period ;
(*d*) reduction in the case of a warrant officer, to a lower grade or class (if any) of warrant officer, or in the case of a non-commissioned officer, to a lower grade or to the ranks ;

(*e*) in the case of officers, warrant officers and non-commissioned officers, forfeiture of seniority of rank;

(*f*) in the case of a person sentenced to dismissal from the Indian Defence Force, forfeiture of all arrears of pay and allowances and other public money due to him at the time of such dismissal;

(*g*) stoppages of pay and allowances until any proved loss or damage occasioned by the offence of which he is convicted is made good; or

(*h*) fine not exceeding five hundred rupees.

Dismissal.

26. When an officer is sentenced to imprisonment, he shall at the same time be sentenced to dismissal from the Indian Defence Force.

Reprimand or severe reprimand.

27. When an officer is sentenced to forfeiture of seniority of rank, he may also be sentenced to receive a reprimand or severe reprimand.

Discharge with ignominy.

28. When a warrant officer, non-commissioned officer or man is sentenced to imprisonment, he may at the same time be sentenced to be discharged with ignominy from the Indian Defence Force.

Combination of punishments

29. A court-martial may award, in addition to or without any one other punishment, any one or more of the punishments specified in clauses (*b*), (*d*), (*f*) (*g*) and (*h*) of rule 24.

Arrest and custody.

30. (*1*) Every person subject to the Act and these rules when charged with any of the offences specified in Schedule II to these rules may be taken into military custody, provided that in every case where any such person remains in military custody for a longer period than eight days without a court-martial for his trial being convened, a special report explaining the necessity for further delay shall be made by his commanding officer to the competent military authority, and a similar report shall be forwarded every eight days until a court-martial is convened, or such person is released from military custody.

(*2*) "Military custody" means the putting the offender under arrest or the putting him in confinement.

(*3*) The Commander-in-Chief in India shall prescribe by regulation made under the Act the persons subject to the Act by whom any person also so subject may be ordered into military custody.

(*4*) Whoever commits any person into military custody in accordance with these rules shall deliver, at the time of such committal or within twenty-four hours thereafter, to the commander of the guard into whose custody such person is committed, an account in writing signed by himself of the offence with which the person so committed is charged.

(*5*) The charge made against every person taken into military custody shall without unnecessary delay be investigated by the proper military authority and, as soon as may be, either proceeding shall be taken for punishing the offence or such person shall be released from military custody.

PART VII.

COURTS-MARTIAL.

Courts-martial.

31. For the purposes of these rules there shall be two kinds of courts-martial, namely:—

(*1*) a general court-martial, and

(*2*) a regimental court-martial.

Convening and constitution of general courts-martial

32. (*1*) A general court-martial may be convened by the Commander-in-Chief in India or by any officer empowered in this behalf by warrant of the Commander-in-Chief in India.

(*2*) A general court-martial shall consist of not less than five officers of of His Majesty's Regular or Territorial Forces or of the Indian Defence Force. The President of such Court shall not be below the rank of a Field Officer.

Convening and constitution of regimental courts-martial.

33. (*1*) A regimental court-martial may be convened by the Officer Commanding the corps or unit in which the person accused is for the time being serving.

(*2*) A regimental court-martial shall consist of not less than three officers, of whom two shall ordinarily be officers of the Indian Defence Force.

Powers of courts-martial.

34. (*1*) A genral court martial shall have power to try any person subject to the Act for any of the offences made punishable by rule 24, and to pass any sentence authorised by these rules.

(*2*) A regimental court-martial shall have power to try any person subject to the Act other than an officer for any of the offences made punishable by rule 24, and shall have power to pass a sentence of imprisonment for a term not exceeding one month, or fine not exceeding one hundred rupees, or both, or any less sentence authorised by these rules.

Procedure for courts-martial.

35. The proceedings of courts-martial convened under these rules shall be conducted according to the laws and customs applicable to courts-martial held under the Army Act, and the said Act and the rules made thereunder shall, so far as may be. apply accordingly.

Finding and sentence invalid without confirmation.

36. No finding or sentence of a court-martial shall be valid except so far as it may be confirmed as provided by these rules.

Power to confirm findings and sentences.

37. (*1*) The findings and sentences of general courts-martial may be confirmed by the Commander-in-Chief in India or by any other officer empowered in this behalf by warrant of the Commander-in-Chief in India.

(*2*) The findings and sentences of regimental courts-martial may be confirmed by the general officer commanding the brigade.

Power to mitigate, remit or commute punishments and to revise invalid sentences.

38. A confirming officer may, when confirming the sentence of a court-martial, mitigate or remit the punishment thereby awarded, or commute that punishment for any less punishment or punishments to which the offender might have been sentenced by the court-martial, and may, if the sentence passed by the court-martial is found for any reason to be invalid, pass a valid sentence, provided that the punishment awarded by the sentence so passed shall not be higher in the scale of punshiments than, or in excess of, the punishment awarded by the invalid sentence.

PART VIII.

Execution of Sentences.

Detention in military custody.

39. (*1*) Whenever a sentence of rigorous imprisonment is passed under these rules, the Court or the confirming officer may direct that the sentence shall be carried out by detention in military custody.

(*2*) Whenever a sentence of simple imprisonment is passed under these rules, such sentence shall be carried out by detention in military custody.

Execution of sentences of imprisonment.

40. Sentences of imprisonment passed under these rules, whether directed to be carried out by detention in military custody or not, shall be carried out as in the case of sentences passed in British India under the Army Act on persons subject to that Act.

Execution of sentence of fine.

41. When a sentence of fine is imposed by a court-martial constituted under these rules, a copy of such sentence signed and certified by the President of the Court may be sent to the District Magistrate, and in that case such Magistrate shall cause the fine to be recovered in accordance with the provisions of the Code of Criminal Procedure, 1898, for the levy of fine as if it was a sentence of fine imposed by such Magistrate.

V of 1898.

PART IX.

SELECTION COMMITTEES.

Selection Committees.

42. The Local Government may constitute for any district or group of districts a Selection Committee.

Constitution of Selection Committees

43. Every Selection Committee shall consist of—

(*1*) a civil officer to be nominated by the Local Government, who shall be President;

(*2*) a military officer to be nominated by the competent military authority; and

(*3*) not less than three non-official European British subjects to be nominated by or under the orders of the Local Government:

Provided that in case of difficulty the Local Government may make such arrangements as it may consider necessary for the due representation on the Selection Committee of non-official European British subjects.

Procedure and duties of Selection Committees.

44. The competent military authority may forward, or cause to be forwarded, to a Selection Committee nominal rolls of all Indian Defence Force corps or units in the area for which such Selection Committee is constituted showing all the men in such corps or units who are enrolled for general military service, and may furnish to such Committee a statement of the number of men required from such area for appointment to any corps or unit specially formed under the orders of the Commander-in-Chief in India for general military service. Thereupon the Selection Committee shall examine such nominal rolls, and shall, so far as may be, select from the men whose names appear thereon and who are not exempted from military service the requisite number of men to be assigned to the corps or unit so formed.
